Documentation of Public Meeting

Project Location
Rockwall County, Texas

Rockwall County Outer Loop
CSJ: 0918-25-027

Project Limits
From FM 2755 to SH 205

Meeting Location
Liberty Hall, Rockwall County Courthouse
1111 E Yellow Jacket Lane #401, Rockwall, Texas 75087

Available online at: https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2

Meeting Date and Time
In-Person Meeting:
November 9, 2023, from 5:30 p.m. to 7:30 p.m.

Virtual Meeting:
November 9, 2023, at 5:30 p.m. to November 24, 2023, at 11:59 p.m.

Translation Services
Services were available, but none were requested

Video Presentation Narrator
Cherish Anderson - Halff, Inc.

Elected Officials in Attendance
John Vick - District Director, Representing Texas Senator Bob Hall, District 2
Dana Macalik - Rockwall County Commissioner, Precinct 2
John Stacy - Rockwall County Commissioner, Precinct 4
David Billings - City of Fate, Mayor
Mark Harper – City of Fate, City Council Member, Place 2
Dan Tucker – City of McLendon-Chisholm, City Council Member, Place 5
Clarence Jorif – City of Rockwall, City Council Member, Place 3
Scott Muckensturm – Royse City ISD Board of Trustees, President

Total Number of Attendees
214 In-person Attendees (8 Elected Officials, 179 Public, 27 TxDOT Staff/Consultants)
661 Online Attendees

Total Number of Commenters
328
(Including 16 commenters within the Phase 1 study area and
144 commenters within the Phase 2 study area) *

*Approximate based on addresses provided by commenters

Rockwall County Outer Loop Project

November 9, 2023 In-Person and Virtual Public Meeting

Comment/Response Matrix Legend

Item	Response
A (Project Purpose and Need)	The proposed project is needed because there is a lack of north-south connectivity and roadway capacity within Rockwall County to meet local and regional mobility needs and accommodate projected vehicular traffic volume increases on the local roadway network resulting from anticipated development and population growth. The project study area is expected to have 119 percent growth in the next 23 years according to the North Central Texas Council of Governments' (NCTCOG's) demographic forecast. The NCTCOG has predicted the proposed project would provide traffic movement for over 15,000 vehicles per day by 2048. A new location roadway is needed due to the lack of suitable, continuous north-south major arterials in the project vicinity and the projected growth in the project study area. The NCTCOG fiscally constrained *Mobility 2045, 2022 Update* determined any potential north-south roadway in Hunt County would not meet local and regional mobility needs by 2045 and would not be warranted. The purpose of the proposed project is to improve north-south connectivity and mobility at the local and regional level and accommodate population and traffic volume growth by providing a new roadway that would connect to existing highways and the planned Outer Loop in Collin and Kaufman counties. A detailed traffic study is underway for the alternative recommended for further study. Data from this traffic study would be incorporated into the detailed purpose and need statement within the draft Environmental Assessment (EA). The draft EA will be made available to the public during a future public hearing, tentatively scheduled for mid-to-late 2025.
B (Project History)	The concept for the Rockwall County Outer Loop began in 2002 following an initiative from Texas Governor Rick Perry to develop a statewide network of multimodal transportation improvements. Rockwall County developed a routing study in 2005 which resulted in a preliminary roadway corridor that was integrated in the North Central Texas Council of Governments' (NCTCOG's) long-range mobility plan in 2007. In 2011, the NCTCOG conducted a feasibility study over 12 counties to identify a regional outer loop around the Dallas-Fort Worth Metroplex. In that feasibility study, the Rockwall County Outer Loop was identified as a segment of independent utility for continued development and further evaluation. The current feasibility study builds on Rockwall County's locally preferred alternative alignment identified in January 2007 and the 2011 NCTCOG *Regional Outer Loop Corridor Feasibility Study*. The current study developed alternatives by updating previous analyses that are more than a decade old,

	including examining recently constructed and planned developments, before identifying the alternative recommended for further study. The Rockwall County Outer Loop is included in local and regional planning documents, including thoroughfare plans published by the City of Rockwall, City of Royse City, and Rockwall County. Each thoroughfare plan was examined and utilized in developing alternatives evaluated during the feasibility study. All thoroughfare plans are publicly available on each city's and Rockwall County's website.
C (Alternative Recommended for Further Study)	The purpose of the feasibility study stage of the Rockwall County Outer Loop Project is to identify and recommend an alternative that (1) is reasonable and feasible, (2) meets the project purpose and need, (3) is consistent with local and regional planning documents and (4) minimizes impacts to the extent possible in the corridor. During the feasibility study, multiple roadway alignment alternatives were developed and evaluated using 41 different quantitative measures. Criteria categories included engineering and design features, community and socio-economic impacts, major infrastructure and federal property, natural and Section 4(f) resources, transportation performance, and other general measures. Data was collected from a variety of available desktop-based resources, including recent aerial imagery and publicly available geographic information systems (GIS) data. Following the November 2022 public meeting, new and revised alternatives were developed to incorporate public and stakeholder input. The same evaluation criteria were then applied to the new and/or modified alternatives with the addition of number of homes within 500 feet and refinement of types of open space. Based on this evaluation, the project team identified the alternative recommended for further study, which consists of the Phase 1 Hybrid Alternative (comprised of the Phase 1 North Green Mod Alternative, Phase 1 Middle Aqua Alternative and the Phase 1 South Aqua Alternative) and the Phase 2 Modified Green/Purple Alternative. The alternative recommended for further study will continue to be refined during schematic development to reduce potential impacts as much as possible. <u>Elimination of Phase 2 Aqua and Pink Alternatives in Southern Rockwall County</u> Phase 2 Aqua and Phase 2 Pink alternatives were added to the feasibility study following the November 2022 public meeting to address public requests to consider alternate routes. Phase 2 Aqua, which extends out west of Farm to Market Road (FM) 548 towards McLendon-Chisholm, was analyzed and ultimately eliminated from further consideration due to (1) increased residential displacements, (2) increased alignment length, (3) increased floodplain impacts, and (4) increased project cost relative to the alternative

	recommended for further study. Phase 2 Pink, which extends out east of FM 548 toward the eastern Rockwall County line, was analyzed and ultimately eliminated from further consideration due to (1) increased residential displacements, (2) increased alignment length, (3) increased impacts to existing conservation easements, (4) increased number of property owners affected by proposed ROW, and (5) increased project cost relative to the alternative recommended for further study. Additionally, both alternatives would be inconsistent with local and regional planning documents.
D (Regional Outer Loop)	The Rockwall County Outer Loop Project is part of the regional outer loop examined during the 2011 North Central Council of Governments (NCTCOG) *Regional Outer Loop Corridor Feasibility Study*. The eastern portion of the outer loop includes segments in Denton County, Collin County and Kaufman County, in addition to the proposed Rockwall County Outer Loop. Each county's respective portion of the regional outer loop is a separate project in varying stages of study, planning, development, or construction. Project teams are coordinating to create a continuous roadway with a smooth connection near county limits. For more information on other segments of the eastern regional outer loop, please refer to the project websites listed below: *Denton County Outer Loop Project:* https://burnsmcd.mysocialpinpoint.com/dentoncountyouterloop/home *Collin County Outer Loop Project:* https://www.collincountytx.gov/Services/Engineering/transportation/outer-loop *Kaufman County Outer Loop Project:* https://kaufmanouterloop.com
E (Other Roadway Projects)	The Rockwall County Outer Loop Project is an independent project and would not delay improvements included in other roadway projects, several of which are currently in development. The Rockwall County Outer Loop Project is currently within the feasibility study stage of project development. At this time, the estimated construction completion date is to be determined, contingent upon available funding and need; however, construction is not anticipated to overlap with projects currently or soon to be under construction, including State Highway (SH) 205 widening, Farm to Market Road (FM) 548 widening, and the Interstate Highway (IH) 30 frontage road bridges. Other ongoing roadway projects would not address the Rockwall County Outer Loop Project's purpose and need. The North Central Council of Governments (NCTCOG) has identified the Rockwall County Outer Loop as warranted, even when other ongoing roadway projects are completed.

	Adjacent projects include but are not limited to: **IH 30 Improvement Project** The IH 30 Improvement Project is a separate project led by TxDOT that includes improvements to IH 30 from Bass Pro Drive to west of FM 2642. For more information you can visit www.keepitmovingdallas.com and search for "IH 30 Improvement Project." **President George Bush Turnpike (PGBT)** The PGBT East Branch Project is a separate project led by NTTA that would extend the PGBT south from IH 30 to IH 20. For more information you can visit https://www.ntta.org/president-george-bush-turnpike-pgbt. **SH 205 from United States Highway (US) 80 to SH 78 Projects** SH 205 widening projects are separate projects led by TxDOT that would widen SH 205 from US 80 in Terrell to SH 78. For more information you can visit https://www.keepitmovingdallas.com/projects/state-highways/sh-205-from-us-80-to-sh-78. **FM 548 Projects** The FM 548 Widening and Reconstruction Project is a separate project led by TxDOT that would widen FM 548 from north of US 80 in Kaufman County to SH 205 in Rockwall County. For more information you can visit www.keepitmovingdallas.com and search for "FM 548 Widening and Reconstruction." A second FM 548 widening project from SH 66 to south of Crenshaw Road in the vicinity of the Waterscape subdivision in Royse City is under study by Rockwall County.
F (Right of Way (ROW))	The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) presented during the November 9, 2023 public meeting is preliminary and subject to revision during schematic development. Minimizing the number of displacements and impacts to property owners is an important consideration throughout project development. Impacts to property would be assessed during the ROW acquisition process. The process would follow the procedures under the Texas Department of Transportation (TxDOT) Right of Way Acquisition and Relocation Assistance Program and would be conducted in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policy Act of 1970, as amended in the Uniform Relocation Assistance Act of 1987. Once the ROW map is approved and the project is environmentally cleared, ROW acquisition staff and consultants would contact the property owner to initiate TxDOT's Right-of-Way

	Acquisition and Relocation Assistance Program. Then, the staff would determine the project ROW needs at the landowner's parcel based on the approved ROW map. The property would be appraised, and fair market value would be offered to the landowner for any land and improvements needed for ROW. Additionally, damages to the remaining property (if any) would be appraised and included in the fair market value offer. Relocation benefits would be offered to all eligible tenants.
G (Proposed Bridges)	The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed bridge locations, lengths, and elevations presented during the November 9, 2023 public meeting will be further evaluated during schematic development.
H (Safety)	Rockwall County and the Texas Department of Transportation (TxDOT) design and construct roadways in accordance with applicable engineering standards, and the purpose of the proposed project is to enhance mobility and safety for motorists, bicyclists and pedestrians. Rockwall County partners with many other law enforcement agencies to prevent crime and enforce the law to keep Rockwall County safe. There are many variables that affect criminal activity and crime rates, and Rockwall County cannot reasonably foresee if or how the proposed project would affect crime in the area. However, Rockwall County would continue addressing crime that falls under its jurisdiction as appropriate under the law.
I (Noise)	A traffic noise analysis will be performed as part of the environmental studies being completed for the project, in accordance with the National Environmental Policy Act (NEPA) and the Texas Department of Transportation's (TxDOT's) *Procedures for Analysis and Abatement of Roadway Traffic Noise and Construction Noise*. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers will be shared with the community before preparing the final project design. Regarding noise impacts during construction, heavy machinery is the primary source of noise during construction and impacts are difficult to quantify because of constantly varying activities. However, construction normally occurs during daylight hours when occasional loud noise is tolerable. The project plans and specifications would include documentation to require the contractor to make every reasonable effort to minimize construction noise through abatement measures such as work-hour controls and proper maintenance of equipment muffler systems.

J (Induced Growth & Community Impacts)	The Rockwall County Outer Loop is proposed in response to expected growth and traffic volume increases that will occur independently of the proposed project. Construction would occur in phases to accommodate the anticipated growth and development as it occurs. Initial construction would consist of a single frontage road with two lanes, one operating in each direction. A community impacts analysis will be performed as part of the environmental studies being completed for the project, in accordance with the National Environmental Policy Act (NEPA). The analysis will include an evaluation of potential impacts to residences, businesses, community facilities (including schools) and broader community cohesion in the study area as a result of the proposed project. An induced growth impacts analysis will be performed as part of the environmental studies being completed for the project, in accordance with NEPA, which will examine the proposed project's potential to induce development.
K (Air Quality)	An evaluation of air quality impacts will be performed as part of the environmental studies being completed for the proposed project, in accordance with the National Environmental Policy Act (NEPA). Under the Clean Air Act, the proposed project is required to conform to the State Implementation Plan to meet federal air quality standards, meaning that the project will not cause or contribute to any new violations of the National Ambient Air Quality Standards (NAAQS); increase the frequency or severity of NAAQS violations; or delay timely attainment of the NAAQS or any required interim milestone. Environmental investigations will include a traffic air quality analysis, including an evaluation of mobile source air toxics and congestion reduction strategies and operational improvements under the congestion management process, as applicable. In addition, part of the purpose of the proposed project is to manage congestion considering projected traffic and travel patterns on major roadways in the study area. Congestion causes traffic to stop and go more frequently, resulting in the release of more greenhouse gases in localized areas. By improving overall mobility, traffic can maintain constant speeds and in-turn, decrease the amounts of greenhouse gases released.
L (Biological Resources)	An evaluation of wildlife habitat and vegetation resources will be performed as part of the environmental studies being completed for the project, in accordance with the National Environmental Policy Act (NEPA). As part of the investigation, environmental scientists will identify potential habitat within proposed right of way (ROW) and potential effects on threatened and endangered species. Mitigation strategies will be evaluated and proposed, as appropriate.

Rockwall County Outer Loop Project

November 9, 2023 In-Person and Virtual Public Meeting

Comment/Response Matrix Legend

M (Farmland)	An evaluation of prime farmland and land use will be performed as part of the environmental studies being completed for the project, in accordance with the National Environmental Policy Act (NEPA). As part of the investigation, potential impacts to prime farmland and the effect on land use changes within the project study area would be identified.
N (Roadway Illumination)	Roadway illumination is designed during the Planning, Specifications, and Estimates (PS&E) stage of project development and would be determined at a later date.
O (Property Value)	Changes in property values are driven by a variety of site-specific factors. Rockwall County and the Texas Department of Transportation (TxDOT) cannot reasonably foresee how property values may be affected in a negative or positive way.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
1	Adams, Shawn	11/22/2023	SurveyMonkey Comment	Traffic is already terrible and the county doesn't have the infrastructure or the capacity to deal with the problem as it stands today. This will likely lower property values and increase traffic leaving the county in worse shape than it is. I vote NO...	Comment noted. See **Responses A (Project Purpose and Need) and O (Property Value)** in the Comment/Response Matrix Legend.
2	Adcox, Jayme	11/22/2023	SurveyMonkey Comment	1000% AGAINST THIS LOOP!	Comment noted.
3	Ahrens, Todd	11/24/2023	SurveyMonkey Comment	There is no reason for this to split/divide 5 neighborhoods with home a million dollars and up. It should go all the way out to Greenville and be a much larger loop. This serves no benefit at all to the citizens of Rockwall County. It certainly doesn't help any of us get to Dallas or Fort Worth quicker. The fact it is simply a toll road by pass from I35 north to I30 east. It will lead to more high density development of homes and commercial in an already overcrowded county. Where the 6 lane HWY 205?we were told would be done by 2019/20. Rockwall County had a huge bond approved a few years ago that promised to redo/widen all our FM roads. They haven't even started that. This is a bait and switch. Finish or start what you promised before you even think of building this. Learn from the miscues of Forney, Garland, Mesquite. All over populated and now run down with crime and poor infrastructure and high taxes. This road solves nothing. When are you gonna be honest and tell folks it's a "toll road".	See **Responses A (Project Purpose and Need), E (Other Roadway Projects), H (Safety) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. The proposed project configuration would consist of a two-lane frontage road in each direction, four general purpose lanes (two in each direction), and two shared use bicycle/pedestrian paths (one on the outside of each frontage road) within 500 feet of right of way (ROW). No managed lanes are currently proposed as part of the project. Funding sources are to be determined.
4	Ainsworth, Linda	11/20/2023	Voicemail Comment	I live at 413 E Linda Lane in Royse City. I wanna talk to you about this highway that's coming through that I've just found out about. It looks like it's going to come right through several acres of my property and I sure would like to talk to someone to see what's going on. Could you please give me a call back at 469-323-6071?	See **Response F (Right of Way (ROW))** in the Comment/Response Matrix Legend. **On 11/21/2023, Matt Craig, PE, Consultant Project Manager, called Linda Ainsworth to understand her concerns. The discussion is summarized as follows:** Linda owns the third house on the south side on Linda Lane west of FM 548 and the vacant tracts east and west of her house. Right of way (ROW) is proposed on her property. Her family owns houses west of her on Linda Lane and Tammie Lane. She is concerned about potential impacts to her property and home. Matt will schedule an in-person follow-up meeting with Linda to review project materials. **An in-person meeting between the Project Team and Linda Ainsworth was held on 12/20/2023 to answer any questions she may have about project development or the ROW acquisition process.**
5	Amanda	11/22/2023	SurveyMonkey Comment	No to Rockwall County outer loop	Comment noted.
6	Arredondo, Gilbert	11/24/2023	SurveyMonkey Comment	This loop is not needed once 205 is properly widened.	See **Responses A (Project Purpose and Need) and E (Other Roadway Projects)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
7	Artice, Don & Amy	11/24/2023	SurveyMonkey Comment	Please do not utilize High Point Lake Estates to input this loop.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located adjacent to and northwest of the High Point Lake Estates subdivision. Right of way (ROW) would be proposed on two parcels within the subdivision at the Kuban Road intersection and the western-most corner of High Point Lake Estates. No displacements are anticipated within High Point Lake Estates. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
8	Avila, Cecilia	11/22/2023	SurveyMonkey Comment	Would you like to live near traffic, or hearing a busy highway in the morning? Ask yourself if this is what you would like your grandchildren to live near by	See **Responses A (Project Purpose and Need) and I (Noise)** in the Comment/Response Matrix Legend.
9	Baker, Mike	11/22/2023	SurveyMonkey Comment	There is no need for this type of highway in our rural area you need to be focused on the traffic on 30! We do not want this!	See **Responses A (Project Purpose and Need) and E (Other Roadway Projects)** in the Comment/Response Matrix Legend.
10	Bardin, Robert	11/24/2023	SurveyMonkey Comment	My home and business is located on Roll 3 of 5, of the new path options. The previous options showed the roadway well behind us, now it looks to take almost half of our ag pasture and comes unacceptably close to our pond and the our neighbor's (Gary Edge) home! This section seems to run very straight. Can this be angled maybe one or two degrees more toward the west starting from the Munson road interchange running north, to push it closer to the antenna tower and create as much distance as possible on the eastern edge? This may help save our pond and provide as much distance as possible for the Edge residence as well. There's a triangle piece of land that we will be separated from if the road development proceeds in this configuration on the west side. Reducing that triangle on west side of roadway in favor of more area on east side of roadway is 100% our preference. This of course assumes the cell tower isn't/can't be moved or relocated. If that is an option, we would be willing to trade or negotiate in an effort to retain as much property east of the road's final pathway.	See **Responses C (Alternative Recommended for Further Study) and F (Right of Way (ROW))** in the Comment/Response Matrix Legend. The project team will review the alignment modification request.
11	Barker, Heather	11/21/2023	SurveyMonkey Comment	Please do not build the outer loop close to our neighborhoods. We enjoy the small streets filled with our kids laughter. Our neighborhood does not benefit from this nor does Rockwall County. We moved here for the quietness and the low crime rate being outside the city.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), H (Safety), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
12	Barker, Justin	11/21/2023	SurveyMonkey Comment	This is extremely absurd. When we moved here to our area it’s Becuase it was not in town. This is not what we need in this area	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
13	Barnes, Braden	11/24/2023	SurveyMonkey Comment	I am strongly against the outer loop. It will destroy what little country Rockwall County still has left. Also, I fear for road related accidents with speed intersecting smaller roads in places and overall traffic volume increases.	Comment noted. See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Rockwall County and the Texas Department of Transportation (TxDOT) design and construct roadways in accordance with applicable engineering standards, and the purpose of the proposed project is to enhance mobility and safety for motorists. The posted speed limits would be determined through a speed study when the project is completed. A detailed traffic analysis would be performed in future design phases of the project to determine traffic signal and/or other traffic control device locations.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
14	Barnes, Robert	11/22/2023	SurveyMonkey Comment	Any kind of traffic relief will be a blessing! I am all for it.	Comment noted.
15	Basinger, Ryan	11/22/2023	SurveyMonkey Comment	This is not wanted in this area, where so many landowners moved outside of city limits to escape highways and noise. This would be better suited to route through Hunt and Kaufman counties which are growing and need more connection. This will only funnel more traffic onto I-30.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
16	Bates, Ben	11/21/2023	SurveyMonkey Comment	Inducing demand isn't solving the problem that's being made up. If you need more capacity, just expand 548 to two lanes.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
17	Bauer, Scott	11/24/2023	SurveyMonkey Comment	Myself and many neighbors in High Point Lake Estates are extremely worried about the noise, light (from headlights at night), and exhaust pollution that will be created by the amount of traffic of the nearby outerloop. I specifically bought this property because I have witnessed the severity of the noise of nearby traffic when originally looking for property. Large semi-trucks and freight hauling produce significant amounts of noise, not to mention the impact to the clean air that will now be compromised. This will not only create an impact to quality of life, but also health, and reduce the value of the property. Whatever the solution is for routing the outer loop, there must at a minimum, be a substantial physical barrier put in place to block light, sound, and if possible, exhaust pollution. Large long berms of at least 15 feet in height with trees to help block road noise and headlights at night must be in place if the loop must be anywhere near the neighborhood. is Additionally, something needs to be put in place to ensure that the neighborhood must not have an obstructed access to the city of rockwall. The majority of the community commutes multiple times per day via 205, and having to either dodget traffic, or enter the outerloop and perform U-Turns is unacceptable. Everyone that I know communtes primarily to Rockwall, so the outer loop will further create even more heavy traffic for people exiting the loop and take 205 to enter Rockwall. The Outerloop being ran to Royse City does not benefit Rockwall citizens at all, but primarily creates significant problems for those who live and commute within Rockwall County. Since the outerloop provides no benefit to the county of Rockwall, it should extend outside of the county instead of going through the county. Rockwall county roads are already severely congested, frustrating, and unusable due to Rockwall County's unwillingness to widen roads and increase intersection flow capacity near I-30, so this will only create more burdens for those living south of Rockwall. Therefore, before any outer-loop solutions are considered, Rockwall roadway infrastructure needs to be addressed first.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects), I (Noise), K (Air Quality), N (Roadway Illumination) and O (Property Value)** in the Comment/Response Matrix Legend. Existing access to High Point Lake Estates via Kuban Road is anticipated to remain open and unobstructed. The proposed project would provide access to the City of Rockwall via the proposed frontage road intersection at Kuban Road and the proposed connection to SH 205. According to the Federal Highway Administration (FHWA) Noise Barrier Design Handbook, noise berms generally occupy more space than a wall type of noise barrier. This is mainly due to the sloping sides of the berms which must be gradual enough to maintain stability of the structure. The space required for a noise berm would lead to a corresponding increase in right of way (ROW) needs, resulting in increased impacts to adjacent property owners. The potential for a noise berm or other kind of buffer zone near High Point Lake Estates will be considered by the project design team.
18	Bauman, Sally & Michael	11/23/2023	Email Comment	I live at 4070 Wincrest in High Point Lake Estates. The proposed route for the new outer look running adjacent to our community is not something I want to see. We have lived her for 13 years and understand growth is coming to our rural community. However, the alternative route moving the alignment away High Point Lakes Estate would be a much better choice effecting far fewer residents. Please take this as our vote to move the alignment as far possible from our quiet community.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
19	Bedsole, Cathy & Ted	11/22/2023	SurveyMonkey Comment	We do not want the loop built!	Comment noted.
20	Bellinger, Stephanie	11/23/2023	SurveyMonkey Comment	NO. The outer loop needs to be further north. This is much too restrictive and not a long term solution.	Comment noted. See **Responses A (Project Purpose and Need) and D (Regional Outer Loop)** in the Comment/Response Matrix Legend.
21	Beres, Laura	11/24/2023	SurveyMonkey Comment	The placement of this loop could greatly affect communities that have chosen to live out in the country. We live in high point lake estates and would vote that it does not affect the peace and quiet of our neighborhood that we so enjoy, country living is the best!! . Please please take that into consideration as we do not wish to live near the noise that a large highway could create.	See **Responses C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
22	Bernal, Jose	11/24/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
23	Bessel, Paulette	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
24	Blair, Kevin	11/23/2023	SurveyMonkey Comment	This project will significantly impact my immediate community and neighborhood in a profound and negative way. The propose Corridor will bat up immediately next to multiple neighborhoods that never anticipated such a freeway system would be built when we bought our homes. Our Our neighborhood was established on the basis of being away from large city developments with 1-3 acre lots. This freeway towering over it as it butts up to properties will have a much greater economic impact than if we were a high density neighborhood. There are plenty of options for routing this through areas which do not have the development established.	See **Responses B (Project History), C (Alternative Recommended for Further Study), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
25	Blumhardt, Amy	11/22/2023	Email Comment, SurveyMonkey	I wish to express my concern about the Rockwall Outer Loop near High Point Ranch. This will cause: 1. Extreme noise congestion 2. Crime 3. Pollution 4. Ruining the integrity of where we live. Please reconsider an alternative plan instead of being placed near 548.	See **Responses C (Alternative Recommended for Further Study), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend.
26	Bonnin, Donna	11/9/2023	Written Comment	Opposed to the noise that being only 1/2 mile away will bring. Need to provide barriers to housing developments that close.	A traffic noise analysis will be performed as part of the environmental studies being completed for the project, in accordance with the National Environmental Policy Act (NEPA) and the Texas Department of Transportation's (TxDOT's) *Procedures for Analysis and Abatement of Roadway Traffic Noise and Construction Noise*. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. Under the alternative recommended for further study, the Chisholm Ranch subdivision would be located non-adjacent to and approximately a quarter mile west of the proposed Rockwall County Outer Loop; therefore, noise abatement would not meet federal and TxDOT criteria. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
27	Bonsante, Margaret	11/20/2023	SurveyMonkey Comment	The Outer Loop will have adverse effects on neighboring homes in the form of noise and air pollution, increase in crime as a result of easy access with highway, increase in traffic as a result of on ramps and exits right at entry to High Point Lake Estates and ruining the aesthetic of the countryside.	See **Responses A (Project Purpose and Need), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ramps presented during the November 9, 2023 public meeting will be further evaluated during schematic development.
28	Booth, Becky	11/22/2023	SurveyMonkey Comment	Outer loop, while not desirable, if must happen the pink route is the best option. Rockwall has a small town feel that people moved here for and it is disintegrating at a rapid pace.	See **Responses C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
29	Borek, Richard	11/23/2023	SurveyMonkey Comment	No this loop would need to be beyond the lake because elevated roadways are not only an eyesore but don't leave any room for growth in the future.	See **Response G (Proposed Bridges)** in the Comment/Response Matrix Legend. The proposed Rockwall County Outer Loop would be located over six miles east of Lake Ray Hubbard within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall in Rockwall County.
30	Boulware, Melyssa	11/23/2023	SurveyMonkey Comment	This project needs to be pushed further east to where it does not affect Rockwall businesses, homes with land or Tate Farms. Building the loop between 2 established roads isn't the answer.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
31	Bowman, John & Rebecca	11/23/2023	SurveyMonkey Comment	We live pretty much on the line between Fate and Royse City. We DO NOT want this outer loop running through our area. We don't need the noise and pollution. We've lived here 23 yrs,Let us live in peace and move it east of Buc-cee's.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), I (Noise) and K (Air Quality)** in the Comment/Response Matrix Legend.
32	Bradshaw, Janet	11/26/2023	SurveyMonkey Comment	There are better options of routes-why not take from 30 to 80?	See **Responses C (Alternative Recommended for Further Study) and D (Regional Outer Loop)** in the Comment/Response Matrix Legend.
33	Brons, Christopher	11/9/2023	Written Comment	The location of this project in connection to Waterscape in Royse City does not settle well for our community. Our community is built in a rural area with minimal traffic/noise. Placing this highway system within 1500 ft of our entrance will create a lot of extra noise and an exit point from the highway directly into our neighborhood. Additionally having 548 change from 4 lanes into 2 lanes immediately in front of Waterscape will further increase the traffic issues. That decrease in lanes should take place after making that final sharp turn while traveling south on 548 –> 32.93159°N, 96.33957°W	See **Responses A (Project Purpose and Need), E (Other Roadway Projects), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would run parallel to and west of the existing Farm-to-Market Road (FM) 548 roadway adjacent to the Waterscape subdivision. The alternative recommended for further study will continue to be refined and the connection to FM 548 in the vicinity of the Waterscape subdivision will be evaluated during the schematic development phase. Modifications to the typical section of FM 548 in the vicinity of the Waterscape community are outside of the project scope but are included in a separate project under study by Rockwall County.
34	Brown, Frances	11/22/2023	SurveyMonkey Comment	Absolutely DO NOT want this outer loop. It will reduce property values and displace people from their homes. I DO NOT want this in my back yard!!	Comment noted. See **Responses F (Right of Way (ROW)) and O (Property Value)** in the Comment/Response Matrix Legend.
35	Brunk, Darcy	11/24/2023	SurveyMonkey Comment	I am not in support of this outer loop. It will ruin the aesthetic beauty of the lake and the timeline for construction will cause way too much issues. It will adversely affect the county economy and cause economic hardships for the local businesses.	Comment noted. See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. The proposed Rockwall County Outer Loop would be located over six miles east of Lake Ray Hubbard within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall in Rockwall County. The construction phase of the project is currently unfunded and cannot let until funding is identified. At this time, the timeline for construction and the estimated completion date are to be determined, contingent upon available funding and need. Construction would occur in phases to accommodate the anticipated growth and development as it occurs. Initial construction would consist of a single frontage road with two lanes, one operating in each direction.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
36	Bryce	11/22/2023	SurveyMonkey Comment	Absolutely not. This is the same reason we don't have DART coming into Rockwall county. You are supposed to serve our interests, not the other way around.	Comment noted.
37	Bulgarelli, Renzo	11/21/2023	SurveyMonkey Comment	Unacceptable due to noise and traffic. I do not support this highway that close to our neighborhood.	Comment noted. See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and I (Noise)** in the Comment/Response Matrix Legend.
38	Burger, Lawrence	11/22/2023	SurveyMonkey Comment	We do not need the outer loop in Rockwall. We need to complete 205 first to help elevate any traffic congestion now before any other projects are even considered. When the loop was first thought of there were less homes in the area. Now we have several subdivisions that would be impacted by this project. The whole reason we moved out to Rockwall was for the country feel. Stop putting businesses first and think of those who live here. Especially those who vote.	See **Responses A (Project Purpose and Need), B (Project History), E (Other Roadway Projects) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
39	Burgess, Shannon	11/22/2023	SurveyMonkey Comment	My husband and I live in High Point Ranch and we strongly do NOT want this road in our front yard - FM 548. We understand the need for progress but not by bringing the noise and congestion to us that we don't currently have.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
40	Burkard, Jerry	11/9/2023	Written Comment	I am in favor of the current preferred alignment.	Comment noted.
41	Burnett, John	11/27/2023	Voicemail Comment	I live at 256 Howell Road in Royse City and I see that you have your number as a contact for that outer loop. I'm just trying to question, is there a more clear map because when I look at it, I can't tell if it's going to be on my street? I mean where it's going to come at, it's not real clear. So I don't know if it's gonna miss me or hit me. So just wondering if there's any way I could, you know, get more clarity on that.	**On 11/27/2023, Matt Craig, PE, Consultant Project Manager, called John Burnett to review the project alternative recommended for further study. The discussion is summarized as follows:** John was concerned the alternative recommended for further study might displace his house. Matt referred him to the public meeting roll plots 2 and 3, which show John's home approximately 0.5 mile from the alternative recommended for further study. John seemed satisfied with the information provided.
42	Burns, Natalie	11/20/2023	SurveyMonkey Comment	I strongly oppose the construction of an outer loop highway near our established neighborhood, HPLE. Such a development would have numerous negative repercussions on the quality of life for the residents in the area. Firstly, the noise pollution generated by constant traffic would disrupt the peace and tranquility that the neighborhood currently enjoys. This would not only affect the residents' ability to relax and enjoy their homes, but it could also have a detrimental impact on their health and well-being. Additionally, the increased traffic flow would inevitably lead to heightened levels of air pollution, posing risks to the respiratory health of the residents and contributing to environmental degradation. Moreover, the construction of a highway in close proximity to an established neighborhood could potentially devalue the properties in the area, causing financial losses for homeowners. Overall, the negative consequences of building an outer loop highway near an established neighborhood far outweigh any potential benefits it may bring.	Comment noted. See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts), K (Air Quality) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
43	Bush, Megan	11/22/2023	SurveyMonkey Comment	I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 expansion project which has significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, causes numerous internet interruptions (some lasting multiple days). The addition of an 8 lane freeway would be catastrophic to our community and reasons we all decided to build our homes and families here. I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well. We are proponents of the pink route, or the route that starts further down 205 in Kaufman county, as we believe these would cause as little disruption as possible and also accomplish the goals of this project. There is no reason to impact the homes and property values of so many people with clear land to build the road elsewhere.	See **Responses C (Alternative Recommended for Further Study), I (Noise) and O (Property Value)** in the Comment/Response Matrix Legend.
44	Buskirk, Brent	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
45	C, Greg	11/17/2023	SurveyMonkey Comment	I think this is a waste of taxpayers money. This option is not needed and will not affect the current traffic flow that is already on the roadway. Spending millions of dollars on this project will not impact commute, but will have a negative impact on the community, landscape, and environment around. This is a waste of taxpayer funds.	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
46	Carlson, Cynthia	11/24/2023	SurveyMonkey Comment	It would be best if this was rerouted to an area less populated now. I'm sure when originally planned the neighborhoods here now were not developed yet. Therefore it needs to be moved.	See **Responses B (Project History) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
47	Carpenter, Sonya	11/22/2023	SurveyMonkey Comment	We do want the outer loop. We moved to Rockwall County in 2008, since then FM 552 expansion took half of my front and side yard plus over 10 mature trees. The city side had almost no land taken. Please do not pick on the underdogs. Look at all options be transparent as if it was your land being impacted. How do we get more information? Currently I have only heard from Collin County.	The address provided is located over 3.5 miles from the alternative proposed for further study and is outside of the Rockwall County Outer Loop Project study area. Therefore, the address was not included within the study area property owners mailout for the November 9, 2023 public meeting; however, notices for the public meeting were advertised in Spanish in Al Día, and in English in the McKinney Courier-Gazette, Rockwall County Herald-Banner, Royse City Herald-Banner, Dallas Morning News, and on the TxDOT.gov website under "Hearings and Meetings." To access the virtual public meeting, go to Rockwall County's website at www.rockwallcountytexas.com/loop and navigate to the "RCOL Public Meeting #2" page on the lefthand side. All project materials available to the public to date are included within the virtual public meeting. The address provided, 2752 Farm-to-Market Road 552, Rockwall, Texas, will be added to the Rockwall County Outer Loop Project mailing list to receive notification of future public involvement activities.
48	Carter, Tonya	11/22/2023	SurveyMonkey Comment	The current map has the loop Coming right behind our homes in the Sleepy Hollow community in Fate Please move it further East!!!!	See **Responses and A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
49	Chadwell, Maria	11/22/2023	SurveyMonkey Comment	We moved out of the city for many reasons, noise pollution, people, traffic, and crime. We don't want this in our backyard.	See **Responses A (Project Purpose and Need), H (Safety) and I (Noise)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located over 1.5 miles east of the address provided, 235 Thatcher Drive, Fate, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
50	Chapman, Tammy	11/21/2023	SurveyMonkey Comment	Do not build this in my backyard.	Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 1.3 miles southwest of the address provided, 1360 Ashley Drive, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
51	Chilcoat, Robyn	11/22/2023	SurveyMonkey Comment	I'm all for the location and building of the loop. The traffic in and around Rockwall is horrible and this would help eliviate some of the congestion. Just please don't start this until other major construction is done.	Comment noted. See **Response E (Other Roadway Projects)** in the Comment/Response Matrix Legend.
52	Chris	11/22/2023	SurveyMonkey Comment	I am against the current design of the outer loop.	Comment noted.
53	Christensen, Bryan	11/9/2023	Written Comment	I prefer the Aqua option 1st or the Pink option of Phase 2. The noise from the traffic that would divide the subdivisions on Hwy 548 off Hwy 205 would be unbearable. I moved to the country for peace!!	See **Responses C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
54	Christensen, Gwen	11/24/2023	Email Comment	As a home owner and property tax payer for the county of Rockwall, I would hope our opinions are heard. Personally, I feel this outer loop would directly impact less homeowners and working ranch owners if the loop was pushed out to Hunt county and not take 14 miles of the smallest county in the state and replace it with concrete. Of the options of paths, I would pick the pink option first which would push it farther out. More land and less concrete is a better option for the environment. My personal choice is and will be to put it in the next county Hunt county. Please consider this an option.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
55	Christensen, Valerie	11/9/2023	Written Comment	I prefer Phase 2 alternative Aqua (Westmost, into McLendon-Chisholm) or the Pink option (east-most near Kaufman CO.). The division between the subdivisions on 548 will only add noise to the subdivisions	See **Responses C (Alternative Recommended for Further Study) and I (Noise)** in the Comment/Response Matrix Legend.
56	Christopher, Larry	11/24/2023	SurveyMonkey Comment	I am asking for an alternative route to the one that track near to High Point Lakes Estates.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
57	Clark, April	11/22/2023	SurveyMonkey Comment	Against	Comment noted.
58	Clark, Cody	11/23/2023	SurveyMonkey Comment	I believe we should move forward with the loop	Comment noted.
59	Clower, Robby	11/21/2023	SurveyMonkey Comment	Please do not put it by my neighborhood High Point Lake Estates. It will cause financial harm to our family by negatively affecting our home value.	See **Responses C (Alternative Recommended for Further Study) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
60	Collins, Larry	11/22/2023	SurveyMonkey Comment	Please vote NO on this one	Comment noted.
61	Connally, Josh	11/22/2023	SurveyMonkey Comment	This is a terrible idea.	Comment noted.
62	Connolly, Jen	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
63	Conran, Chris	11/24/2023	SurveyMonkey Comment	Locating the outer loop so close to a neighborhood is financially irresponsible for people that have invested in their homes in this area. There are other options that won't impact peoples home investments.	See **Responses C (Alternative Recommended for Further Study) and O (Property Value)** in the Comment/Response Matrix Legend.
64	Conway, Krista	11/22/2023	SurveyMonkey Comment	This new expansion will take out the only outdoor sand volleyball that Rockwall has. The owners put their own blood sweat and tears into building this place and all the spectators and players would hate to see this be replaced by more concrete. Let the land stay. Rockwall/Royse City/Fate does not need more expansion. Fix the roads we have already.	See **Responses A (Project Purpose and Need) and E (Other Roadway Projects)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, Bumpy Pickle Beach is not anticipated to be displaced. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time. Any potential business relocations will be evaluated along with other factors as part of the community impacts assessment to be completed for the proposed project in accordance with the National Environmental Policy Act (NEPA).
65	Cross, Zach	11/22/2023	SurveyMonkey Comment	This is a horrible idea. Concrete walls, increases in traffic from people who are not from the area. This will definitely raise crime rates. This is a no go for almost all Rockwall residents.	Comment noted. See **Responses A (Project Purpose and Need) and H (Safety)** in the Comment/Response Matrix Legend.
66	Crow, Adam	11/21/2023	SurveyMonkey Comment	We do not want this by our neighborhood!!!!! There have to be alternate routes for this loop!! I will vote against this if given the opportunity	Comment noted. See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
67	Crow, Amber	11/21/2023	SurveyMonkey Comment	This route not be ideal for our community. We are primarily a community filled with many young children that would be negatively impacted by this project including loss of sense of safety, exposure to pollutants and many people selling their homes. There are several other alternatives including those that would go through Kauffman county that would be of better choice.	See **Responses C (Alternative Recommended for Further Study), D (Regional Outer Loop), H (Safety) and K (Air Quality)** in the Comment/Response Matrix Legend.
68	Cunningham, Matthew	11/22/2023	SurveyMonkey Comment	The loop needs to be in hunt and Kaufman county, it's too close to Mclendon Chisholm. To close to subdivisions.	See **Responses A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
69	Dale, Beverly	11/27/2023	Voicemail Comment	I'm calling concerning the Rockwall Outer Loop. I'm trying to get a more detailed map of where that proposed loop is supposed to come between 550 and 548. I own property at 550 and I'm trying to see if it's going to impact me.	**On 11/27/2023, Matt Craig, PE, Consultant Project Manager, called Beverly Dale to review the project alternative recommended for further study. The discussion is summarized as follows:** Beverly owns a vacant lot at the southwest corner of South Creek Drive and Farm-to-Market Road (FM) 550. She was concerned the alternative recommended for further study might pass through her land and/or her son's house (no address provided). Matt referred her to the public meeting roll plots 2 and 3, which show Beverly's land approximately 800 feet west of the alternative recommended for further study. Beverly seemed satisfied with the information provided.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
70	Danniell	11/22/2023	SurveyMonkey Comment	No!	Comment noted.
71	Davidson, Kathy	11/23/2023	SurveyMonkey Comment	I'm opposed to the outer loop being built near highway 548. This would be to close to many residential areas and businesses. This could cause many home owners to be forced out of their home. It would make more sense to build the outer loop further east.	Comment noted. See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
72	Davis, Brent	11/22/2023	SurveyMonkey Comment	We need this project.	Comment noted.
73	Davong, Andy	11/9/2023	Written Comment	I approve and am FOR the phase I green route (Not the initial purple route). Adriel + Ami were very helpful.	Comment noted.
74	De La Torre, Antonio	11/24/2023	SurveyMonkey Comment	Against path near Royse City. Move towards Caddo Mills	Comment noted. See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and D (Regional Outer Loop)** in the Comment/Response Matrix Legend.
75	Deats, April	11/23/2023	SurveyMonkey Comment	I understand that we need additional roads in Rockwall county, but the proposed roadways cut off a large chunk of Rockwall county from the rest while also cutting off a working ranch. How will this impact schools and bus routes? We already drive 15-20 minutes to schools. What is the plan for the increase in crime that will come with the easy access to multiple higher income neighborhoods and multiple highways that this will tie together? The current proposed roadways should be going around the existing subdivisions, not cutting through them. What is the anticipated impact to the existing home owners that are going to be financially impacted by not only the depreciation in their home values, but also the value of their time while TXDOT is working on not one but three major roads in the 548/205 area. This project should have been completed 20 years ago prior to the subdivisions going in in the area.	See **Responses B (Project History), C (Alternative Recommended for Further Study), E (Other Roadway Projects), H (Safety), J (Induced Growth & Community Impacts), M (Farmland) and O (Property Value)** in the Comment/Response Matrix Legend. Existing access to Chisholm Ranch Estates via State Highway (SH) 205 and Farm-to-Market Road (FM) 548 is anticipated to remain open and unobstructed. During future design phases, coordination would be conducted with school district(s) with bus routes in the project vicinity to provide continuous access both during and after construction.
76	Deats, Jeffrey	11/23/2023	SurveyMonkey Comment	This project is a waste of time and money. A better investment would be in the surface streets already in place that are grossly overused. This project will sever multiple neighborhoods and natural areas from the remaining countryside.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
77	Desautels, Sherra	11/24/2023	SurveyMonkey Comment	I absolutely am against the current proposed route. Feel strongly alternate options need to be researched and considered.	Comment noted. See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
78	Dieckmann, Autumn	11/22/2023	SurveyMonkey Comment	I am not in favor of the loop in Rockwall county at all I've been here my whole life (48) years my parents, grandparents and great grandparents!!	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
79	Dieter, Janet	11/23/2023	SurveyMonkey Comment	The bypass is just going to clip the edge of our beautiful subdivision here in waterscape. It's going to bring traffic, and I'm sure crime to our area, outsiders and easy access in and out. We enjoy the quiet of our neighborhood, and while I understand that traffic needs better access, I think it could be better to keep it away from neighborhoods. Perhaps taking it a little farther west where there are more industrial areas would be better served.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), H (Safety), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would run parallel to and west of the existing Farm-to-Market Road (FM) 548 roadway adjacent to the Waterscape subdivision. No right of way (ROW) would be proposed within the subdivision. The alternative recommended for further study will continue to be refined and the connection to FM 548 in the vicinity of the Waterscape subdivision will be evaluated during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
80	Dilley, Jennifer	11/23/2023	SurveyMonkey Comment	The outer loop should stretch all the way past Royse City and go behind High Point Lake subdivision off of 548 that way it won't hurt the values of these homes.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and O (Property Value)** in the Comment/Response Matrix Legend.
81	Dixon, Stephanie	11/24/2023	SurveyMonkey Comment	This massive road cutting through the smallest county in Texas would devastate the area. Move it further East.	See **Responses A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
82	Dorman, Taylor	11/21/2023	SurveyMonkey Comment	This will lower property value for our area! No matter what study is applied. No to this corridor anywhere near this neighborhood.	Comment noted. See **Responses C (Alternative Recommended for Further Study) and O (Property Value)** in the Comment/Response Matrix Legend.
83	Douglas, Frank	11/12/2023	Email Comment	I am a resident of Chisholm Ranch Estates, in the far southeast corner of Rockwall County. I have a question regarding the attached exhibit which is posted on the Rockwall County website related to the Rockwall County Outer Loop project. Specifically, does this "Step 5: Present Alternative Recommended…" accurately (as much as is possible at this stage) depict the proposed road as the green/turquoise/aqua line? https://www.rockwallcountytexas.com/DocumentCenter/View/9835/rcol-ex-15-Step5Map	The referenced document displays the alternative recommended for further study presented during the November 9, 2023 public meeting. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
84	Douglas, Frank	11/24/2023	Email Comment	I am a resident of Chisholm Ranch Estates in Rockwall County. As may be expected, I would like to see the Outer Loop project moved as far east of 205/548 as possible. I believe that this is necessary to minimize impact to the residential areas in the 205/548 areas. Moving the Loop as far east as possible minimizes the impact to hundreds of residences and is economically and environmentally sound.	See **Responses A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
85	Douglas, Lori	11/24/2023	Email Comment	The best proposed option for the Rockwall Outer Loop is the option using CR 250 East of the Airpark East Airport. This option avoids destruction of the most homes and businesses.	Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would terminate southeast of Airpark East Airport near County Road (CR) 250. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
86	Dove, Amanda	11/22/2023	SurveyMonkey Comment	I am not in favor of this project.	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
87	Drews, Kaegan	11/22/2023	SurveyMonkey Comment	This project will directly and negatively effect the community of WaterScape. We will have a major Highway just a few hundred feet away which will have impact on our home value and bring large amounts of noise and disturbance to our daily lives. Not to mention the other communities that will be worse off. This project needs to be reworked at the very least. Easy transportation at the cost of the livelihood of many households is not the way to go. Please have an open dialogue with the communities involved and consider our major concerns before doing whatever you please like a bunch of heartless bureaucrats.	See **Response C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would run parallel to and west of the existing Farm-to-Market Road (FM) 548 roadway adjacent to the Waterscape subdivision. No right of way (ROW) would be proposed within the subdivision. The alternative recommended for further study will continue to be refined and the connection to FM 548 in the vicinity of the Waterscape subdivision will be evaluated during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time. The address provided is located over 0.5 mile from the alternative proposed for further study and is outside of the Rockwall County Outer Loop Project study area. Therefore, the address was not included within the study area property owners mailout for the November 9, 2023 public meeting; however, notices for the public meeting were advertised in Spanish in Al Día, and in English in the McKinney Courier-Gazette, Rockwall County Herald-Banner, Royse City Herald-Banner, Dallas Morning News, and on the TxDOT.gov website under “Hearings and Meetings.” To access the virtual public meeting, go to Rockwall County’s website at www.rockwallcountytexas.com/loop and navigate to the “RCOL Public Meeting #2” page on the lefthand side. All project materials available to the public to date are included within the virtual public meeting. The address provided, 24112 Down Rush Drive, Royse City, Texas 75189, will be added to the Rockwall County Outer Loop Project mailing list to receive notification of future public involvement activities. Coordination with stakeholders, including adjacent communities, local governments, and impacted property owners, is ongoing.
88	Drupp, Kristina	11/24/2023	Email Comment	As a home owner and property tax payer for the county of Rockwall, I would hope our opinions are heard. Personally, I feel this outer loop would directly impact less homeowners and working ranch owners if the loop was pushed out to Hunt county and not take 14 miles of the smallest county in the state and replace it with concrete. Of the options of paths, I would pick the pink option first which would push it farther ways from our neighborhood Chisholm Ranch which as already been directly impacted by the 205 and 548 expansions by TxDOT. We bought outside the city limits to have more of a county feel and less concrete so this outer loop would be an eye sore to us. It will create more noise and trash. My personal choice is and will be to put it in the next county Hunt county. Please consider this an option.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), E (Other Roadway Projects), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
89	Duffy, Cyndi	11/22/2023	SurveyMonkey Comment	I am opposed to the outer loop’s current path and density.	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
90	Duke, Claire	11/22/2023	SurveyMonkey Comment	This will devalue our homes by surrounding our already crowded city with concrete views.	See **Response O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 5.7 miles northeast of the address provided, 1504 Brittany Way, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
91	Duvall, Jennifer	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
92	Easter, Erin	11/23/2023	SurveyMonkey Comment	We do not need an outer loop in Rockwall County. Hunt County maybe, but not Rockwall. We are all full, we don't need more traffic and dense development.	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
93	Elkins, Alix	11/22/2023	SurveyMonkey Comment	Moved to Rockwall county since it was one of the smallest counties in the state that had the fewest major thoroughfares running through it. It still has major farms and ranches and the proposed loop would completely change the demographics of this charming rural community/county. Thank you for your consideration.	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
94	Endsley, Malika	11/23/2023	SurveyMonkey Comment	Please consider this expansion further east so it does not effect farms amd family homes.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and M (Farmland)** in the Comment/Response Matrix Legend.
95	English, Melissa	11/24/2023	SurveyMonkey Comment	We believe the path of the loop should be placed where there is more land available that will not impact existing homes and farm land. The interstate will negatively impact High Pointe Lake Estates, High Pointe Ranch, Tate Farms and many other rural communities that have sought living where there is open spaces and not looking at a bunch of concrete in our back yards.	See **Responses A (Project Purpose and Need), J (Induced Growth & Community Impacts) and M (Farmland)** in the Comment/Response Matrix Legend.
96	Estrada, Ellie	11/22/2023	SurveyMonkey Comment	I do not agree with this construction. Not in my backyard	Comment noted. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 0.6 mile northeast of the address provided, 3255 Everly Drive, Fate, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
97	Eyman, Jon	11/22/2023	SurveyMonkey Comment	This is terrible for all of us who specifically moved out here to get away from things just like this this. Your are turning rockwall into the same mess as the Dallas suburbs. The outer loop will ruin the country side for miles on either side. I don't look forward to hearing the noise it will being instead of the quiet we moved here for. Not to mention the probable light pollution from headlights and streetlights. This only sounds like a good idea to people who won't have to live by it or lose their property to it.	See **Responses I (Noise), J (Induced Growth & Community Impacts) and N (Roadway Illumination)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
98	Fawcett, Kenneth	11/13/2023	Mailed Comment	A majority of the homeowners along FM 548 north of SH 276 as well as those within 1/2 mile of the right of way have expressed their prefernce for the green route. Keeping the roadwat as near to the route of an already busy farm road and buying out the 5 or 6 homes it would dipslace minimizes the negative impact on all residents in the affected zone.	Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 600 feet west of Farm-to-Market Road (FM) 548 at Linda Lane. The recommended alignment is offset from FM 548 in this area to minimize displacements. No residential displacements are currently anticipated along Linda Lane. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
99	Foreman, Mary	11/22/2023	SurveyMonkey Comment	We don't need another road. We have too many traffic problems as it is.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
100	Fox, Chauntelle	11/23/2023	SurveyMonkey Comment	Please don't bring the loop through or near High Point Lake Estates	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
101	Gartin, Jill	11/24/2023	Email Comment	Out of all the route options I choose the pink one. It is far from my home and through many empty lands with less homes. We already have the expansion of 205 coming near our neighborhood and to add the purple, blue, green and aqua color choice routes for outer loop, those routes creates more traffic and traffic noise. The design of the road is wide and huge and almost intrusive. We, our neighborhood will not qualify for noise barrier due to not meeting the population density for a noise barrier. Also, pink loop option has less homes except for up close by 548/255, which is still less than High Point homes and Chisholm Ranch. The pink loop will keep traffic noise at bay. Going down on 548 to 243 to I-80, seems less intrusive and less homes. Please understand, Rockwall is ranch and countryside feel, this outer loop will interfere with that approach. I hope my comments will be in your consideration to seriously look and choose the pink for outer loop.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), E (Other Roadway Projects) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. The construction phase of the project is currently unfunded and cannot let until funding is identified. At this time, the timeline for construction and the estimated completion date are to be determined, contingent upon available funding and need. Construction would occur in phases to accommodate the anticipated growth and development as it occurs. Initial construction would consist of a single frontage road with two lanes, one operating in each direction. A traffic noise analysis will be performed as part of the environmental studies being completed for the project, in accordance with the National Environmental Policy Act (NEPA) and the Texas Department of Transportation's (TxDOT's) Procedures for Analysis and Abatement of Roadway Traffic Noise and Construction Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. Under the alternative recommended for further study, the Chisholm Ranch subdivision would be located non-adjacent to and approximately a quarter mile west of the proposed Rockwall County Outer Loop; therefore, noise abatement would not meet federal and TxDOT criteria. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
102	Gates, Sarah	11/24/2023	SurveyMonkey Comment	I don't support the outer loop. I'm concerned about increased traffic	Comment noted. See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
103	George, Shijo	11/22/2023	SurveyMonkey Comment	This route is much needed as there is no alternative route to hit 78 from Rockwall. I hope this will cut down traffic on 205 North	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
104	Gibson, Karen	11/24/2023	SurveyMonkey Comment	Please move loop to Kaufman County	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and D (Regional Outer Loop)** in the Comment/Response Matrix Legend.
105	Gladney, Catherine	11/22/2023	SurveyMonkey Comment	This is a horrible idea for Rockwall County. Everything that brought citizens to this county is quickly diminishing as the people in charge do not care one ounce about the quaint town we have loved. It appears decisions affect many yet they are made by few and it never seems to affect those few. We do not want this as it will congest our area more yet is being sold as it will help with traffic. It will bring more crime to an area that has been growing in crime over the past several years. Please do not do this to our town. The decisions being made over the past several years have all been awful including an apartment complex across the street from the police station in downtown Dallas. So much to mention over the past several years has been horrible decisions.	See **Responses A (Project Purpose and Need), H (Safety) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
106	Glaze, Carl	11/24/2023	SurveyMonkey Comment	This is a terrible idea. Its primary purpose is to divert thru truck traffic around the metropolitan area at the expense of residents of Rockwall County. Don't build it or, if it is inevitable, push it east of Royce City into Hunt and Kaufman Counties. Do not sacrifice the residents and land owners of Rockwall County to this blatant land grab. According to the Collin County website this road will have a 500 foot right-of-way. That will devastate homes, neighborhoods, and farms. It will disrupt local traffic flows. It will be bad for Rockwall County. All for the benefit of Dallas.	Comment noted. See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), F (Right of Way (ROW)) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
107	Glaze, Dixon	11/24/2023	SurveyMonkey Comment	I say NO to the Outer Loop in Rockwall County because I do NOT want a high speed road that studies show will cause more vehicle related deaths and injuries. We have abundant wildlife here and I do not want more vehicle wildlife strikes. I will vote against any elected official who supports this road.	Comment noted. See **Responses A (Project Purpose and Need) and L (Biological Resources)** in the Comment/Response Matrix Legend.
108	Gonzales, John	11/22/2023	SurveyMonkey Comment	Concrete elevated "skyline"? NO thank you!	Comment noted. See **Response G (Proposed Bridges)** in the Comment/Response Matrix Legend. The proposed Rockwall County Outer Loop would be located over seven miles east of the address provided, 830 Shores Boulevard, Rockwall, Texas, and over six miles east of Lake Ray Hubbard within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall in Rockwall County.
109	Gore, Daizee	11/23/2023	SurveyMonkey Comment	This is extremely unnecessary and is forcing people out of their homes. Do not allow this.	See **Responses A (Project Purpose and Need) and F (Right of Way (ROW))** in the Comment/Response Matrix Legend.
110	Goree, Rachael	11/22/2023	SurveyMonkey Comment	This ABSOLUTELY NEGATIVELY impacts my family and my home!! This is in my backyard. This completely diminishes the integrity of my home and the safety of my children and family. Not to mention, this increase of noise, pollution and crime. We built this home last year to be our forever home. We would have NEVER done that if this would have been the case. We poured our hearts and souls into building our home with pastures and farms around us. This would be DEVASTATING!	See **Responses B (Project History), H (Safety), I (Noise), J (Induced Growth & Community Impacts), K (Air Quality) and O (Property Value)** in the Comment/Response Matrix Legend.
111	Granberry, Jaimee	11/22/2023	SurveyMonkey Comment	There has to be a different route that does not run through the backyards of family homes. These families moved out to this area to get away from highway traffic and traffic noise. There are other options that do not go through or near neighborhoods and these should be the first options. We ask that empathy be practiced in this situation, and the feelings and thoughts of the existing residents and constituents be taken into consideration. Our home values and our country way of life will be in jeopardy. With a highway comes noise pollution, interrupted views, and crime. We would love to discuss in further detail if needed.	See **Responses C (Alternative Recommended for Further Study), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
112	Gray, Chris	11/22/2023	SurveyMonkey Comment	I do not want a highway near my neighborhood. I moved further out to avoid the growth and traffic from Other major cities. I understand that we are growing and there is nothing we can do about that. But there is so much more crime that comes with major highways. Also I don't want to look at it. We don't we focus on widen the roads in are town instead of building a highway through it.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects), H (Safety) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
113	Gray, Jazzmine	11/22/2023	SurveyMonkey Comment	Not thrilled will placement route. Would not have purchased my current home had I known this was going in right by it. Makes me want to move and leave Royse City which is otherwise a good town to live in.	See **Responses B (Project History) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
114	Grempel, Renee	11/21/2023	SurveyMonkey Comment	We recently bought our home in High Point Lake Estates. We love that we feel like we're out in the country. This Outer Loop would take that away. We feel it will be very noisy with the traffic and possibly bring MORE traffic to the area including crime and pollution. This road would take away from the beauty and peaceful environment we have and moved here for. Please rethink adding this road. Perhaps widen the existing roads. Please keep this little part of Rockwall our country sanctuary and do not build this Loop.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend.
115	Grempel, Todd	11/21/2023	SurveyMonkey Comment	I am all for progress however we specifically moved and uprooted my whole family from California to this part of Rockwall for peace and quiet and we're willing to endure venturing into Dallas and downtown for daily needs. We love nature and the farms and fresh air. Please don't disrupt this serene environment and for the wildlife as well. Hearing road noise and pollution and being close to a major high way brings other issues. We feel safe here and love our community. Happy cows are not from CA they are in our town in Texas.	See **Responses I (Noise), J (Induced Growth & Community Impacts), K (Air Quality) and L (Biological Resources)** in the Comment/Response Matrix Legend.
116	Grosso, Kimberlie	11/21/2023	SurveyMonkey Comment	We do not want the sound pollution anywhere near HPLE! Please explore other options! What once was a quiet, country community will be no more.	See **Responses C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
117	Grueber, Cassandra	11/21/2023	SurveyMonkey Comment	I am sickened to think that life as we know it in Rural Rockwall, will be shattered by this outer loop. No one moved out here to have some monstrosity like this to invade our quiet country space. I am completely against this. The sound will be deafening. The lights from all the businesses and homes built after this road destroys our area would keep us from seeing the stars at night. Not to mention displace many wild animals from their natural habitat. I pray everyday that this gets stopped in its tracks. None of us want this out here. We want to continue to live in peace and quiet in our natural space. We want to raise our kids on land without the threat of heavy traffic, noise, and artificial lights. Please reconsider this project. We are even short on water, RCH cannot provide for so many more customers. This will all significantly reduce our land values. We've worked so hard all our lives to provide this space for our family. Please don't take it from us. We enjoy our horses, chickens, dogs, and cats. We love our time outside in the yard and tending to our honey bees in the back pasture. We love it here. This growth and project will destroy our way of life.	Comment noted. See **Responses A (Project Purpose and Need), I (Noise), J (Induced Growth & Community Impacts), L (Biological Resources), N (Roadway Illumination) and O (Property Value)** in the Comment/Response Matrix Legend.
118	Guajardo Jr., Francisco J.	11/9/2023	SurveyMonkey Comment	We don't seem to be immediately affected by the alternative route presented at todays meeting. We are concerned about the road noise, it was fairly quiet when we moved to the area in 2006. When 548 was widened a couple of years ago road noise increased, this would be closer to us than 548 is now, and it looks like it may be elevated. How would noise levels be addressed if this ends up being the selected route?	See **Responses G (Proposed Bridges) and I (Noise)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
119	Guillory, Jacqueline	11/22/2023	SurveyMonkey Comment	This is designed to run right behind my home. It takes away all privacy I have and would leave my children unsafe. We have already had a car drive into our home and had to relocate here in hopes to never have that happen again and now you're putting an overpass behind my fence overlooking my pool and back yard.	See **Responses G (Proposed Bridges) and H (Safety)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 0.5 mile west of the address provided, 5508 Huffines Boulevard, Royse City, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
120	Gutierrez, Luis	11/21/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
121	Halpain, Rhonda	11/9/2023	Written Comment	My concern with this is Rockwall County is the smallest county in Texas and we have two major highways one goes thru us and the other is close. So the need for this is crazy. Our County started as a farming county and now Txdot wants to turn it into a highway county for trucks, just like Illinois has. It's a big decision in my point of view. You let all the housing development come in and then let the highways take over. Don't know what's going to happen when concrete takes over all the farmland.	See **Responses A (Project Purpose and Need) and M (Farmland)** in the Comment/Response Matrix Legend.
122	Hancon, Peter	11/9/2023	Written Comment	I object to the construction of the outer loop through Rockwall County. I live close to FM 548, which is, and likely to remain, a two-lane country road. The link to the outer loop at Tate Farms/Kuban Road will substantially increase the traffic on FM 548 and substantially add to the noise in my neighborhood. FM 548 is not built to handle the amount of traffic the outer loop will add to it.	Comment noted. See **Responses A (Project Purpose and Need), E (Other Roadway Projects) and I (Noise)** in the Comment/Response Matrix Legend.
123	Hankinson, Tyler	11/24/2023	SurveyMonkey Comment	Please consider the "pink" alternative route for this project as it appears to push the project furthest east and away from many of the established homes and neighborhoods in the study area. The 205 and FM548 expansion projects are already having a significant impact on our neighborhood and this project would only add to that; especially if the white, grey, orange, green, or purple routes are chosen.	See **Responses C (Alternative Recommended for Further Study) and E (Other Roadway Projects)** in the Comment/Response Matrix Legend.
124	Hatch, Emily	11/22/2023	SurveyMonkey Comment	NO OUTER LOOP, it will go right by our house and destroy our property value	Comment noted. See **Response O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located over 4.5 miles east of the address provided, 2261 Teagle Drive, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
125	Hatton, Christopher	11/22/2023	SurveyMonkey Comment	Move it further east	See **Responses A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
126	Hawks, Vincent	11/26/2023	SurveyMonkey Comment	I like it	Comment noted.
127	Helton, David	11/22/2023	SurveyMonkey Comment	This is a horrible idea that will cause drastic decreases in home values. We are against it.	Comment noted. See **Response O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
128	Helton, Olga	11/21/2023	SurveyMonkey Comment	I moved here to get away from all the traffic and enjoy the country! Adding more houses and outer loop less than a mile away would ruin our retirement home!	See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
129	Henderson, Analeesa	11/21/2023	SurveyMonkey Comment	Please do not go through Tate Farm and it's surrounding area. I moved here to get away from city life	See **Responses C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
130	Henderson, Kendra	11/22/2023	SurveyMonkey Comment	Hello, I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 and 548 expansion projects, which have significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, and caused numerous internet interruptions (some lasting multiple days). The addition of an 8 lane freeway in our backyards would be catastrophic to our community as well as obliterate the reasons we decided to build our homes and grow our families here. I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well. When viewing the proposed routes, I believe the pink route would be the least impactful to the already established neighborhoods such as ours, Highpoint Ranch, and Kingsbridge. Please consider this route as it would disrupt the least amount of individual land and homeowners.	See **Responses C (Alternative Recommended for Further Study), E (Other Roadway Projects), I (Noise) and O (Property Value)** in the Comment/Response Matrix Legend.
131	Hendrix, Enriqueta	11/24/2023	SurveyMonkey Comment	I am strongly opposed to this being built so close to my neighborhood and property. This will drive down property value and bring congestion and unwanted traffic.	Comment noted. See **Responses A (Project Purpose and Need), D (Regional Outer Loop), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. The address provided, 13288 County Road 236, Terrell, Texas 75160, is located in Kaufman County approximately 3.6 miles south of the alternative recommended for further study for the proposed Rockwall County Outer Loop. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
132	Herrera, David	11/22/2023	SurveyMonkey Comment	I disagree with the building of the Rockwall outer loop as it has the potential not to alleviate traffic but to make it worse.	Comment noted. See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
133	Herrera, Katarina	11/22/2023	SurveyMonkey Comment	No outer loop!!!!	Comment noted.
134	Hickman, Ken	11/22/2023	SurveyMonkey Comment	It's time to get it done!	Comment noted.
135	Higginbotham, Jon	11/22/2023	SurveyMonkey Comment	This will be great for the city and county to alleviate traffic.	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
136	Hilliard, Galen	11/22/2023	SurveyMonkey Comment	Highways should not be built through neighborhood areas without disclosure. That means, tell home/property buyers in full disclosure (not hidden/ legal language BS), about planned (or to be planned) before they buy. If no notice, consequences sufficient to end development. If adequate disclosure not given on this loop...plan a different loop.	See **Response B (Project History)** in the Comment/Response Matrix Legend. The address provided, 1214 Bay Line Drive, Rockwall, Texas, is located over 5.1 miles from the alternative proposed for further study and is outside of the Rockwall County Outer Loop Project study area. Therefore, the address was not included within the study area property owners mailout for the November 9, 2023 public meeting; however, notices for the public meeting were advertised in Spanish in Al Día, and in English in the McKinney Courier-Gazette, Rockwall County Herald-Banner, Royse City Herald-Banner, Dallas Morning News, and on the TxDOT.gov website under "Hearings and Meetings." To access the virtual public meeting, go to Rockwall County's website at www.rockwallcountytexas.com/loop and navigate to the "RCOL Public Meeting #2" page on the lefthand side. All project materials available to the public to date are included within the virtual public meeting. The address provided, 1214 Bay Line Drive, Rockwall, Texas, will be added to the Rockwall County Outer Loop Project mailing list to receive notification of future public involvement activities. Coordination with stakeholders, including adjacent communities, local governments, and impacted property owners, is ongoing.
137	Hoar, Chris	11/22/2023	SurveyMonkey Comment	We do not need a Highway. Stop spending tax dollars on something we don't want	See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend.
138	Holcomb, Amy	11/21/2023	SurveyMonkey Comment	This will directly affect my property value and living! Absolutely no!! I moved to south Rockwall for quiet and country living. Not to have a mega highway in my backyard!!	See **Response I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
139	Hubbard, Kelsi	11/21/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
140	Hubbard, Tim	11/24/2023	SurveyMonkey Comment	This would ruin our neighborhood. This would literally run right behind my backyard where we watch sunsets and enjoy wildlife. We bought this house for this reason. This would bring pollution, run off wildlife and allow an enormous amount of people access to our quiet, secluded neighborhood. Not to mention would run off all of the wildlife and damage the environment.	See **Responses J (Induced Growth & Community Impacts), K (Air Quality) and L (Biological Resources)** in the Comment/Response Matrix Legend.
141	Huffines, Philip	11/22/2023	SurveyMonkey Comment	We do not support the outer loop and what it brings to rockwall	Comment noted.
142	Hunt, Ron	11/22/2023	Mailed Comment	We moved to Rockwall in 1990, when it was a small quiet town. We then moved around the country for work. When I retired, we decided to move back to Rockwall and bought a home in High Point Lake Estates to get back to the quiet small town feel, The proposed new outer loop would not only create noise and congestion for HPLE, it will cut us off from the rest of Rockwall County and decrease our property values considerably. The optional "pink" route makes a lot more sence in that it would be less congestion and noise for both HPLE and HPR neighborhoods and seems to tale a more rural "AG" route. Please recondsider cutting off HPLE from the rest of Rockwall Co.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
143	Huntley, Melissa	11/24/2023	SurveyMonkey Comment	Is the construction of a raised outer loop really what we want for the aesthetic of or beautiful lake town? Please no!	See **Response G (Proposed Bridges)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located over six miles east of the address provided, 1018 Timberline Drive, Heath, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
144	Hurst, Jackson	11/13/2023	SurveyMonkey Comment	I approve and support TxDOT's Rockwall County Outer Loop Project. The aspect that I love about TxDOT's Rockwall County Outer Loop Project is that the Rockwall County Outer Loop will improve safety, reduce congestion, and improve freight mobility.	Comment noted.
145	Hutchison, Michelle	11/22/2023	SurveyMonkey Comment	We are totally against the outer loop placement by 548. There are better places to put it that won't affect so many people and properties. Please reconsider before ruining our reason for living out in the countryside.	Comment noted. See **Responses C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
146	Jacob, Travis	11/22/2023	SurveyMonkey Comment	Not opposed, we need more options for moving traffic away from 205.	Comment noted.
147	Jebbia, Christen	11/24/2023	SurveyMonkey Comment	Voting against this road. It will completely disrupt the current homes all along the road. It's not necessary and unfortunately it will decrease property values along with the dangers that come with the size of this highway. It feels that no matter what us homeowners say we are not even considered or heard. I loved oit in east Rockwall for peace and a bit less people and now they'll be hauling through my backyard.	Comment noted. See **Responses A (Project Purpose and Need), F (Right of Way (ROW)), H (Safety), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
148	Jensen, Christopher	11/24/2023	SurveyMonkey Comment	This is a project to where someone will lose no matter what. The road will go through a populated area no matter where you put it. Please consider this: there is farmland all around i know it's not ideal for the farmers either, but it won't put people out of their homes. This is a lose-Lose for all of us. The pink and teal tracks are best for us. but not for everyone else. no matter where you put this think in this "projected" area you are destroying peoples homes. Everyone moved out this way to avoid this. Please consider moving this further out as there are still large areas of undeveloped areas in rockwall/hunt counties.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), F (Right of Way (ROW)) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
149	Jensen, Michele	11/22/2023	SurveyMonkey Comment	No to the outer loop. Make it go out past Royse City. People are commuting from farther East than just Rockwall.	Comment noted. See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend.
150	Joaquim, Patricia Bender	11/24/2023	SurveyMonkey Comment	Totally against this. We want to keep the night sky, peace & quiet out here in north Rockwall. I live on Anna Cade Rd.	Comment noted. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately four miles east of the address provided, 1232 Anna Cade Road, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
151	Joel	11/29/2023	Email Comment	My parcel is is 12346 in Royce city, Rockwall county. Could you please send the current alignments going through or near to my property.	**On 11/29/2023, Aimee Jones, PE, Consultant Project Manager, responded by email with the following:** Public Meeting materials are available here: https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2. Your parcel is on Roll 4 of 5 under Alternative Recommended for Further Study – Rockwall County Outer Loop Strip Map. I've circled it in a screen snip below. *Please refer to **Attachment D, Comments Received** for the screen snip mentioned in the response.*
152	Johnson, Lisa	11/22/2023	SurveyMonkey Comment	Keep rural Rockwall county just that.	See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
153	Jones	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
154	Jones, Amy	11/22/2023	SurveyMonkey Comment	No way do we want this loop near 548 and Kuban road. There are many family farming businesses who will be tremendously affected. The traffic needs to be focused on I30. Also this is rural and people live on acres of land, with septic. This is not the area for a loop. Most people moved to this area to get away from the sound of a freeway and to stay away from tons of traffic Please consider another route.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), E (Other Roadway Projects), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
155	Jones, Misty	11/24/2023	SurveyMonkey Comment	We bought out here to get out of the city! It has grown way too fast. It needs to stop! We don't need anymore houses out here let alone a highway! Continue with 190 where it ends at interstate 30! You have already ruined that part of town so go ahead and finish it out to Terrell ! Would probably cost you less to continue where you stopped! Don't do this to another neighborhood!	See **Responses A (Project Purpose and Need), E (Other Roadway Projects) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
156	Jordan, Aidan	11/22/2023	SurveyMonkey Comment	Absolutely not. There are enough N/S connections from Wylie/Lavon to 205. We do not need to steal people's land for another road that is going to bring congestion. I 100% believe no one has done a traffic study to understand the impacts this will have. Traffic on 552 will absolutely increase, and it is dangerous enough as it is. You cannot even safely turn from 1141 to 552 anymore. We know, our car was just totaled trying to make such a turn. The Outer Loop will bring more traffic to this already dangerous area.	See **Responses A (Project Purpose and Need), F (Right of Way (ROW)) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
157	Karr, Terri	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
158	Kearns, Brianna	11/9/2023	Email Comment	Please do not build a highway over Bumpy Pickle Beach. A lot of people in the community support this business and they have the only quality sand volleyball courts for miles. An alternative should be implemented to avoid ruining a small business. I love this business and the family that owns it. They are great people running a great business and deserve to continue to thrive.	Under the alternative recommended for further study, Bumpy Pickle Beach is not anticipated to be displaced. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time. Any potential business relocations will be evaluated along with other factors as part of the community impacts assessment to be completed for the proposed project in accordance with the National Environmental Policy Act (NEPA).

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
159	Kearns, Luzdary	11/9/2023	Email Comment	Bumpy Pickle Beach has been a family place for my family, we live in Rockwall, my daughters and I have been playing sand volleyball since they open back in 2018, I can't believe it's been 5 years. We have so many friends there, we call it our pickle family. It's a safe environment where we all enjoy a game of volleyball and the friendship that comes with it. The owners are wonderful people too, also friends. They also include younger players, lessons and tournaments are available for our children, so close to home. I don't miss crossing the bridge and supporting other facilities, we love Bumpy Pickle, we are there 8-9 months out the year. Please consider a route that allows Rockwall and all the near by cities to continue to enjoy this wonderful place, this is by far one of the best! best sand, best people in the best county. Please don't make us cross the bridge again.	Under the alternative recommended for further study, Bumpy Pickle Beach is not anticipated to be displaced. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time. Any potential business relocations will be evaluated along with other factors as part of the community impacts assessment to be completed for the proposed project in accordance with the National Environmental Policy Act (NEPA).
160	Keeline, Tammy	11/22/2023		Our community doesn’t need this monster in the sky.	See **Responses A (Project Purpose and Need) and G (Proposed Bridges)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 7.5 miles east of the address provided, 204 McCrummen Lane, Heath, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
161	Keeling, Stacey	11/21/2023	SurveyMonkey Comment	Please consider one of the routes that do not go right next to High Point Lake Estates off of 548 and 205. Our way of life has already changed so drastically in the last few years with traffic and construction. Running the new road right next to our neighborhood would take away current homes for people and habitat for animals. We enjoy life with owls, deer, coyotes, bobcats, and more. We don't want them to leave. We anticipate that there would be incredible noise from the construction and traffic on this roadway. We worry about our home values!! Please understand that continued development here is not optimal especially because WE DO NOT HAVE ADEQUATE WATER! Better roads equal more people and we are already seriously underserved with our water supply.	See **Responses C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts), L (Biological Resources) and O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located adjacent to and northwest of the High Point Lake Estates subdivision. Right of way (ROW) would be proposed on two parcels within the subdivision at the Kuban Road intersection and the western-most corner of High Point Lake Estates. No displacements are anticipated within High Point Lake Estates. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
162	Kelly, Cheryl	11/24/2023	SurveyMonkey Comment	I am against the outer loop location on 548 going through land to connect to 205. I feel this plan is built for commercial traffic not residential and it will invade residential space. The outer loop State Highway 190 has not been completed which would address these concerns. I think this project should be completed prior to investing in a new project. The John King project was built to relieve traffic and is still underused. By enlarging SH 205 this will alleviate the congestion on that roadway. This project will effect numerous home by adding more traffic, more noise, more crime and less confidence in Texas Depart Of Transportation. FM 548 is still underused and the only congestions at the intersection of SH 205 and FM 548 is the configuration of the intersection. I would hope this will be solved when SH 205 is enlarged. If which I feel you are already building the outerloop I believe that there are alternatives to the placement of the Outerloop using the existing roads away from existing neighborhoods.	Comment noted. See **Responses A (Project Purpose and Need), E (Other Roadway Projects), H (Safety) and I (Noise)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
163	Kenney, Matthew	11/22/2023	SurveyMonkey Comment	I do not want this. It is not necessary! They're already expanding I30.	Comment noted. See **Responses A (Project Purpose and Need) and E (Other Roadway Projects)** in the Comment/Response Matrix Legend.
164	Kimbrell, Jerry	11/22/2023	SurveyMonkey Comment	No outer loop in my backyard!	Comment noted. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 3.8 miles east of the address provided, 1279 Anna Cade Road, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
165	King, Cynthia	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
166	Kinsey, John	11/22/2023	SurveyMonkey Comment	I am against the outer loop, because it is another txdot plan out here making traffic worse! The new bridges block the once beautiful view crossing ray hubbard and provide no relief if an accident occurs on the bridge. 276 project was a waste ruining a green belt, made Mims a mess and closed the old 276, making traffic on 205 worse!!! Every project in Rockwall over the past 10 years has made issues worse!	Comment noted. See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend. The proposed Rockwall County Outer Loop would be located over six miles east of Lake Ray Hubbard within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall in Rockwall County.
167	Kipphut, Lorna	11/9/2023	Written Comment	Absolutely great. I live in MC+this will be a huge asset to our area.	Comment noted.
168	Kleinheksel, Angela	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
169	Knowles, William	11/24/2023	SurveyMonkey Comment	I would like the Rockwall outer loop from FM1138 to SH 205 to be moved further East of this location into Hunt County. This is to close to George Bush Turnpike which has not been completed. The completion of George Bush would take the traffic which you say is needed for North South traffic. The main concern for local residents of Rockwall County which I am one is the ability to get into Dallas and back for work. This will improve once the area in Rowlet is complete. I feel like the idea of reducing congestion in Rockwall is being addressed with the expansion projects of SH 205 and FM 548. I feel that an outer loop would be better served further East of Rockwall County. The area between Royse City and Greenville has ample room for this project. I believe this outer loop is really meant for commercial traffic not residential traffic. The noise, increased traffic and Crime is a deterrent for most residences that will be effected. The are is still a rural area and people moved out of the city for the peace and quite. This will go away. There are homes facing FM 548 that have disabled military personnel that the loud noises and increased traffic will effect. This will be a extremely large and long lasting project. With the expansion of SH205 and FM 548 on the books already. The time frame of construction in the South Rockwall County area will be devastating, frustrating and not wanted or needed. I feel like we are not being served as residents of Texas and Rockwall County. I would vote to stop this Rockwall County Outer loop project and move it further East. I believe you should also complete the project you started in the 90's (George Bush Turnpike) first before you start and not finish this project.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects), H (Safety), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
170	LaMunion, Matthew	11/22/2023	SurveyMonkey Comment	This is a good idea to help improve traffic flow in Rockwall. But we really need a new connection from FM552/Dalton Rd to Liberty Grove/George Bush over the lake.	Comment noted. The Rockwall County Outer Loop Project's purpose is to address the lack of north-south connectivity and roadway capacity within Rockwall County to meet local and regional mobility needs and accommodate projected vehicular traffic volume increases on the local roadway network resulting from anticipated development and population growth. Extending Farm-to-Market Road (FM) 552 across Lake Ray Hubbard to the President George Bush Turnpike is beyond the scope of the Rockwall County Outer Loop Project.
171	Lancaster, Jennifer	11/23/2023	SurveyMonkey Comment	Approve	Comment noted.
172	Larkin, Angelia	11/22/2023	SurveyMonkey Comment	I do not wish to have a highway outside out entrance. This will not only take way from the value of our homes, but the noise levels will be high. Statics show higher crime rates when easy access to major roads go in. Everyone out here moved to the outer county to get away from the noise and the traffic.	See **Responses H (Safety), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
173	Larsson, Joanne	11/9/2023	Written Comment	- Video Presentation on what we are looking at on how Highway Loop will look like. - Map 2030 (M2030) on loops Benefits would be nice to have in Bullet presentation - What if there is no money? To complete project? When will the subject to change Not change anymore? - Project completion official date? - Will I hear noise and see billboards? 2002 - Been working on this why can't this be speeded up?	See **Responses A (Project Purpose and Need) and I (Noise)** in the Comment/Response Matrix Legend. A third public meeting is tentatively planned for Fall 2024, at which time a more detailed schematic design of the proposed Rockwall County Outer Loop will be made available to the public. Roadway visualization tools will be considered, as appropriate. Schematic design and environmental studies are anticipated to begin in early 2024. A schematic and draft environmental assessment (EA) are expected to be completed in summer of 2025, followed by a public hearing and then environmental clearance in mid-to-late 2025. After the public hearing and environmental clearance, TxDOT and Rockwall County will identify funding, begin the right of way (ROW) acquisition and utility relocation processes, and then begin construction. The construction phase of the project is currently unfunded and cannot let until funding is identified; however, ROW acquisition can proceed even if the project is not funded for construction. At this time, the estimated completion date is to be determined, contingent upon available funding and need. Construction would occur in phases to accommodate the anticipated growth and development as it occurs. Initial construction would consist of a single frontage road with two lanes, one operating in each direction.
174	Lawson-Dilts, Tabetha	11/22/2023	SurveyMonkey Comment	Against. GBT has done enough damage to the Rockwall area, it was once a great place to live!	Comment noted. See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
175	Ledbetter, Mattie	11/22/2023	SurveyMonkey Comment	Hell no! We don’t want the outer loop.	Comment noted.
176	Lee, K.	11/23/2023	SurveyMonkey Comment	Quit eing greedy and building homes in Rockwall County and we won't need new roads. If we wanted it to look like Houston, we'd live in Houston.	Comment noted.
177	Lewis, Jaime	11/21/2023	SurveyMonkey Comment	I do NOT WANT a freeway built through my neighborhood in Highpoint Lake Estates. The toxic fumes it will put in the air where we live will jeopardize our health and childrens health. Keep our town clean and free.	Comment noted. See **Response K (Air Quality)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located adjacent to and northwest of the High Point Lake Estates subdivision. Right of way (ROW) would be proposed on two parcels within the subdivision at the Kuban Road intersection and the western-most corner of High Point Lake Estates. No displacements are anticipated within High Point Lake Estates. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
178	Lindquist, Sheri	11/23/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
179	Linton, Jared	11/22/2023	SurveyMonkey Comment	Do not build the loop. It will devastate home values and turn this place into a ghetto.	Comment noted. See **Response O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
180	Logan	11/22/2023	SurveyMonkey Comment	this will make living and driving in rockwall even worse than it already is	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
181	Lueb, Amanda	11/22/2023	SurveyMonkey Comment	Just No!!! The Rockwall traffic will improve once I 30 bridge work is finished.	Comment noted. See **Responses A (Project Purpose and Need) and E (Other Roadway Projects)** in the Comment/Response Matrix Legend.
182	Lum, Ashlee	11/22/2023	SurveyMonkey Comment	We purchased our home on Twin Circle Ct in February of 2021. What brought us out to High Point Lake estates was the country feel. Our home backs up to cattle land, the views are breathtaking at times. This home is the one we planned to raise our children in and even envisioned our grandchildren visiting. The current proposed road would change all of that. Our property seems to be one that could be most effected. The road would become our view out the back. This road is exactly what we had hoped to move away from. I ask you to please consider the negative effects this will have on our community. The loss in property values, the noise, the traffic, the crime, the loss of the feeling that we all were seeking when we spent our hard earned savings to build out here and seek an alternative.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
183	Lum, Michael	11/24/2023	SurveyMonkey Comment	The proposed highway will run along the fence of our backyard and will (1) obstruct our current view, which on clear days allows us to see downtown Dallas, (2) interfere with our privacy, (3) flood our property with road and traffic noise, (4) potentially increase crime in our area, and (5) eliminate the seclusion and tranquility of our property. In addition to the effects on our standard of living, there is wildlife that routinely passes through the area where the highway would run. This includes a herd of deer that regularly passes through a specific path of the subject property. Undoubtedly the proposed highway will cut off this route. We purchased our home with the views and seclusion in mind. Our home will not be the same with a highway running along side it.	See **Responses H (Safety), I (Noise), J (Induced Growth & Community Impacts) and L (Biological Resources)** in the Comment/Response Matrix Legend.
184	Marchetti, Kathy	11/22/2023	SurveyMonkey Comment	I'm opposed to the Outter loop outside the property at High Point Lake Estates 548 between Kuban Road and 205. It impacts the neighborhood on two sides, the project is too close to homes and the noise level would destroy the neighborhood. Creating on and off ramps right outside the entrance to the neighborhood would destroy the property values of all nearby properties. The project includes elevated bridges and ramps. The extensive concrete construction , noise, complicated ramps and bridges all in close proximity to homes will completely destroy the quality of life in the homes in our neighborhood.	See **Responses C (Alternative Recommended for Further Study), G (Proposed Bridges), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ramps presented during the November 9, 2023 public meeting will be further evaluated during schematic development.
185	Marion, Erle	11/15/2023	SurveyMonkey Comment	I prefer the teal route. Opposed to all other routes.	Comment noted. See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
186	Matlock, Kacy	11/24/2023	SurveyMonkey Comment	100% against this.	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
187	McBride, Jonathan	11/24/2023	SurveyMonkey Comment	Has a preferred route been selected if so which one and has this feasibility study been updated to show affected homeowners since the route map was originated in 2007?	See **Response B (Project History)** in the Comment/Response Matrix Legend. An in-person public meeting was held on November 9, 2023 to present the project alternative recommended for further study and receive public feedback. The address provided, 1520 Bell Haven Court, Rockwall, Texas, is within the Rockwall County Outer Loop Project study area and was mailed notification of the meeting. Notices for the public meeting were also advertised in Spanish in Al Día, and in English in the McKinney Courier-Gazette, Rockwall County Herald-Banner, Royse City Herald-Banner, Dallas Morning News, and on the TxDOT.gov website under “Hearings and Meetings.” To access the virtual public meeting, go to Rockwall County’s website at www.rockwallcountytexas.com/loop and navigate to the “RCOL Public Meeting #2” page on the lefthand side. All project materials available to the public to date are included within the virtual public meeting, including exhibits displaying the alternative recommended for further study. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
188	McCoy, Michael	11/24/2023	SurveyMonkey Comment	The purpose of my family's statement is to provide consideration to seek an alternative route for the future Rockwall Outer Loop highway and its planned expansion. The reasons to seek an alternative route are pollution, crime, and reduced property values. In 2020, my family left urban Houston for rural Rockwall County for an opportunity to start over while still living in Texas. The proximity to DFW, the outstanding public school system, and low crime rate per capita were the reasons we chose to move to Rockwall County. Furthermore, we decided to live in High Point Lake Estates neighborhood because of the outstanding neighbors, low traffic within our community, zero noise and light pollution, and sustainably high property values. As currently planned, the Rockwall Outer Loop project particularly threatens three of those reasons: (1) noise and light pollution; (2) increased potential criminal activity per capita; and (3) reduced property values. As the feasibility study gets underway for alternative routes, decision makers must account for the dramatic increase in noise impacts per TX DOT Noise Policy. Inside of a quarter mile from the proposed future highway and its planned expansion, the charted noise impact exponentially increases from a 65 dBA baseline—an unacceptable impact considering 25 dbA is our current state. Additionally, for the young astronomers in my household, the impact of light pollution from this project is undeniable. Second, creating a future up to 8-lane highway in our backyard will undoubtedly increase criminal activity. In the Houston-area, our quiet neighborhood was subject to criminal mischief because of its proximity and access to major highways—it was simply a catalyst for poor intentioned people to transit our community. We do not want to revisit those criminal problems and will be forced to relocate if the highway, as currently planned, breaks ground. Last, High Point Lake Estates is home to hundreds of families on multi-acre lots with high value homes. These homes range in values between $700,000 to more than $1.5 million. These properties account for a substantial segment of these families' personal wealth and double as supporting Rockwall Counties' burgeoning tax base. As a desirable location for so many families to live, why sacrifice so many families' happiness and prosperity while also throttling the future value and the county's accompanying tax bills? It just doesn't make sense. From two Air Force veterans and our four children that are proud to call Rockwall County our home, we want to thank you for considering our position regarding the Outer Loop project. Please consider another alternative that reduces the impact to its neighbors.	See **Responses C (Alternative Recommended for Further Study), H (Safety), I (Noise), J (Induced Growth & Community Impacts), K (Air Quality), N (Roadway Illumination) and O (Property Value)** in the Comment/Response Matrix Legend.

190	McNatt, Adam	11/21/2023	SurveyMonkey Comment	This outer loop/additional road will be detrimental to our community and our home values.	See **Responses J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
191	Mee-Stephenson, Lisa	11/10/2023	Email Comment	I'm writing to you as a very concerned homeowner in the Chisholm Ranch Estates Homeowner Association and in reference to the Rockwall County Outer Loop Meeting held last evening, November 9, 2023. Thank you for the presentation of alternative routes for the Outer Loop. As far as Chisholm Ranch Estates and our forever retirement home is concerned, we would definitely favor the Pink Route that skirts the far side of the airport over all other routes. The Pink Route impacts far less people than the disastrous White Route (and to slightly lesser degrees the Green, Red, Orange or Gray Routes.) The Teal Route through the ranch may be another possibility. However, that would leave our community and property square in the middle of the Outer Loop, SH205 and FM458 - the latter of which, as you know, are also undergoing big expansions. While we understand that infrastructure needs to expand to handle growth and demand, we didn't move out here to the fringes of the county almost a decade ago to experience more city life. The noise factor alone would absolutely destroy what we moved out here for. Moreover, the property values in our community are, for the most part, in the high $700k to high $900k. Anything but the Pink Route would severely affect those values as well, with little to no recompense to thehomeowners. Please don't take away what we've worked so hard to enjoy in our retirement. If an Outer Loop has to go in, please let it be the Pink Route! Thank you for your consideration.	See **Responses C (Alternative Recommended for Further Study), E (Other Roadway Projects), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
192	Mejia, Wilmar	11/24/2023	SurveyMonkey Comment	Please build this. The WHOLE METROPLEX needs it. Many times 30 backs into 635 which causes delays on every city from Seagoville to Balch Springs to Mesquite to Garland to Dallas to Royse City to Fate, and yes, DALLAS	Comment noted.
193	Mentesana, Bridgette	11/23/2023	SurveyMonkey Comment	I think this is a great idea. Rockwall is a NIGHTMARE to enter or exit. 30 is always one accident away from being completely shut down and all traffic diverted. We need the infrastructure.	Comment noted.
194	Merlino, Frank	11/17/2023	SurveyMonkey Comment	There is no benefit for Rockwall on the south side of this loop. Why would Kaufman county not provide the land? Rockwall has provided land for the north portion of this loop. The distribution of the land used should be shared by all the counties that will use this roadway. Rockwall should not take on the lions share of this project as it passes through the 3 surrounding counties.	See **Responses A (Project Purpose and Need) and D (Regional Outer Loop)** in the Comment/Response Matrix Legend.
195	Merlino, Jennine	11/24/2023	SurveyMonkey Comment	This is not needed in Rockwall and our county does not benefit from it.That being said our county should support their citizens and not TxDot. Those of us that bought out in the country were intentionally seeking a peaceful place away from the city. We are now threatened with something worse than city living, we won't even be able to walk outside our home and have a simple conversation with all the noise from the freeway. You admittedly did a height study to make sure you were good to avoid the flood plain but didn't do a noise study. Clearly the noise is of no concern to TxDOT. I was told that no one could build behind me when I bought this house due to the flood plain so now you'll just go above it and I was apparently lied to. Have they did a study on the crime these freeways bring and the pollution? You are giving criminals direct access through this area, we are already experiencing that with I30. Very often drivers just throw their trash out their windows and trucks constantly have trash blowing out of the bed of their trucks. All of the stated reasons would destroy the beauty and peacefulness of the country life we all sought. There are several other alternatives that are viable options through Kaufman or Hunt County.	See **Responses A (Project Purpose and Need), D (Regional Outer Loop), G (Proposed Bridges), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend.
196	Merlino, Jennine	11/17/2023	SurveyMonkey Comment	Rockwall is giving up Substantial land on the north side of this loop. The south side seems to benefit Kaufman and Hunt counties. Rockwalls commissioners should ensure that Rockwall is carrying too much of the land for this as it benefits other counties. Move this road away from South Rockwall!!	See **Responses A (Project Purpose and Need) and D (Regional Outer Loop)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
197	Miller, Katie	11/22/2023	SurveyMonkey Comment	We purchased our home in High Point Lake Estates 5 years ago because of the quiet peaceful surroundings. By putting in this outer loop around or near my home, the quiet peaceful use of my property and home will be forever changed. Please reconsider the area to bring this major road way to.	See **Responses C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
198	Miller, Tonya	11/22/2023	SurveyMonkey Comment	I do not want this loop. It will take away from our towns charm and create more traffic and problems.	Comment noted. See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
199	Mitchell, Leslie	11/21/2023	SurveyMonkey Comment	This small community does not want a huge road going through our properties. This will disrupt our quiet area with traffic, loud road noise, more crime and safety issues. The current proposed path is next to my home, forcing us to move from our long time family home. We do not want this!!	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), H (Safety), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located adjacent to and northwest of the High Point Lake Estates subdivision. Right of way (ROW) would be proposed on two parcels within the subdivision at the Kuban Road intersection and the western-most corner of High Point Lake Estates. No displacements are anticipated within High Point Lake Estates. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
200	Miyamoto, Jamie & Tomoshi	11/24/2023	SurveyMonkey Comment	My husband and I relocated from Washington 2 years ago to High Point Lake Estates primarily for the quiet peacefulness and lush beauty of the area. Tate Farm is also directly situated behind our property. The local wildlife and beautiful views our family currently enjoys would be eliminated and replaced by concrete, noise, light and air pollution and discarded highway trash. The impact of the construction of an 8 lane freeway with service roads would dramatically affect our lifestyle and result in a striking decrease of property values and major health issues. We are adamantly against the completion of this project as well as the majority of our neighbors. Alternative routes must be considered!	Comment noted. See **Responses C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts), K (Air Quality), L (Biological Resources), N (Roadway Illumination) and O (Property Value)** in the Comment/Response Matrix Legend.
201	Moffett, James	11/24/2023	SurveyMonkey Comment	Not in favor of, nor support, this outer loop proposal	Comment noted.
202	Monroe, James	11/22/2023	SurveyMonkey Comment	No loop please. With the expansion of I30 it is not needed or welcomed.	Comment noted. See **Responses A (Project Purpose and Need) and E (Other Roadway Projects)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
203	Monte, Karen	11/22/2023	SurveyMonkey Comment	The Outer Loop will negatively impact our neighborhood. Our home will be extremely close to the projected road and ruin what we love about our neighborhood. When we moved here five years ago we decided on this house because of the rural quiet setting. We had moved many times due to the military and we were finally buying our forever home. Everyone who visits us comments on how amazing our neighborhood is and how quiet it is. Having a large road so close we will hear all the construction for years and then the traffic. I am also concerned that even though I have been told my house “should be fine” that I will be relocated. We don’t want to move. We love our home. We ask you to please push the road farther east to where there are less neighborhoods that will be impacted.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located over 0.5 mile east of the address provided, 100 Haley Drive, Royse City, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
204	Moore, Lea Anne	11/22/2023	SurveyMonkey Comment	This is way to close to our property. I moved here for the peace and quiet. This will bring tons of noise pollutioin, air quality issues, wrecks which are already an issue, and basically ruin the way of life for those of us that chose to live "in the country". If Rockwall wants this - then do it at CR551 or CR549 where you are already over building and putting in too many warehouses etc.	See **Responses C (Alternative Recommended for Further Study), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 3.5 miles west of the address provided, 9846 Old Bridge Road, Terrell, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
205	Morgan, Ghost Star	11/14/2023	Email Comment	Do I understand correctly that 548 is now not the only path being considered. Last we were told out here in High Point Lake Estates is that path is already decided and there is no other options but to come past our neighborhood. Is that still the case or have new options come up?	Alternatives presented at the November 2022 public meeting were further evaluated based on public feedback and stakeholder input. To address public requests to consider alternate routes, and through continued stakeholder coordination, some previously presented alternatives were modified and a variety of new alternatives were developed. New alternatives included alternative routes to the Farm-to-Market Road (FM) 548 area near High Point Lake Estates. Evaluation criteria were then applied to the new and/or modified alternatives to determine the alternative recommended for further study. The project alternative recommended for further study, which follows FM 548 near High Point Lake Estates, was presented during the November 9, 2023 public meeting to receive public feedback. To access the virtual public meeting, go to Rockwall County’s website at www.rockwallcountytexas.com/loop and navigate to the “RCOL Public Meeting #2” page on the lefthand side. All project materials available to the public to date are included within the virtual public meeting, including exhibits displaying the alternative recommended for further study.
206	Moss, Brian	11/21/2023	SurveyMonkey Comment	Not in favor of outer loop anywhere near High Point Lake Estates.	Comment noted. See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
207	Mowery, Lauren	11/24/2023	Email Comment	I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 expansion project which has significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, and causes numerous internet interruptions (some lasting multiple days). The addition of an 8 lane freeway would be catastrophic to our community and the reasons we all decided to build our homes and families here. I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well.	See **Responses C (Alternative Recommended for Further Study), E (Other Roadway Projects), I (Noise) and O (Property Value)** in the Comment/Response Matrix Legend.
208	Murphy, Britney	11/22/2023	SurveyMonkey Comment	Please do not allow this to pass. Ever since adding 190/George bush to i30 in garland it's been a nightmare daily, this will be just as bad or worse not to mention crime rates, pollution, and added connection to our already congested small town. Please do not approve this loop!!	Comment noted. See **Responses A (Project Purpose and Need), H (Safety) and K (Air Quality)** in the Comment/Response Matrix Legend.
209	Neece, Chris	11/22/2023	SurveyMonkey Comment	We are against the loop!! Grew up in the area and y'all are ruining the country side by the insane amount of development.	Comment noted. See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
210	Nelson, Gena	11/23/2023	SurveyMonkey Comment	I vehemently oppose this project. I moved to the country and pat astronomical amounts of property taxes on my 8 acres to be AWAY from this! The proposal goes right through my neighborhood. I would have to move and with the current real estate market theres no where to go. Find another way to divert traffic. This is not it.	Comment noted. See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located over a quarter mile southeast of the Bluebonnet Ridge subdivision. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
211	Nicholson, Misti	11/22/2023	SurveyMonkey Comment	No!! No!! No!! We do not need this!! We do NOT want this..... We moved to the country to be away from traffic.... Not to be part of it.	Comment noted. See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
212	Nixon, Marion	11/22/2023	SurveyMonkey Comment	It seems to be the easiest route would be to follow, maybe straighten and widen 548 which is already there and would disrupt the minimum amount of property and homes. This would not affect my home but I really hate to see farmers and ranchers be disrupted and destroyed unnecessarily. Please consider them.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects) and M (Farmland)** in the Comment/Response Matrix Legend.
213	*No Name Provided*	11/9/2023	Written Comment	Move to the way back of folks property & let owners keep as much of their land + mostly family land. Stop stealing land !!	See **Response F (Right of Way (ROW))** in the Comment/Response Matrix Legend.
214	*No Name Provided*	11/22/2023	SurveyMonkey Comment	We don't want the road	Comment noted.
215	*No Name Provided*	11/22/2023	SurveyMonkey Comment	I am opposed to the rockwall county outer loop being built !	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
216	*No Name Provided*	11/22/2023	SurveyMonkey Comment	I'm for expanding the roads, everything is moving out east and it would be SILLY not to do so. However, if there isn't structured guidelines (height restrictions, boating access, STC codes) put in place BEFORE the roads get expanded it will get chaotic fast.	Comment noted. Any development restrictions are regulated by local governments.
217	*No Name Provided*	11/22/2023	SurveyMonkey Comment	I am a longtime resident and I do not want this outer loop built.	Comment noted.
218	*No Name Provided*	11/22/2023	SurveyMonkey Comment	Please don't approve this project, our land will be massively negatively impacted by this. The outer loop will have a very negative effect on our family who has been here for several generations. Thank you	Comment noted. See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
219	*No Name Provided*	11/22/2023	SurveyMonkey Comment	This route will have a negative impact more than it will provide relief. We are against this plan.	Comment noted. See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend.
220	*No Name Provided*	11/22/2023	SurveyMonkey Comment	Make it 12 lanes with 75 MPH limits.	The project would be constructed in stages that are contingent on projected traffic volumes and available funding. The proposed typical 500-foot-wide right of way (ROW) for all stages would be acquired according to applicable policies and procedures prior to Stage 1. Stage 1 would construct one frontage road with two lanes, one in each direction. Stage 2 would add the other side of the paired frontage road for a total of four frontage road lanes, two lanes in each direction. Each frontage road would be converted to one-way operation. The median would be left open for future stages. Stage 3 would include the addition of a four-lane access-controlled highway, two main lanes in each direction between the frontage roads. The remaining median would be left open to allow space for future transportation-related developments to be studied separately. The posted speed limits would be determined through a speed study when the project is completed.
221	*No Name Provided*	11/22/2023	SurveyMonkey Comment	Please build more roads as fast as you can.	Comment noted. See **Response E (Other Roadway Projects)** in the Comment/Response Matrix Legend.
222	*No Name Provided*	11/22/2023	SurveyMonkey Comment	As a local resident and a daily commuter on those particular roads- It will put more of a burden on the community rather than any relief.	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
223	*No Name Provided*	11/25/2023	SurveyMonkey Comment	build it	Comment noted.
224	O'Brien, Raeanne	11/22/2023	SurveyMonkey Comment	This is close or intruding on several nice neighborhoods when it could be moved slightly and not take out nearly as many homes	See **Responses C (Alternative Recommended for Further Study) and F (Right of Way (ROW))** in the Comment/Response Matrix Legend.
225	O'Brien, Scott	11/25/2023	SurveyMonkey Comment	This road could be moved to where it wouldn't affect nearly as many houses. Move it east of 548	See **Responses A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
226	Orozco, Mario	11/22/2023	SurveyMonkey Comment	We don't need this running through Rockwall.	See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
227	Overton, Jacob	11/22/2023	SurveyMonkey Comment	Please prove this helps traffic withing Rockwall county limits where the traffic is horrendous. Specifically, I want to ensure there is data to prove it alleviates a substantial amount of traffic across the bridge (Hwy 66).	See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend. East-west mobility across Lake Ray Hubbard is outside the scope of the proposed project's purpose and need; however, this need would be addressed by planned improvements to the IH 30 bridge across Lake Ray Hubbard. These improvements are included in a separate project led by TxDOT. For more information you can visit www.keepitmovingdallas.com and search for “IH 30 Improvement Project”.
228	Palmer, Kim L.	11/23/2023	SurveyMonkey Comment	I have been looking over these proposed plans, right of ways, lanes, etc for months now and I fail to understand the routes taken by this completely unnecessary and unwelcome Outer Loop. We could spend 1/3 of the money, lose next to zero property values or, shudder to think, lose existing homes by simply building out 205, 548 and 276. This Outer Loop could very simply incorporate most of the existing roadways into th system with far less impact to existing homes and businesses. I realize that this plan saves all of the existing and empty farmland owned by developers so that you and they can tap into a larger tax base and make it all look better for shareholders and investors after it all builds out into the cookie cutter tracts and mini mansion developments planned by DR Horton and similar developers. The saddest part for my own personal situation is that you will be bringing this right through the front corner of my home and my workshops for my business and my employees. Will that be considered? Likely not as I believe this 'study' is merely a formality you have to observe to dot your I's and cross your T's. Be honest with us here, it's already a done deal and its full speed ahead once this bump in the road is leveled out. Just like my home. Just like my business. Just like the jobs that I provide. Just a bump in your road. Stop this Loop. Not. In. My. Yard.	See **Responses A (Project Purpose and Need), E (Other Roadway Projects), F (Right of Way (ROW)), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 190 feet west of the address provided, 570 Jones Road, Royse City, Texas. No right of way (ROW) is currently proposed and no residential or commercial displacements are currently anticipated at this address. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
229	Pardo, Savannah	11/22/2023	SurveyMonkey Comment	No no no no we don’t want this	Comment noted.
230	Perez, Kimberly	11/9/2023	Written Comment	"no" to the freeway in general! However preferred route of choice would be Phase II aqua or Pink. Less populated area	Comment noted. See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
231	Perez, Kimberly	11/22/2023	SurveyMonkey Comment	No to outer loop! This will destroy our country life to those who have called it home for 27+ years! We have a lot of time and money tied into a home and acreage we never plan on selling. If inevitable, I propose the further east path (the one NOT over Tate farms) or more western route, towards 205 & fm 550.	Comment noted. See **Responses C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
232	Perez, Rod	11/9/2023	Written Comment	Why would you choose: Phase II - Aqua or Pink Less populated area - not cutting through two to three communities located near 205 & 548.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
233	Peterson, Stephen	11/22/2023	SurveyMonkey Comment	Completely against this proposed outer loop route. Construction will be a pain for years and when complete the noise will drown out everything we love about living in the country. This will also negatively impact our property values as well as bring in possible new crime.	Comment noted. See **Responses H (Safety), I (Noise) and O (Property Value)** in the Comment/Response Matrix Legend. The construction phase of the project is currently unfunded and cannot let until funding is identified. At this time, the timeline for construction and the estimated completion date are to be determined, contingent upon available funding and need. Construction would occur in phases to accommodate the anticipated growth and development as it occurs. Initial construction would consist of a single frontage road with two lanes, one operating in each direction.
234	Pfeiffer, Michael	11/23/2023	SurveyMonkey Comment	Without a doubt we need more roads given the insane amount of growth and the recent congestion on existing roads especially during commuting times.	Comment noted.
235	Pirkul, Hasan	11/21/2023	Email Comment	I am one of the property owners that is impacted with the Rockwall County outer loop. We own the 120 acres at the intersection of Elm Grove and Parker Roads. I have seen the Nov. 9 meeting materials that were made public. My question is whether the alignment proposed is the final alignment or do you expect to make any major changes to it. Thank you for your help.	See **Response F (Right of Way (ROW))** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, right of way (ROW) is proposed on property owned by Hasan Pirkul near the intersection of Parker Road and Elm Grove Road, Royse City, TX. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time. **Additionally, on 11/21/2023, Matt Craig, Consultant Project Manager, responded by email with the following:** Thank you for your email. We are still collecting comments from the public as part of the formal public meeting on Nov. 9. The alternative recommended for further study was presented at the November 2023 public meeting. We will be reviewing comments we received, and will be coordinating with the County and TxDOT on any refinements to the recommended alternative based on those comments received. If you have any specific comments on the recommended alignment as presented, please let us know. Comments received within the comment period will be included in the formal public meeting documentation. The comment period began on Thursday, November 9, 2023, at 5:30 p.m. and ends on Friday, November 24, 2023, at 11:59 p.m. Responses to comments received will be available online at www.rockwallcountytexas.com/loop once they have been prepared. We can also do another follow-up meeting with you if desired, just let me know.

236	Platz, Les	11/23/2023	Email Comment	The invite to submit comments is greatly appreciated, though given the busy lives most families endure, I'm certain most citizens are unaware or don't have time to participate in this process. I also fear, comments submitted, will fall on deaf ears and this is nothing more than placing a checkmark in a box to complete a token step in the process of moving this project from paper to shovels in the ground. Regardless, I appreciate the opportunity. A few thoughts based on the declared project "Purpose and Need" statement which in part states "A new location roadway is needed within the study area due to the lack of suitable, continuous north-south major arterials". My question is whether this is a defined need or just an observation? In my opinion you could use the above statement throughout the entire state to justify a road infrastructure project. There are clearly thousands are areas that lack major north-south arteries as well as east-west arteries. Throw a dart at the map of Texas. Where is the data that supports this need? As a resident who engages in the day-to-day commute through the impacted area of this project, the following thought comes to mind. Why is there such focus on the north/south movement of traffic. The current and future demand for traffic flow is east/west. As more people move into the eastern region of Rockwall county, western Hunt county, northern Kaufman county and southern Collin county, the primary traffic flow still points to/from the Dallas job hub. Anyone living in this area will tell you how this population growth has impacted the east/west traffic over the past several years. Traffic patterns & congestion rival those in Dallas. Regarding the north/south traffic, the current roads easily manage this traffic. I live on a primary north/south road (550) and the traffic on this highway is never busy. This is easily explained because there is no high north/south traffic demand. In addition, the proposed highway plan is too large. Four lanes of highway in each direction, is interstate size. The roadway size of this project would be comparable to I-30. Even though the project is planned in proposed stages, starting out small with the opportunity to expand, the land would still be acquired, and fence & barriers erected to isolate the build area. People would be forced to sell property and/or move on the chance that the full highway system would ever be completed. I'm curious, given the age of this plan with origins back to 2002, how they could have anticipated the current growth in this area. I would like to know who this highway concept originated with and why a loop so far from Dallas was ever conceived. No one could have anticipated the growth that has occurred in this area, 20 years ago. I am no civil engineer and I realize projects of this size take years of review, but that's bureaucracy. There was no foundational need for a loop of this size in 2002, let alone today. Case in point. I'm not exact on the dates when the George Bush Toll (GBT) opened, but its capacity is far from being utilized. Furthermore, the GBT is not even finished as a loop. To accommodate the larger carrier/transport vehicles with north/south need, I would suggest they finish the GBT loop before building out a further loop and destroy more of rural Texas. There are, of course, the obvious negative impact factors that any new highway system would impose on current rural residents in the planned development zone. Beyond the displacement of residents that live in the build zone, this would also be a catalyst for additional housing development and population expansion. Close behind, there would be a push for more re-zoning around the project area to support businesses that typically spring up along highway arteries. Our infrastructure is already stretched. Encouraging more development is careless planning. With this too, comes all the different forms of pollution and crime that follow these projects and would spoil the serenity, current residents in this area enjoy. *(comment continues on the following page)*	See **Responses A (Project Purpose and Need), B (Project History), E (Other Roadway Projects), F (Right of Way (ROW)), H (Safety), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend. Notices for the November 9, 2023 public meeting were advertised in Spanish in Al Día, and in English in the McKinney Courier-Gazette, Rockwall County Herald-Banner, Royse City Herald-Banner, Dallas Morning News, and on the TxDOT.gov website under “Hearings and Meetings.” Notice of the public meeting was mailed to study area property owners. Notices were both mailed and emailed (when available) to elected and public officials, project stakeholders, and previous public meeting participants. The construction phase of the project is currently unfunded and cannot let until funding is identified. Operation and maintenance responsibilities for the future facility are to be determined.

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
				Maintenance and repair. I don't know where Texas lies on miles of existing roads and highways, but with each mile laid, comes the added expense of maintenance and repair. Our current roads and bridges must require a huge budget to maintain. If we allow unchecked expansion without real need, we're also approving the dollars to maintain these roads and highways. Texas can't print money, so who do you think shoulders that cost? This is made worse when approving highway infrastructure projects that have no proven functional purpose. I conclude with an observation brought forth due to the lack of a clearly defined need as to why this monster artery is needed at all. Highway loops that circle cities do have obvious advantages especially for large transport/carriers of goods, keeping them from navigating and further clogging interstate systems that intersect cities. Loops that expand 40 plus miles from city centers begin to take on a different function and begin to look more like fences. The ability to manage what's inside the loop improves as the small unmapped backroads going through these build zones are blocked or removed. I'm sure the state can find better ways to spend our money and better support the overall well-being of its citizens versus a pet project that will have minimal short-term financial benefit, but long-term financial obligations.	
237	Popoff, Sherry	11/22/2023	SurveyMonkey Comment	A firm NO!	Comment noted.
238	Pursell, Nate	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
239	Quesads, Johana	11/23/2023	SurveyMonkey Comment	Do not build bridge	See **Response G (Proposed Bridges)** in the Comment/Response Matrix Legend. The proposed Rockwall County Outer Loop would be located over six miles east of Lake Ray Hubbard within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall in Rockwall County. Planned improvements to the IH 30 bridge across Lake Ray Hubbard are included in a separate project led by TxDOT. For more information you can visit www.keepitmovingdallas.com and search for “IH 30 Improvement Project."
240	Randolph-Seng, Brandon	11/22/2023	SurveyMonkey Comment	I am very concerned about the proposed freeway next to our neighborhood at High Point Lake Estates. The negative impacts on our community include increased noise pollution, reduced air quality for the elderly and children with asthma (which includes one of my own), and disruptions to the local ecosystem. Additionally, property values will be affected, and the overall quality of life for residents will be compromised. I urge you to explore alternative options that prioritize the well-being of our community.	See **Responses C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts), K (Air Quality), L (Biological Resources) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
241	Randolph-Seng, Carrie	11/22/2023	SurveyMonkey Comment	Please do not put the Outer Loop right next to the High Point Lake Estates neighborhood.The maps I see show it disturbingly close to our homes. It would diminish our home values and our quality of life to see and hear the traffic so close by. We built our home 5 years ago for about $600,000. Comparables in our neighborhood indicate that if we sold it today, we could easily sell it for $800,000. There is no question that a highway abutting the neighborhood would drive the value of our home down and that it would hurt our neighbors' prospects even more, based on where they live within the neighborhood. Our neighborhood is not made up of track homes or rentals. Not all of the homes are fancy, but none of them are starter homes. Many homeowners here built or purchased with the expectation that they will finish raising their children here and stay through their retirement, or until their retirement, at which time their home equity will provide needed added security for their retirement. To put a highway, or similar, right next to our neighborhood would be disastrous to those expectations and future security. Like you, we've been doing our best to provide for our families and their futures. Please locate the Outer Loop where it won't have these very negative impacts on our neighborhood, or similar neighborhoods with similar price points. Thank you so much for your care and empathy in this matter as you decide how to meet the needs of a growing region. I really do think there is a solution that won't negatively impact our neighborhood so much, and I'm praying for us and for you that you'll be able to figure one out.	See **Responses C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
242	Rathburn, Janet	11/23/2023	SurveyMonkey Comment	No we do not want this!!	Comment noted.
243	Ray, David	11/22/2023	SurveyMonkey Comment	We are against this project.	Comment noted.
244	Reaves, Lloyd	11/17/2023	SurveyMonkey Comment	As a resident of Chisholm Ranch Estates, my preference would be the pink route, as it has the least impact on the local neighborhoods. With the expansion of hwy 205 and 548 we are already going to be dealing with much more noise(the reason we moved out here) and any additional noise will have a detrimental noise impact and degrade the values of our homes. The pick route transits much more rural areas that won't be affected as much. Thank you.	See **Responses C (Alternative Recommended for Further Study), I (Noise) and O (Property Value)** in the Comment/Response Matrix Legend.
245	Roman, Aliza	11/22/2023	SurveyMonkey Comment	Against the loop. Push it out further to Hunt and Kaufman counties.	Comment noted. See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend.
246	Rosini, Carol	11/21/2023	Email Comment	The green route seems to be in open land. The purple and turquoise routes goes next to large existing neighborhoods with high home values that would be greatly effected by this project. That would in turn affect the county's tax income. There is also a new neighborhood in the plans that it would effect too.	See **Responses C (Alternative Recommended for Further Study) and O (Property Value)** in the Comment/Response Matrix Legend.
247	Rotenberry, Joshua	11/24/2023	Mailed Comment	A highway in my front yard is not a safe place for my kids. Please reconsider. There has to be a better option than a four lane highway down the middle of a neighborhood.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
248	Rotenberry, Lori Anne	11/24/2023	Mailed Comment	We moved to get out of the city and traffic to raise our children and grandchildren, not to have traffic in our front yard. Please do not build a highway on N. Sorrells Rd.	See **Responses C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
249	Rotenberry, Starr	11/22/2023	SurveyMonkey Comment	I believe there is no purpose for this loop.. I will be right in my front yard and I moved out here to get some land and have that country feel and putting a highway up if not ideal for me or others that this will effect.	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
250	Rucker, Lauren	11/24/2023	SurveyMonkey Comment	We do not support this outer loop going through High Point Lake Estates. We moved to this area to be away from traffic, noise and highways and this outer loop will bring all of that, literally, to our backyard. We are concerned this will also affect the value of our home and compromise the safe, quiet country living we currently enjoy.	Comment noted. See **Responses A (Project Purpose and Need), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 1.5 miles southwest of the address provided, 1040 Amber Way, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
251	Rucker, Teddy	11/24/2023	SurveyMonkey Comment	I do not support the outer loop through Southern Rockwall County.	Comment noted.
252	Russo, Charles	11/22/2023	SurveyMonkey Comment	I strongly oppose this outer loop construction. Do not construct this outer loop within Royse City from FM 2755 to SH 205.	Comment noted.
253	Russo, Heather	11/22/2023	SurveyMonkey Comment	Do not want this running anywhere near high point ranch estate. The increased traffic,noise , pollution and crime will cause great financial damage to my property taxes. We all moved here to be in the country. Away from noise and traffic and you want to bring this to our door steps now. NO.	Comment noted. See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), H (Safety), I (Noise), J (Induced Growth & Community Impacts), K (Air Quality) and O (Property Value)** in the Comment/Response Matrix Legend.
254	Sadler, Suzanne	11/25/2023	SurveyMonkey Comment	Please protect our community, High Point Lake Estates. Everyone selected this community to be secluded from traffic and noise. It is our sanctuary, our home filled with wildlife and beauty. We appreciate your consideration. Thank you!	See **Responses A (Project Purpose and Need), I (Noise), J (Induced Growth & Community Impacts) and L (Biological Resources)** in the Comment/Response Matrix Legend.
255	Salazar, Mikaela	11/24/2023	SurveyMonkey Comment	PLEASE do not build a four-lane highway down N. Sorrells Rd. I am confident TXDoT can plan a better route that will not include excessive noise and danger to a neighborhood full of young families. This highway will also clear away farming land for crops and livestock. We live on N. Sorrells Rd. because it is a quiet and safe place to raise our children. This highway would also displace two families completely. There is OPEN land to the West of N. Sorrells. PLEASE do not connect a highway to our driveways!! Would you want this for your property?? PLEASE RECONSIDER!!	See **Responses C (Alternative Recommended for Further Study), F (Right of Way (ROW)), H (Safety), I (Noise) and M (Farmland)** in the Comment/Response Matrix Legend.
256	Salazar, Mikaela	12/1/2023	Mailed Comment	Please do not build a four-lane highway down N. Sorrells Rd. This would attach directly to our driveways. This would make the neighborhood a dangerous place for kids to play. It would also displace two families. Please reconsider. I am confident TxDOT can plan a route less intrusive. Please reconsider.	See **Responses C (Alternative Recommended for Further Study), F (Right of Way (ROW)) and H (Safety)** in the Comment/Response Matrix Legend.
257	Salazar, Milto	11/24/2023	Mailed Comment	Please do not build a 4 lane highway down N Sorrells Rd. This would connect to our driveways and displace two families. N Sorrells Rd is currently a quiet and safe place for familes. A highway would bring noise and make it unsafe for kids to play. Find a less intrusive route please.	See **Responses C (Alternative Recommended for Further Study), F (Right of Way (ROW)), H (Safety) and I (Noise)** in the Comment/Response Matrix Legend.
258	Salinas, Rosemary	11/24/2023	SurveyMonkey Comment	We moved to this area to avoid highways as where we previously lived came highway 190 and along with-it came crime to our neighborhood. Please do not put this highway anywhere near High Point Lake Estates located off 548 and Kuban Road.	See **Responses C (Alternative Recommended for Further Study), H (Safety) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
259	Samuels, Cameron	11/20/2023	Voicemail Comment	I had some questions regarding the outer loop construction project and whenever you get this message, please give me a call back at 757-472-1977.	**On 11/21/2023, Matt Craig, PE, Consultant Project Manager, left a return voicemail. No response was received. On 12/18/2023, Matt Craig, PE left a follow-up voicemail.**

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
260	Sanderson, Gene	11/17/2023	SurveyMonkey Comment	I trust this letter finds you well. My name is Gene Sanderson, a resident of Chisholm Ranch in Rockwall, Texas, residing at 416 Chisholm Ranch Dr., and I am writing to express my strong opposition to the proposed Rockwall County Outer Loop Project from FM2755 to SH 205. **Existing Noise and Ongoing Expansion:** Currently, the noise from Highway 205 is already a daily disturbance. As you may be aware, the ongoing expansion of 205 to four lanes has significantly impacted our neighborhood. The construction has not only disrupted our community's entrances but has also heightened the noise levels, making it increasingly difficult to enjoy the peaceful atmosphere we once had. **Negative Impact on Quality of Life:** The prospect of an additional highway running through our community is distressing. With the current state of Highway 205 and the planned expansion, our quality of life has already been negatively affected. The introduction of a new highway would only compound these issues, further diminishing the desirability of our neighborhood as a peaceful and comfortable place to live. **Concerns About Home Values:** Moreover, the ongoing construction and the proposed new highway are causing significant concerns about the impact on our property values. The property devaluation resulting from these changes would not only affect our current financial investments but could also have long-term implications for the economic stability of our community. **Entrance Disruptions:** The recent modifications to our entrances due to the 205 expansion have already created inconveniences for residents. Adding another highway would likely compound these issues, further restricting access to our community and making it increasingly challenging for residents to navigate in and out of our neighborhood. This not only affects our daily routines but also raises concerns about emergency services' timely access in case of need. **Opposition:** I want to emphasize that I vehemently oppose the construction of the proposed project next to our community. It not only exacerbates the existing issues related to noise and infrastructure but also introduces new challenges that could irreparably harm the character and well-being of our neighborhood. **Request:** I urge you to reconsider the impact of this project on our community, taking into account the existing noise levels from Highway 205, the ongoing expansion, and the disruptions to our neighborhood entrances. I implore you to explore alternative solutions that do not compromise the peace and serenity that we, as residents, deserve. Thank you for considering my strong opposition to this development. I hope you will prioritize the well-being and concerns of the residents in your decision-making process.	Comment noted. See **Responses C (Alternative Recommended for Further Study), E (Other Roadway Projects), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the southernmost end of the proposed Rockwall County Outer Loop would parallel State Highway (SH) 205 and continue south to intersect SH 205 near County Road (CR) 250. No work would be proposed near the entrances to Chisolm Ranch along Farm-to-Market Road (FM) 548 or SH 205. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
261	Scott, Marilyn	11/24/2023	SurveyMonkey Comment	I live in High Pointe Lake Estates and this large highway/toll road thru our area will ruin the country quiet, decrease our home values greatly, and is in general not wanted at all by our community!	See **Responses I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. The proposed project configuration would consist of a two-lane frontage road in each direction, four general purpose lanes (two in each direction), and two shared use bicycle/pedestrian paths (one on the outside of each frontage road) within 500 feet of right of way (ROW). No managed lanes are currently proposed as part of the project. Funding sources are to be determined.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
262	Sefzik, William	11/9/2023	Written Comment	At Station 1615+00 outer loop needs to be shifted about 500 ft west. Border on floodplain on west	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend. The referenced location is a tract of vacant land owned by SISSCO PARTNERS LP just south of the Interstate Highway (IH) 30 interchange. The project team has met with the commenter, representing SISSCO PARTNERS LP. Coordination with stakeholders, including impacted property owners, is ongoing.
263	Serio, Joe	11/22/2023	SurveyMonkey Comment	We are against the Rockwall outer loop. We do not want to invite more traffic, crime, and congestion into our community.	Comment noted. See **Responses A (Project Purpose and Need), H (Safety) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
264	Shankles, Darrell	11/22/2023	SurveyMonkey Comment	I am against this project	Comment noted.
265	Sherman, Threasa	11/22/2023	SurveyMonkey Comment	Why not widen 550 to 205 instead of taking out half of Tate Farms on 548.	See **Response A (Project Purpose and Need)** in the Comment/Response Matrix Legend.
266	Sigwardt, Peter	11/23/2023	SurveyMonkey Comment	Please re-route proposed outer loop so as to not effect High Point Lake Estates housing development. Thanks for the opportunity to submit comment against proposed route.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
267	Sigwardt, Sharon	11/21/2023	SurveyMonkey Comment	Please do not put this road through our neighborhood	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located adjacent to and northwest of the High Point Lake Estates subdivision. Right of way (ROW) would be proposed on two parcels within the subdivision at the Kuban Road intersection and the western-most corner of High Point Lake Estates. No displacements are anticipated within High Point Lake Estates. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
268	Simpson, Tammy	11/24/2023	SurveyMonkey Comment	NO more building/bigger roads!! ITS TOO CROWDED ALREADY!!!!!	Comment noted. See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
269	Sittel, Jan	11/9/2023	Written Comment	I do not approve of an eight lane road through rural Rockwall county. People who visit always comment on the country side and clean air. There already exist the roads necessary to move the cars ie. 30, 20, 80, 276, 205 and the smaller roads such as 549, 550, 548. This new monster road could attract traffic such as what happened on 30 last week with a car carrying drugs that the police had to chase. The noise on the new monster road will not help the rural life.	Comment noted. See **Responses A (Project Purpose and Need), I (Noise), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend.
270	Skyles, Brenda	11/23/2023	SurveyMonkey Comment	No to the loop! No to more traffic and crime potential!	Comment noted. See **Responses A (Project Purpose and Need) and H (Safety)** in the Comment/Response Matrix Legend.
271	Sladovnik, Justin	11/21/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
272	Smith, Adrienne	11/24/2023	SurveyMonkey Comment	I will NOT vote or support for any county commissioner or anyone who holds public office in Rockwall County who supports building the southern part of the outer loop near 548.	Comment noted.
273	Smith, April	11/22/2023	Email Comment	As a resident of Old Millwood Road, these maps are terrifying. Old Millwood is 100% fema flood plain, and yet , lines keep popping up on maps showing the government trying to turn an old country road into a highway, or worse, ripping up the Hittson Cattle Ranch right through the middle …. Half of old millwood isn't even paved ! This wetland and wildlife area is known for having bald eagles, wild deer, various coyotes and even a possible wolf hybrid pack. We ask that Old Millwood and the Hittson ranch be left out of this mess. Use established roads such as North Smith Road … using a flood plain and wildlife wetland and cattle ranch , and partially unpaved road to relieve your traffic needs is ludicrous. How about control the development and stop clear cutting every pasture to throw 4 homes per acre on? Leave Old Millwood and the Hittson ranch out of this mess. We are not annexed into your cluster of a city , more so, never want to be. Leave us out of this.	Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately three miles east of the address provided, 844 Old Millwood Road, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time. No modifications to Old Millwood Road are proposed as part of the Rockwall County Outer Loop Project. No ROW is proposed on property owned by Hittson Family Limited Partnership, located east of Old Millwood Road.
274	Smith, Brianne	11/22/2023	SurveyMonkey Comment	We are new builders and home owners of our community in High Point LaKe Estates. We have been informed of the potential outter loop near our home. We have young children who enjoy the safety and freedom of our home to play outside. We specifically moved here to enjoy the space and quiet for our family. This outter loop would take this away and from the homes of our community. Please consider not impending into a community full of young families and children who love where they live. This would make our home unsafe for our children.	See **Responses C (Alternative Recommended for Further Study), H (Safety), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
275	Smith, Delilah	11/21/2023	SurveyMonkey Comment	I beg you not to build this highway in my back yard. Please consider other options.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
276	Smith, Stephen	11/24/2023	SurveyMonkey Comment	I will not support any county commissioner that supports the current planned path near High Point Lake Estates.	Comment noted.
277	Souder, Christopher	11/22/2023	SurveyMonkey Comment	As a resident of High Point Lake Estates I am asking for the route to be moved away from our community to an alternate route in Kaufman county. We moved to this neighborhood to get away from the noise, crime and lights and major highways. The proposed route that would run adjacent to our neighborhood would cause irreparable damage to our home values and way of life. I strongly encourage our community leaders to oppose this plan.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), D (Regional Outer Loop), H (Safety), I (Noise), J (Induced Growth & Community Impacts), N (Roadway Illumination) and O (Property Value)** in the Comment/Response Matrix Legend.
278	Spann, Gail	11/23/2023	SurveyMonkey Comment	Oh heck NO! The noise, light and visual pollution would be horrible. Again, NO!	Comment noted. See **Responses I (Noise) and N (Roadway Illumination)** in the Comment/Response Matrix Legend.
279	Spatz, Brooke	11/22/2023	SurveyMonkey Comment	I feel building this where currently planned is a huge detriment to the future of Rockwall-it doesn't elevate local traffic congestion at all. All it will do is bring more 1000's of more homes along its path further congesting local roads. It's only potential gain will be to help locals head south to Austin -This will not help anyone in Rockwall get to Dallas or Forth Worth. Please consider areas with more available land/space rather than cutting into the little remaining charm and uniqueness of Rockwall/heath	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), D (Regional Outer Loop) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
280	Stafford, DeAnna	11/22/2023	SurveyMonkey Comment	I do not agree with this Decision and believe it will cause more issues than resolution. this decision would be ruining the amazing views we have from our great city and cause us to look at concrete while also listening to the thousands of vehicles and accidents this will cause.	Comment noted. See **Responses A (Project Purpose and Need), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately seven miles east of the address provided, 201 Meadowdale Drive, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
281	Stastny, Thomas	11/10/2023 11/15/2023	SurveyMonkey Comment, Mailed Comment	I bought this land in 1979. I built my house, stables, apartments above the stables, commercial kitchen with plans to run a Bed and Breakfast as my next income. This was a major investment towards my future and my kids future. I built a workshop, carport, created several ponds, many fences, planted all the trees surrounding the house. Recently hired a company to install solar panels with supporting batteries. The house has 4 bedrooms, 4 and 1/2 bathrooms, 2 kitchens, dining room, living room, library, game room, indoor pool, jacuzzi and sauna. I raised my children and created many memories with this land and the house. My wife passed away in the home in December 3 years ago and my memories with her are still in this house. There are several options for the highway and I was hoping that you would select the one on the west side of the creek that would not in-impact me and my neighbors on the corner of highway 66. Please reconsider, Thanks.	See **Responses C (Alternative Recommended for Further Study) and F (Right of Way (ROW))** in the Comment/Response Matrix Legend.
282	Sterling, Zac	11/22/2023	SurveyMonkey Comment	I support construction of new roads to ease traffic strain in the Rockwall area.	Comment noted.
283	Stromquist, Phyllis	11/22/2023	SurveyMonkey Comment	I am for the outer loop. Heath and Rockwall fought against Bush Toll road. If we had it out here, we wouldn't be dealing with I30	Comment noted.
284	Suber, Ricky	11/9/2023	Email Comment	I can't tell one bit what or how the new roads are running from the maps online. We live off 548 down from 205 close to Los Establos development. Our road is Highpoint Road in Royse City. How in the heck can I see all potential route plans that could affect me better than what you have posted? The maps thru 548 over to 205 on the south side are terrible to read or see where the roads and paths are.	**On 11/10/2023, Aimee Jones, PE, Consultant Project Manager, responded by email with the following:** Highpoint Road is outside the limits of the more detailed roll plots of the alternative recommended for further study. I've highlighted Highpoint Road in yellow on the image below snipped from Board #15 (https://rockwallcountytexas.com/DocumentCenter/View/9835/rcol-ex-15-Step5Map). The orange shapes along the yellow highlight are conservation easements within Los Establos. I hope this helps you navigate the materials. I am working to get an interactive map posted on the website, but it will take some time. *Please refer to **Attachment D, Comments Received** for the image mentioned in the response.*
285	Swenson, Kristina	11/22/2023	SurveyMonkey Comment	We currently built our dream home in High Point Ranch where this outer loop is supposed to go right by. This road will threaten our home value and cause us to move out of the area. There is no reason to jeopardize our way of life for people who are passing through. This road will not benefit us or our neighbors and is a huge intrusion on the quality of living for the area. Expand 548 and 205. That will help the residents in this area not bringing in truckers trying to get to Houston/ Greenville. We oppose outer loop!	Comment noted. See **Responses A (Project Purpose and Need), E (Other Roadway Projects), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
286	Tapia, Elizabeth	11/22/2023	SurveyMonkey Comment	No, too close to my back yard	Comment noted. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately 2.4 miles southeast of the address provided, 302 Pioneer Court, Rockwall, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
287	Tiffany	11/22/2023	SurveyMonkey Comment	Do not build this and destroy our properties, views and peace. Keep the country country.	Comment noted. See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
288	Tone, Aileen	11/22/2023	SurveyMonkey Comment	Terrible idea. As a Rockwall , Co resident I absolutely object to this project. This will decrease our property values as well as increase traffic congestion.	Comment noted. See **Responses A (Project Purpose and Need) and O (Property Value)** in the Comment/Response Matrix Legend.
289	Townsend, Clayton Dale & Francis L.	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
290	Travis, Matt	11/23/2023	SurveyMonkey Comment	Build it!!	Comment noted.
291	Treece, Ron	11/22/2023	SurveyMonkey Comment	I do not support the outer loop proposal	Comment noted.
292	Tumey, Lisa	11/22/2023	SurveyMonkey Comment	Build out east of Royse City. Map shows location behind home of Sleepy Hollow in Fate.	See **Responses A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
293	Vaughn, Lyndsey	11/23/2023	SurveyMonkey Comment	I am against this proposal. This will be devastating for so many families, some of which have been in this areas for decades. I beg, please find another path.	Comment noted. See **Responses C (Alternative Recommended for Further Study) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
294	Vaughn, Michael	11/24/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
295	Vaughn, Shawn	11/21/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
296	Vavra, Jennifer	11/22/2023	SurveyMonkey Comment	I do not want to impact our community with having this roadway built right through their homes. Maybe look at ways to not impact so many families. Maybe move it out a bit further. I'm just not for destroying so many family homes.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), F (Right of Way (ROW)) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
297	Vellone, Jovannie	11/22/2023	SurveyMonkey Comment	This is an awful idea, especially with the amount of traffic coming thru this area. Why not go further out to move traffic congestion away from inner city? Fate as well has become a traffic hoarding congested area...please re-evaluate and take it further east!	See **Responses A (Project Purpose and Need) and C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
298	Vogel, Jennifer	11/23/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
299	Wade, Angela	11/9/2023	Written Comment	Hello! Thank you for asking for comments: We have been involved ever since we found out about the plans to build a roadway in 2022. Please remember our family and our place to build our dream home at 4732 S. FM 548! We would really appreciate being able to continue with our building plans.	See **Response F (Right of Way (ROW))** in the Comment/Response Matrix Legend. The project team met with the Wade family in January and July of 2023. The request for continued coordination is noted. Coordination with stakeholders, including adjacent communities, local governments, and impacted property owners, is ongoing. A third public meeting is tentatively planned for Fall 2024, at which time a more detailed schematic design of the Proposed Rockwall County Outer Loop will be made available to the public. The address provided, 105 James Street, Fate, Texas, is included within the project mailing list and will continue to receive notification of future public involvement activities.
300	Wade, Justin	11/9/2023	Written Comment	I own the property at 4732 S. FM 548 Fate, TX 75189. We have previously discussed our plans for a home to be built on our property. The current projections allow for us to do that. Please keep us in mind moving forward because any change may necessitate loss of our new home.	See **Response F (Right of Way (ROW))** in the Comment/Response Matrix Legend. The project team met with the Wade family in January and July of 2023. The request for continued coordination is noted. Coordination with stakeholders, including adjacent communities, local governments, and impacted property owners, is ongoing. A third public meeting is tentatively planned for Fall 2024, at which time a more detailed schematic design of the Proposed Rockwall County Outer Loop will be made available to the public. The address provided, 105 James Street, Fate, Texas, is included within the project mailing list and will continue to receive notification of future public involvement activities.
301	Wadham, Melissa	11/22/2023	SurveyMonkey Comment	As a realtor, which has been in the business for over 21 years, knowing this will devalue our whole neighborhood, and all the homes and residents that are affected throughout this direction of the loop. Adjusting the route south of 548. Along country road 243. Due to the fact, Rockwall is constantly expanding the outer loop needs to be further out and the Terrell Quinlan area. By this proposed Outerloop would notice devalue all the homes in Rockwall in Rockwall County, but well also devalue Rockwall as a whole. New home buyer will steer way from wanting purchase any where around this loop. This will make Rockwall, Rockwall county less desirable place to live.	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
302	Wagner, Dawn	11/22/2023	SurveyMonkey Comment	I am not in favor of the outer loop.	Comment noted.
303	Walden, Laci	11/21/2023	SurveyMonkey Comment	Please move the highway out of our neighborhood. There is plenty of land that can avoid this going into a developed area.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located adjacent to and northwest of the High Point Lake Estates subdivision. Right of way (ROW) would be proposed on two parcels within the subdivision at the Kuban Road intersection and the western-most corner of High Point Lake Estates. No displacements are anticipated within High Point Lake Estates. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ROW is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
304	Wall, Etta	11/23/2023	SurveyMonkey Comment	I strongly oppose this project. Adding the outer loop to this area will devalue the homes in my addition, provide easy access for criminals, ruin this peaceful rural neighborhood and create noise. There are many other routes that this project could take. The current proposal is not ideal for this area. We just moved here and adding something like this would make us move away.	Comment noted. See **Responses C (Alternative Recommended for Further Study), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
305	Walls, Mark	11/21/2023	SurveyMonkey Comment	We do NOT want this outer loop - it will negatively impact our homes & families.	Comment noted. See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
306	Watson, Charlie	11/24/2023	SurveyMonkey Comment	I am a home owner whose property will back up to the Loop and I am very concerned about how having a freeway behind and a major roadway in front of my house will decrease my quality of life by: 1. An increase in the noise from construction and traffic 2. Decrease the quality of my air and land due to pollution(both during construction and the additional traffic after the road is operational). 3. Expect that our property value will decrease 4. Our pets and chickens could be adversly impacted by the noise, pollution and general construction chaos. 5. We are concerned about how this will affect the zoning of our land and the properties around us. 6. The additonal noise from construction and traffic will impact the ability to work from home.	See **Responses I (Noise), J (Induced Growth & Community Impacts), K (Air Quality) and O (Property Value)** in the Comment/Response Matrix Legend.
307	Watson, Jeff	11/17/2023	SurveyMonkey Comment	Please consider the route from slide #14. The pink colored one that is on the far side of HPLE. This route makes the most sense to me. Instead of affecting two neighborhoods by going right down the middle, it will only affect one. We live on Wincrest Drive so this outer loop is really going to impact our lives. I've never been in this type of situation so I'm not sure how much the citizens really have a say. I wish it wouldn't be built at all, but I know it's needed. Please consider the pink route and please add sound barriers. The noise from 205 is already very apparent. I can't imagine the noise from this project. It's amazing how sound travels in this flat, windy area.	See **Responses C (Alternative Recommended for Further Study) and I (Noise)** in the Comment/Response Matrix Legend.
308	Watson, Pamela	11/14/2023	SurveyMonkey Comment	I live on the corner of Sorrels Rd, and State Hwy 66. We are in the path of the green option. This is mine and my husband's dream to live here.We have done so much to this place to make it our home. I hope whoever is reading this can empathize what it would be like to be in our position;you would not want to be in our shoes.We have a neighbor who we have talked to , he has lived here for over 40 years ,just like us has cultivated the land keeping it serene where nature is thriving. We are wondering why you can not entertain the part of this project moving to the west ot Parker Creek.There doesn't seem to be homes in the way. We think this would be ammenable for all parties involved.	See **Responses C (Alternative Recommended for Further Study) and F (Right of Way (ROW))** in the Comment/Response Matrix Legend.
309	Wauters, Tyler	11/10/2023	SurveyMonkey Comment	I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 expansion project which has significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, causes numerous internet interruptions (some lasting multiple days). The addition of an 8 lane freeway would be catastrophic to our community and reasons we all decided to build our homes and families here. I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well.	See **Responses C (Alternative Recommended for Further Study), E (Other Roadway Projects), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend.
310	Weimer, Tomasa	11/9/2023	Written Comment	Good to see the outer loop has been moved to a further east location, where there are fewer residents that will be impacted.	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
311	Welpe, Gregg	11/21/2023	SurveyMonkey Comment	The ill-conceived logic of extending the loop into Forney at US 80 will only compound the traffic issues for commuters from Kaufman county. The outer loop should be pushed further east due to the projected growth in both Hunt and Kaufman counties. The projected RCOL will only make traffic worse in this part of the NCTCOG region, especially when intersecting I-30, US 80 and I-20 as currently planned.	See **Responses A (Project Purpose and Need) and D (Regional Outer Loop)** in the Comment/Response Matrix Legend.
312	White, Ben	11/9/2023	Written Comment	I am the city manager in Farmersville. I appreciate the work Rockwall County is doing to provide this much needed regional connection to enable a connection between US 380 and I-30. Development is closing in and it is imperative that ROW be secured immediately. Farmersville is planning for increased industrial activity so this route will be used for both residential and "industrial" purposes meaning increased truck traffic with a need for increased safety concerning # large trucks. Please consider building overpasses as part of phase I so a nonstop path could be created using the two-way feeder lane deployment.	Comment noted. Your request for construction of overpasses during initial construction is noted. Such accommodations will be considered and evaluated. Construction would occur in phases, contingent upon available funding and need.
313	Wiley, Kenitres	11/24/2023	SurveyMonkey Comment	My family and I would love the further east route to be considered. Many families in the south east rockwall county built homes that were meant to feel country and quiet. It would be heartbreaking to have to eventually move from our forever homes due to this build being so close to our little neighborhood.	See **Responses C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
314	Wilkerson, Kriste	11/22/2023	SurveyMonkey Comment	PLEASE choose an alternative route that does NOT put the Outer Loop in my back yard of High Point Ranch. We homeowners sunk our life's savings to build our forever retirement home to live in the county with peace & quiet! There are alternative routes that avoid neighborhoods. Please consider the future growth and move this outer loop further out to provide the most benefits in the future, not to be behind the times already as soon as the Loop is built!	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
315	Wilkins, Frank	11/22/2023	Email Comment	Please find the attached letter containing my comments re: the above. I am a resident of Chisholm Ranch Estates neighborhood at the intersection of Highway 205 and FM548. As such, I am writing this letter to protest any routing of the Rockwall County Outer Loop Project -namely the green, gold, brown, gray, teal, and purple proposed routes that would adversely impact my neighborhood with its proximity. Obviously, infrastructure expansion must take place to handle the increase in growth and traffic, however, the above proposed routes will severely and adversely impact our neighborhood – a neighborhood that is already being negatively impacted by the Highway 205 and FM 548 expansion projects. These projects have already resulted in the loss of homeowner and community land, and are creating noise issues that many who bought and moved here sought to escape! Another major highway in the same vicinity will only make this worse. Furthermore, it not only raises the question of environmental impacts, but the safety and wellbeing of the affected neighborhoods. In particular: · It creates an unneeded expense dealing with sound and sight mitigation when it could easily be routed by one of the other less impactful route options such as the pink/magenta route which is further east of us. · It decreases the home values of those living in Chisholm Ranch Estates when the other routes have a less personal impact. · It creates extreme unnecessary street traffic confusion with on and off ramps, which are not yet considered or shown on any plans available to the public. · It creates extreme unnecessary street traffic confusion by taking out the street traffic that could be absorbed by leaving 548 intact. · The only route that would be acceptable to me is the pink/magenta route on the phase 2 map as it swings out further east and appears to impact fewer homes and businesses, particularly mine. In conclusion, it is obvious there is much more open land east and south of my neighborhood that would make a far less impactful proposition to the rapidly growing area. Seems as if it would make MUCH more sense to consider and implement a route that causes the least disruption to as few established homes and neighborhoods as possible – namely the pink/magenta route. Kindly reconsider your decision concerning the location of the new outer loop routing and make the necessary changes. I would appreciate a response from you regarding this issue. I can be reached at 972-571-0255 or at [redacted].	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), E (Other Roadway Projects), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the Chisholm Ranch subdivision would be located non-adjacent to and approximately a quarter mile west of the proposed Rockwall County Outer Loop. No work would be proposed on Farm-to-Market Road (FM) 548 west of State Highway (SH) 205 and adjacent to Chisholm Ranch. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time. A preliminary ramping layout was included in the conceptual design for the alternative recommended for further study presented during the November 9, 2023 public meeting. To access the virtual public meeting, go to Rockwall County's website at www.rockwallcountytexas.com/loop and navigate to the "RCOL Public Meeting #2" page on the lefthand side. All project materials available to the public to date are included within the virtual public meeting, including roll plots of the conceptual design for the alternative recommended for further study. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed ramps presented during the November 9, 2023 public meeting will be further evaluated during schematic development.
316	Wilkins, Greg	11/22/2023	SurveyMonkey Comment	I strongly oppose the outer loop as drawn through Rockwall County. It is too close to existing neighborhoods and cuts one of the last remaining family farms in half. It needs to be pushed farther east, into Hunt County.	Comment noted. See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
317	Wilkins, Kim	11/22/2023	Email Comment	Please find the attached letter containing my comments re: the above. I am a resident of Chisholm Ranch Estates neighborhood at the intersection of Highway 205 and FM548. As such, I am writing this letter to protest any routing of the Rockwall County Outer Loop Project -namely the green, gold, brown, gray, teal, and purple proposed routes that would adversely impact my neighborhood with its proximity. Obviously, infrastructure expansion must take place to handle the increase in growth and traffic, however, the above proposed routes will severely and adversely impact our neighborhood – a neighborhood that is already being negatively impacted by the Highway 205 and FM 548 expansion projects. These projects have already resulted in the loss of homeowner and community land, and are creating noise issues that many who bought and moved here sought to escape! Another major highway in the same vicinity will only make this worse. Furthermore, it not only raises the question of environmental impacts, but the safety and wellbeing of the affected neighborhoods. In particular: · It creates an unneeded expense dealing with sound and sight mitigation when it could easily be routed by one of the other less impactful route options such as the pink/magenta route which is further east of us. · It decreases the home values of those living in Chisholm Ranch Estates when the other routes have a less personal impact. · It creates extreme unnecessary street traffic confusion with on and off ramps, which are not yet considered or shown on any plans available to the public. · It creates extreme unnecessary street traffic confusion by taking out the street traffic that could be absorbed by leaving 548 intact. · The only route that would be acceptable to me is the pink/magenta route on the phase 2 map as it swings out further east and appears to impact fewer homes and businesses, particularly mine. In conclusion, it is obvious there is much more open land east and south of my neighborhood that would make a far less impactful proposition to the rapidly growing area. Seems as if it would make MUCH more sense to consider and implement a route that causes the least disruption to as few established homes and neighborhoods as possible – namely the pink/magenta route. Kindly reconsider your decision concerning the location of the new outer loop routing and make the necessary changes. I would appreciate a response from you regarding this issue. I can be reached at 972-741-3428 or at [redacted].	See **Responses A (Project Purpose and Need), C (Alternative Recommended for Further Study), E (Other Roadway Projects), H (Safety), I (Noise), J (Induced Growth & Community Impacts) and O (Property Value)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the Chisholm Ranch subdivision would be located non-adjacent to and approximately a quarter mile west of the proposed Rockwall County Outer Loop. No work would be proposed on Farm-to-Market Road (FM) 548 west of State Highway (SH) 205 and adjacent to Chisholm Ranch. The alternative recommended for further study will continue to be refined during the schematic development phase. 318	Williams, Christopher	11/23/2023	SurveyMonkey Comment	I oppose the loop project altogether, however if it moves forward as projected, I vehemently oppose it going through on the east side of Tate Farms. It appears the west side makes the most sense with access to infrastructure support and mitigates the negative impact on residential areas.	Comment noted. See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
319	Williams, Renee	11/23/2023	SurveyMonkey Comment	Do anything to make traffic better! Its insane in rockwall.so much that I had to move to Rowlett so I was not exposed to it daily. The streets were not prepared for such fast growth.	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
320	Wilson	11/22/2023	SurveyMonkey Comment	No loop	Comment noted.
321	Windahl, Michaela	11/22/2023	SurveyMonkey Comment	Will want to immediately move out of rockwall county after being here over 25 years. Known for its lake, this will only kill the view and bring MORE traffic to and around rockwall and I will not be pleased because it is already nearly impossible to get around as it is.	See **Responses A (Project Purpose and Need) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend. Under the alternative recommended for further study, the proposed Rockwall County Outer Loop would be located approximately ten miles east of the address provided, 3813 Cove Road, Rowlett, Texas. The alternative recommended for further study will continue to be refined during the schematic development phase. Proposed right of way (ROW) is preliminary and subject to revision during schematic development; however, substantial revisions to the alignment are not anticipated at this time.
322	Wirt, Barbara	11/22/2023	SurveyMonkey Comment	*(No comment submitted)*	N/A
323	Wittmayer, Brian	11/23/2023	SurveyMonkey Comment	This 8-lane super highway will go right by my beautiful, quiet, serene neighborhood - High Point Lake Estates - turning it into a disgusting, polluted, noisy, crime-ridden California-like suburb. Add a highway and you pave the way for nefarious people to get quick access to these pristine neighborhoods so they can vandalize, loot, and much worse. This will inevitably hurt existing homeowners by decreasing home values. I moved to this neighborhood to escape the loud, busy, polluted, and dangerous suburbs that plague this country and am shocked that Rockwall County Officials are supporting this abomination in the name of progress. Clearly those county officials don't live in any of the impacted neighborhoods so why would they care? They should care because every neighbor I've spoken to is against this project. The county officials are spitting in the faces of all the good, hard-working Texans who want to keep their neighborhoods safe, clean, and peaceful. We just want to keep what we have. Don't take that away from us.	See **Responses H (Safety), I (Noise), J (Induced Growth & Community Impacts), K (Air Quality) and O (Property Value)** in the Comment/Response Matrix Legend.
324	Wittmayer, Rachelle	11/21/2023	SurveyMonkey Comment	I do NOT want the Outer Loop to come through my backyard and ruin the integrity of the life I have set-up for my family. This Outer Loop will bring extreme noise congestion, crime, trash, and more...all the reasons we moved away from our previous location. We moved to give our kids better...this loop isn't it.	See **Responses H (Safety), I (Noise) and J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
325	Woodul, Kim	11/25/2023	SurveyMonkey Comment	This is needed to divert traffic off Goliad and John King which are getting congested. Glad to hear this is coming.	Comment noted.
326	Wren, Josiah	11/22/2023	SurveyMonkey Comment	This loop would honestly make me money. However, I did not move to Royse City and buy land so they can make yet another dirty Garland / Rowlett infested with homeless and subdivisions. I also know this is a losing battle. So in the end I will take the profit and move elsewhere.	See **Response J (Induced Growth & Community Impacts)** in the Comment/Response Matrix Legend.
327	Young, Jesse	11/9/2023	Written Comment	Ideally it would be great if it could run further away from our home. The proposed plan would give us no choice but to move from our dream home.	See **Response C (Alternative Recommended for Further Study)** in the Comment/Response Matrix Legend.
328	Young, Jessica	11/23/2023	SurveyMonkey Comment	No outer loop in Rockwall	Comment noted.

Comment/Response Matrix for the Rockwall County Outer Loop Project

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
329	Young, Mandy	11/9/2023	Written Comment	As a mother of 8, my husband and I searched for the most ideal location to raise our family. We designed our home so that it would also suit my husband and I, once all our kids have moved out. We wanted to raise our kids in a family home where they and their families would be able to come home to. A home full of memories that they shared with siblings and cousins. My heart is broken to see that this project will run beside my backyard. The once peaceful, quiet surroundings will be full of pollution and noise. I would hope that any other alternative be considered that didn't mean my family would walkout in our yard and could walk onto a frontage road. I will be praying this project doesn't go through in its current design.	See **Responses C (Alternative Recommended for Further Study), I (Noise), J (Induced Growth & Community Impacts) and K (Air Quality)** in the Comment/Response Matrix Legend.
330	Zamora, Daniela	11/22/2023	SurveyMonkey Comment	In favor of this project	Comment noted.
331	Zuniga, Jocelyn	11/23/2023	SurveyMonkey Comment	Absolutely not	Comment noted.

Notice of Public Meeting

ROCKWALL COUNTY OUTER LOOP
From FM 2755 to SH 205
CSJ: 0918-25-027
Rockwall County, Texas

Rockwall County and the Texas Department of Transportation (TxDOT) are conducting a feasibility study for a new location roadway from Farm-to-Market (FM) 2755 to State Highway (SH) 205 in Rockwall County, Texas. This notice advises the public that Rockwall County and TxDOT will be conducting an in-person and an online virtual public meeting on the proposed project. **The same information will be available at both the in-person and virtual meetings.**

In-Person Meeting*
Thursday, November 9, 2023, 5:30 p.m. to 7:30 p.m.
Liberty Hall, Rockwall County Courthouse
1111 E Yellow Jacket Lane #401, Rockwall, Texas 75087
*Open House

Virtual Meeting**
Thursday, November 9, 2023, at 5:30 p.m.
to Friday, November 24, 2023, at 11:59 p.m.
https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2
**Not a live event

The in-person public meeting will begin at 5:30 p.m. and will be an open house format where the public may come and go at their convenience. Staff will be available to answer questions and receive written comments. The virtual meeting can be viewed beginning Thursday, November 9, 2023, starting at 5:30 p.m. through Friday, November 24, 2023, at 11:59 p.m. To access the virtual meeting page, go to https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2. The meeting will consist of a prerecorded video presentation that includes both audio and video components, along with other exhibits. The virtual public meeting is not a live event and the materials can be viewed at your convenience. If you do not have internet access, please call Matt Craig, P.E. at (214) 346-6200 between the hours of 8 a.m. and 5 p.m., Monday through Friday to ask questions and access project materials.

A feasibility study is being conducted for the approximately 14.4-mile, new location roadway from FM 2755 to SH 205 in Rockwall County, Texas. The study evaluated alternatives within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall through Rockwall County. The purpose of the meeting is to present the project alternative recommended for further study and receive public feedback. The ultimate proposed project configuration would consist of four lanes of frontage roads (two in each direction), four general purpose lanes (two in each direction), and two shared-use bicycle/pedestrian paths (one in each direction) within 500 feet of right-of-way. The project would be constructed in phases contingent on traffic volumes and available funding.

The in-person and virtual public meeting option will be conducted in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the in-person or virtual public meeting, please contact Matt Craig, P.E., at (214) 346-6200 no later than 4 p.m. CT, Monday, November 6, 2023. Please be aware that advance notice is required as some services and accommodations may require time to arrange.

Written comments from the public regarding the proposed project are requested and may be submitted by mail to Halff, Attn: Matt Craig, P.E., 1201 North Bowser Road, Richardson, TX 75081 or by email to RCOL@halff.com. Verbal comments may be submitted by calling (903) 218-7909. **All comments must be received or postmarked on or before Friday, November 24, 2023.** Responses to comments received will be available online at www.rockwallcountytexas.com/loop once they have been prepared.

If you have any general questions or concerns regarding the proposed project, virtual meeting, or in-person option, please contact Matt Craig, P.E., Consultant Project Manager at (214) 346-6200 or by email at RCOL@halff.com.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

Aviso de Reunión Pública

CIRCUITO EXTERIOR DEL CONDADO DE ROCKWALL
De la FM 2755 a la SH 205
CSJ: 0918-25-027
Condado de Rockwall, Texas

El Condado de Rockwall y el Departamento de Transporte de Texas (TxDOT, por sus siglas en inglés) están llevando a cabo un estudio de viabilidad para una carretera de ubicación nueva desde la Farm-to-Market (FM) 2755 hasta la carretera estatal (SH) 205 en el Condado de Rockwall, Texas. Este aviso informa al público que el Condado de Rockwall y TxDOT llevarán a cabo una reunión pública virtual en persona y en línea sobre el proyecto propuesto. **La misma información estará disponible tanto en la reunión presencial como en la virtual**.

Reunión Presencial*
Jueves, 9 de noviembre de 2023, de 5:30 p.m. a 7:30 p.m.
Liberty Hall, Corte del Condado de Rockwall
1111 E Yellow Jacket Lane #401, Rockwall, Texas 75087
*Casa Abierta

Reunión Virtual**
De jueves, 9 de noviembre de 2023, a las 5:30 p.m.
a viernes, 24 de noviembre de 2023, a las 11:59 p.m.
https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2
**No es un evento en vivo

La reunión pública presencial comenzará a las 5:30 p.m. y seguirá un formato de casa abierta donde el público puede ir y venir a su conveniencia. El personal estará disponible para responder preguntas y recibir comentarios por escrito. La reunión virtual se puede ver desde el jueves 9 de noviembre de 2023, a partir de las 5:30 p.m., hasta el viernes 24 de noviembre de 2023 a las 11:59 p.m. Para acceder a la página de la reunión virtual, vaya a https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2. La reunión consistirá en una presentación de video pregrabada que incluye componentes de audio y video, junto con otras exhibiciones. La reunión pública virtual no es un evento en vivo y los materiales se pueden ver a su conveniencia. Si no tiene acceso al internet, llame a Matt Craig, P.E. al (214) 346-6200 entre las 8 a.m. y las 5 p.m., de lunes a viernes para hacer preguntas y acceder los materiales del proyecto.

Se está llevando a cabo un estudio de viabilidad para una carretera de aproximadamente 14.4 millas de nueva ubicación desde la FM 2755 hasta la SH 205 en el Condado de Rockwall, Texas. El estudio evaluó alternativas dentro o cerca de las ciudades de Fate, Royse City, McLendon-Chisholm y Rockwall a través del Condado de Rockwall. El propósito de la reunión es presentar la alternativa del proyecto recomendada para estudio adicional y recibir comentarios del público. La configuración final propuesta para el proyecto consistiría de cuatro carriles de vías laterales de acceso (dos en cada dirección), cuatro carriles de uso general (dos en cada dirección) y dos caminos de uso compartido para ciclistas/ peatones (uno en cada dirección) dentro de los 500 pies del derecho de vía. El proyecto se construiría en fases que dependerían de los volúmenes de tráfico y la financiación disponible.

La reunión pública presencial y la opción virtual se llevará a cabo en inglés. Si necesita un intérprete o traductor de documentos porque el inglés no es su idioma principal o tiene dificultades para comunicarse eficazmente en inglés, se le proporcionará uno. Si tiene una discapacidad y necesita asistencia, se pueden hacer arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicios de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública presencial o virtual, comuníquese con Matt Craig, P.E., al (214) 346-6200 antes de las 4 p.m. horario central del lunes 6 de noviembre de 2023. Tenga en cuenta que se requiere notificación previa, ya que algunos servicios y adaptaciones pueden requerir tiempo para organizarse.

Se solicitan comentarios por escrito del público con respecto al proyecto propuesto. Estos pueden enviarse por correo a Halff, Attn: Matt Craig, P.E., 1201 North Bowser Road, Richardson, TX 75081 o por correo electrónico a RCOL@halff.com. Comentarios verbales pueden ser enviados llamando al (903) 218-7909. **Todos los comentarios deben recibirse o tener el sello postal antes del viernes 24 de noviembre de 2023.** Las respuestas a los comentarios recibidos estarán disponibles en línea en www.rockwallcountytexas.com/loop una vez que se hayan preparado.

Si tiene alguna pregunta o inquietud general con respecto al proyecto propuesto, la reunión virtual o la opción presencial, por favor comuníquese con Matt Craig, P.E., Gerente Consultor de Proyecto al (214) 346-6200 o por correo electrónico a RCOL@halff.com.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto, están siendo o han sido realizadas por TxDOT de conformidad con la Reglamentación 23, Sección 327 del Código de Estados Unidos y un Memorando de Entendimiento con fecha del 9 de diciembre de 2019, ejecutado por la FHWA (Administración Federal de Carreteras) y TxDOT.

OPEN HOUSE PUBLIC MEETING

Rockwall County Outer Loop Public Meeting

Rockwall County Outer Loop from FM 2755 to SH 205

CSJ: 0918-25-027

IN-PERSON PUBLIC MEETING

When

Thursday, November 9, 2023

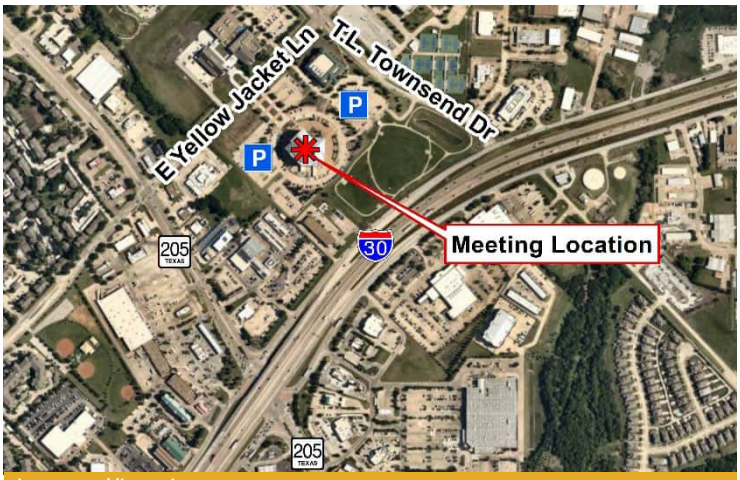

5:30 - 7:30 p.m. (Open House)

Where

Liberty Hall, Rockwall County Courthouse

1111 East Yellow Jacket Lane #401

Rockwall, Texas 75087

In-person public meeting venue

DIRECTIONS FROM WEST

- Head east on IH 30, take exit 68 for SH 205 toward Rockwall.
- Turn left on SH 205/ South Goliad Street.
- Turn right onto East Yellow Jacket Lane.
- Turn right into Rockwall County Courthouse.

DIRECTIONS FROM EAST

- Head west on IH 30, take exit 68 for SH 205 toward Rockwall.
- Turn right onto T.L. Townsend Drive.
- Turn left onto East Yellow Jacket Lane.
- Turn left into Rockwall County Courthouse.

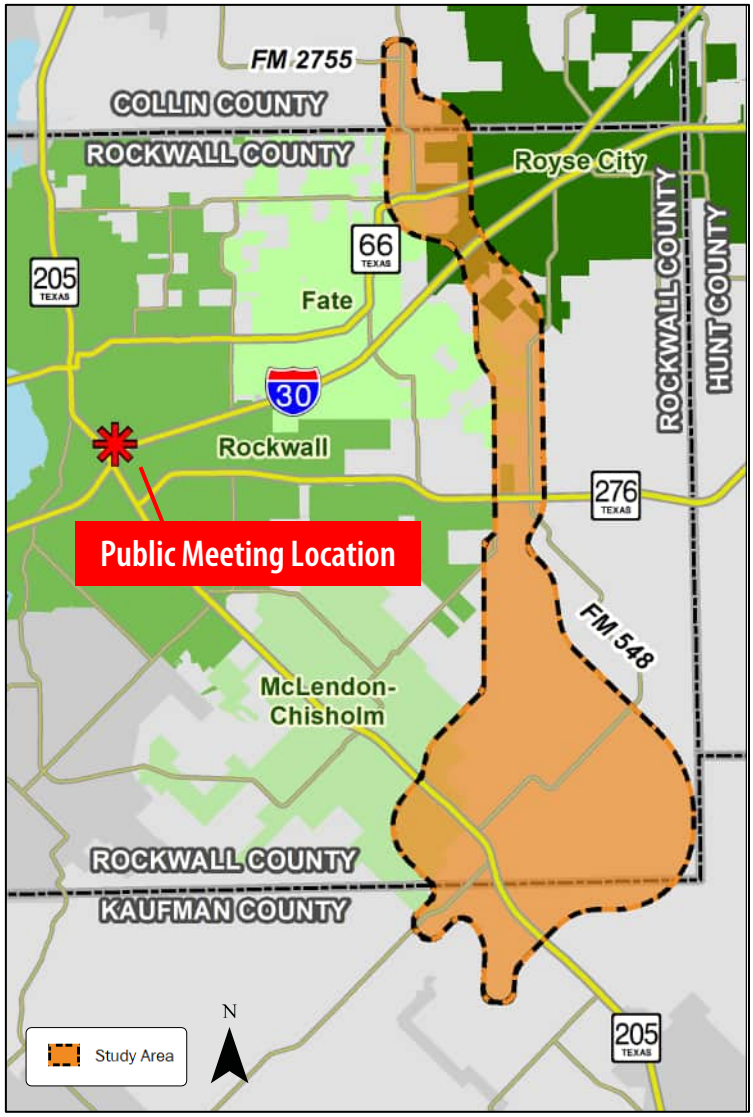

VIRTUAL PUBLIC MEETING*

*Not a live event

Scan the QR code or visit https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2 to access the virtual public meeting.

The virtual public meeting will be available Thursday, Nov. 9 at 5:30 p.m. to Friday, Nov. 24 at 11:59 p.m.

Meeting materials at the in-person and virtual public meeting will be identical.

Dear «SALUTATION»«LAST_NAME»:

Rockwall County and the Texas Department of Transportation (TxDOT) are conducting a public meeting with both in-person and virtual options for the Rockwall County Outer Loop Project. A feasibility study is being conducted for the approximately 14.4-mile, new location roadway from FM 2755 to SH 205 in Rockwall County, Texas. The study evaluated alternatives within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall through Rockwall County. The purpose of the meeting is to present the project alternative recommended for further study and receive public feedback.

The in-person public meeting will be held on **Thursday, November 9, 2023,** from **5:30 p.m.** to **7:30 p.m.** at the Rockwall County Courthouse Liberty Hall, 1111 E Yellow Jacket Lane #401, Rockwall, Texas 75087. The virtual public meeting will begin on **Thursday, November 9, 2023,** at **5:30 p.m.** and remain online through **Friday, November 24, 2023**, at **11:59 p.m.** at: https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2**.** The virtual public meeting is not a live event. The same information will be available at both the in-person and virtual public meetings.

For your convenience, a copy of the public meeting notice and public meeting venue map are enclosed.

You and your staff are invited to visit the in-person and/or virtual public meeting at your convenience. If you would like additional information regarding the study, please feel free to contact me directly.

Sincerely,

Matt Craig, P.E.

Texas Department of Transportation

YOU'RE INVITED!

Rockwall County Outer Loop

In-Person Public Meeting with a Virtual Option

Rockwall County and TxDOT are conducting a feasibility study for a new location roadway from FM 2755 to SH 205 in Rockwall County, Texas. Alternatives were evaluated within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall. The purpose of the meeting is to present the project alternative recommended for further study and receive public feedback.

The same information will be available at both the virtual and in-person meetings.

In-Person Meeting
Thursday, Nov. 9, 2023
5:30 p.m. to 7:30 p.m.
Liberty Hall, Rockwall County Courthouse
1111 E Yellow Jacket Lane #401
Rockwall, Texas 75087

Virtual Meeting
Thursday, Nov. 9, 2023, at 5:30 p.m.
to Friday, Nov. 24, 2023, at 11:59 p.m.
https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2

Comments

Please submit comments to Consultant Project Manager, Matt Craig, P.E. by **Friday Nov. 24, 2023**.

Questions

If you have any general questions regarding the proposed project, in-person meeting, or virtual option, please contact:

Matt Craig, P.E.
Consultant Project Manager
(214) 346-6200
RCOL@halff.com

The environmental review, consultation and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated Dec. 9, 2019, and executed by FHWA and TxDOT.

Texas Department of Transportation

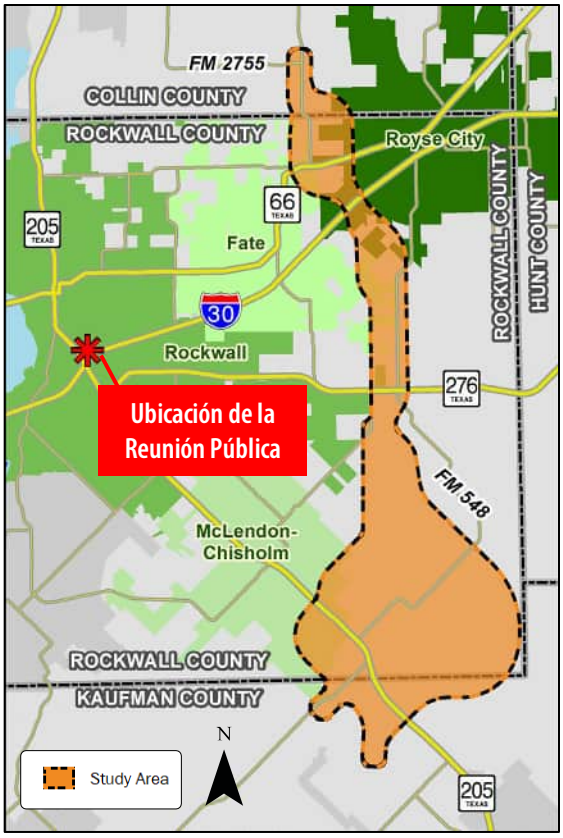

¡ESTÁ INVITADO!

Circuito Exterior del Condado de Rockwall

Reunión Pública Presencial con Opción Virtual

El Condado de Rockwall y TxDOT están llevando a cabo un estudio de viabilidad para una carretera de ubicación nueva desde la FM 2755 hasta la SH 205 en el Condado de Rockwall, Texas. Las alternativas fueron evaluadas dentro o cerca de las ciudades de Fate, Royse City, McLendon-Chisholm y Rockwall. El propósito de la reunión es presentar la alternativa del proyecto recomendada para estudio adicional y recibir comentarios del público.

La misma información estará disponible tanto en la reunión virtual como en la presencial.

Reunión Presencial

jueves, 9 de noviembre de 2023

Omni Hotels & Resorts

The Omni Pontoque Resort at Punta de Mita in Mexico is set to open in summer 2026.

Omni sets sights on Mexico

Hotel company plans Pacific Ocean resort near Puerto Vallarta

By PAUL O'DONNELL
Staff Writer

Dallas-based Omni Hotels & Resorts is investing $225 million into building its first owned and operated resort in Mexico, selecting a high-end destination on the Pacific Ocean north of Puerto Vallarta.

The luxury hotel chain said the beachfront Omni Pontoque Resort at Punta de Mita is scheduled to open in summer 2026 with 244 guest rooms and suites, along with two four-bedroom villas with ocean views.

Kurt Alexander, president of Omni Hotels & Resorts, said the company has owned the land since about 2006 or 2007. It put its plans for the property on hold during the 2008-2009 financial crisis, developed hotels in the continental U.S. during the 2010s, made a large acquisition of six resorts in 2013 and most recently opened a $520 million resort at the PGA of America headquarters in Frisco.

Punta de Mita, about an hour north of Puerto Vallarta in a remote region of Mexico, has seen a wave of investments triggered in 2014 by Bill Gates' private investment firm's purchase of 48 acres of land and a Four Seasons Hotel for $200 million. Other wealthy investors from the United States, Canada and Mexico followed suit. St. Regis, W and Iberostar are among the competing resorts there.

The closest major airport is in Puerto Vallarta, which received Mexico's fourth-highest number of international visitors — 1.47 million — from January through November 2022, according to Mexico tourism data. It trailed only Cancun (8.56 million), Mexico City (3.8 million) and Los Cabos (1.94 million).

Alexander said flights to Puerto Vallarta continue to grow in popularity. Fort Worth-based American Airlines flies there directly. Dallas-based Southwest Airlines' flights connect first in Houston or Phoenix. All major airlines have loaded up their winter flight schedules with Mexico destinations.

Punta de Mita joins an already full development pipeline for the company. It's building a 20-story, 800-room convention center hotel in Fort Lauderdale that Alexander said is reminiscent of what the company built in downtown Dallas.

It also just won a contract for a 550-room convention center hotel in Raleigh, N.C.; plans to expand its Fort Worth hotel from 600 rooms to 1,000; opened a new hotel on the campus of Arizona State University in Tempe, and finished substantial renovations of its Tucson National property and the Omni Homestead in Hot Springs, Va. Homestead is "affectionately known as America's first resort," opening its doors in 1766, Alexander said.

Alexander said he thinks the hotel industry's post-pandemic recovery is here to stay, with leisure and group bookings fully back. The only weakness for most brands is the road warrior business traveler, a segment that still hasn't fully recovered, he added.

"So the comeback is, we know it's real," he said. "It's going to be nearly four years since COVID happened. This is our new normal."

DIVERSIÓN

ALEXANDER TAMARGO/GETTY IMAGES

Luis Miguel inició en agosto una gira de 11 meses que lo llevará a vartios países de América y Europa.

El regreso de Luis Miguel

AL DÍA

Luis Miguel estará este fin de semana en Dallas en la primera de dos fechas anunciadas en la ciudad como parte de su gira de regreso a los escenarios que recorrerá decenas de ciudades a lo largo de 11 meses.

El Sol de México pasará dos veces por el Norte de Texas en su esperada gira de regreso, el Tour 2023, ahora extendido hasta 2024, que inició en Buenos Aires el 3 de agosto y que se extenderá hasta el 14 de junio del siguiente año.

Luego de agotarse las entradas para sus 65 conciertos anunciados para 2023, Luis Miguel anunció en agosto que continuará su gira mundial durante el siguiente año. Recorrerá 50 ciudades más, entre Latinoamérica, Estados Unidos, Canadá y Europa.

El cantante se presenta este domingo 29 de octubre de 2023, desde las 8 p.m. en el American Airlines Center de Dallas, recinto al que regresará el miércoles 8 de mayo de 2024.

La venta de boletos se realiza a través de Ticketmaster.com.

Cuando El Sol de México anunció en febrero su gira de regreso a los escenarios, provocó que la página para venta de entradas colapse en varias ocasiones. Ese éxito provocó que decidieran organizar 50 nuevas funciones para el año entrante.

Luis Miguel se presentará en otras ciudades de Texas, como Austin, Hidalgo, Houston y San Antonio.

El anuncio de las fechas y los lugares donde se presentará coincidió con el cumpleaños 53 de Luismi, quien regresa a los escenarios de donde se ha mantenido alejado desde 2019, cuando hizo una breve temporada en Estados Unidos bajo el nombre de '¡México por siempre!'.

A pesar de estar alejado de las presentaciones y no haber estrenado material, el Sol ha estado presente en los principales medios con noticias sobre sus relaciones amorosas, como la que sostiene actualmente con la empresaria Paloma Cuevas, además de la exitosa serie de Netflix sobre su vida.

Récord de ventas

En poco más de 40 años de carrera, Luis Miguel se ha mantenido como una de las estrellas pop más grandes de América Latina y eso se refleja en la cantidad de conciertos que ha dado.

Desde 1991, el cantante de 53 años habría ofrecido cerca de 570 shows y reunido a más de 4.3 millones de personas, según una publicación Billboard. De esa manera, el Sol, quien ganó su primer Grammy en 1985, cuando tenía 14 años, sería el artista mexicano más exitoso de la historia.

El informe del semanario establece su conteo a partir del 1 de noviembre de 1991, una década después de que Luismi irrumpiera en la escena. Para entonces, el cantante ya tenía 21 años y había editado algunos de sus discos más importantes, como *Busca una mujer*.

Luis Miguel estuvo 15 veces en el puesto 1 de la lista Hot Latin Songs de Billboard con éxitos como "Ahora te puedes marchar", "Tengo todo excepto a ti" y "La media vuelta".

JASON KOERNER/GETTY IMAGES

El puertorriqueño Bad Bunny estará el 3 y 4 de mayo de 2024 en el American Airlines Center de Dallas.

Bad Bunny tendrá dos fechas en Dallas

AGENCIA REFORMA

Apenas unos días después de lanzar su más reciente álbum, *Nadie sabe lo que va a pasar mañana*, Bad Bunny dio a conocer las fechas programadas para la gira Most Wanted Tour, que incluye dos presentaciones en el Norte de Texas.

Con un enfoque en brindar a sus seguidores una experiencia única, el boricua reveló detalles intrigantes sobre su próxima gira. Bad Bunny compartió un video en Instagram donde daba a conocer esta gira de tres meses, con casi 50 conciertos en diversas ciudades de Estados Unidos –y una fecha en Toronto, Canadá.

El póster promocional de la gira destaca las expectativas de los verdaderos fanáticos, con un mensaje claro: "Solo Trap". En la imagen, se ve a un joven Bad Bunny cuando empezaba como estrella del trap, y bajo la imagen, una leyenda en referencia a su más reciente disco: "Nadie sabe lo va a pasar mañana. No lo dejes escapar, porque quizás no lo vuelvas a ver".

La gira, producida por Live Nation y el sello de Bad Bunny, Rimas, dará inicio el 21 de febrero en el Delta Center de Utah y se cierra el 26 de mayo en Miami, aunque en el póster dice que habrá más fechas. El artista tiene dos presentaciones programadas para el American Airlines Center, el viernes 3 y el sábado 4 de mayo de 2024 en Dallas, más otras cuatro fechas en Texas, dos en Austin y otras dos en Houston.

Los fans que quieran adquirir sus boletos deben registrarse en el sitio web oficial de la gira, mostwantedtour.com, a través de Live Nation, o directamente en Ticketmaster. El objetivo del prerregistro, según dice la página web, es para contrarrestar la presencia de bots y revendedores, y busca garantizar que los boletos lleguen a manos de "personas reales que deseen asistir al espectáculo".

Algunos interesados serán seleccionados aleatoriamente para obtener acceso, mientras que otros quedarán en una lista de espera.

GANE DINERO EXTRA
REPARTIENDO PERIÓDICOS EN SU ÁREA

Hay oportunidades comerciales para que los contratistas independientes distribuyan periódicos en todas las áreas de D-FW. Puede ganar sueldos entre **$300-$400/semana**. Los sueldos del contratista se pagan cada dos semanas. Entregue periódicos entre la 1:00 a.m. y las 6:00 a.m. (de lunes a sábado); también entre las 2:00 a.m. y las 8:00 a.m. (domingo). No realizará transacciones monetarias.

REQUISITOS:
- Debe tener 18 años o más.
- Debe tener una licencia de conducir válida, un vehículo confiable y presentar evidencia de seguro de automóvil.
- Debe estar autorizados legalmente de trabajar en los EEUU.
- Trabajar por las madrugadas, siete días por semana.

REQUERIMIENTOS:
- Cargar periódicos en el vehículo.
- Manejar su automóvil personal por las calles urbanas y los caminos rurales.
- Entregar periódicos a hogares residenciales o lugares de negocios.
- Trabajar dentro de los plazos establecidos.

HEALTH & WELLNESS

Low-cost ultrasound breast screening set

HERALD-BANNER STAFF REPORT

Women in the Rockwall County area who want to add an extra ounce of prevention in their breast health regimen will soon have an opportunity to receive ultrasound screenings at about 26% of the typical cost.

Mobile breast ultrasound screening company HerScan will be in Fate on Nov. 7 from 7:30 a.m. to 3:10 p.m. at The Road to Nutrition at 911 W. Holiday Ave.

HerScan encourages the use of ultrasound in addition to standard mammography and physical exams, as it is relatively fast, affordable, convenient, pain free, implant safe, there's no prescription required and radiation isn't involved.

Those who would like to have the screening will need to schedule an appointment through www.HerScan.com or call (800) 338-7499. The fee for the screening is $285.

IN THE SERVICE

Tribute slated for soldiers who died in Korean war

HERALD-BANNER STAFF REPORT

Chronologically between World War II and the Vietnam War, Korea is sometimes referred to as the "Forgotten War."

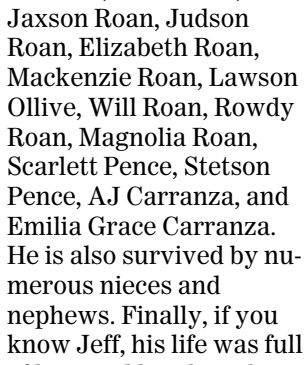

On Nov. 6, American Legion Post 100 of Royse City plans to not only remember the Forgotten War, but also honor the 1,779 Texans who died in the war while serving in the U.S. military by reading out their names at a special program at Trinity Baptist Church in Royse City.

In addition to having more than 50 participants taking turns reading the names, the program will also feature the Royse City High School choir and United in Harmony singing the national anthem, as well as a presentation about prisoners of war and those missing in action, and a playing of Taps.

Those who would like to volunteer to read some of the names of the fallen will need to register online at https://tinyurl.com/4xh2ubum.

OBITUARIES

Roy Jefferson Potter

Roy Jefferson "Jeff" Potter, 86, passed away on October 19, 2023, surrounded by family in Greenville, Texas.

Jeff was born on December 18, 1936, in Springfield, Illinois, to Richard and Grovene Potter. Jeff followed in his father's footstep selling air conditioning equipment in the family-owned business. It was in Springfield where he met the love of his life, Judy "Gertrude" Keeley whom he married in 1961. They had 3 beautiful baby girls but had to move to Texas to have their lone baby boy.

Jeff moved his wife and 3 girls from Springfield to Dallas, Texas where business was "booming." It was in Dallas that his only son was born. The family finally settled on Potter's Acres in Rockwall County, Texas where he lived for over 45 years.

Jeff was completely devoted to God and his family. Jeff served faithfully at Our Lady of the Lake Catholic Church as a Eucharistic Minister and Usher. He graciously hosted many a church picnic on Potter's Acres, complete with horseshoe pits, volleyball courts and softball fields...and MUD SLIDE!

His main passion was coaching multiple teams at once, be it baseball, softball, volleyball or soccer. While his days may have been spent in the office, his evenings were spent on the baseball diamond, soccer field or riding on the team bus to a Yellowjacket volleyball match.

His family always came first. Jeff also enjoyed living on his 13 acres gardening or raising animals of all kinds, thanks to the "free labor," aka his 4 kids. He also enjoyed art even taking up pottery as a hobby in his later years. He especially enjoyed seeing any Dale Chihuly exhibit he could.

He certainly led a full and complete life.

Jeff was preceded in death by his parents, Richard Moore Potter and Grovene McClellan Potter, and his wife of 24 years, Judith Keeley Potter.

He is survived by his sister, Margaret Peggy Harding, and his 4 children, Keeley Ann Roan and her husband, Bert, Kimberly Sue Nation and her husband, Vance, Kathleen Jo Austin and her husband, Glenn, and Richard Michael Potter and his wife, Nelda. Known as "Papa", he is survived by his 9 grandchildren, Cole Roan and his wife, Jacy, Jake Roan and his wife, Ashley, Ethan Roan and his wife, Megan, Joe Roan and his wife, Megan, Shelbi Nation and her wife, Ashley, Sidney Nation Prigge and her husband Kevin, Allee Pence, Sydnie Austin, and Aaron Carranza and his wife Calista; 13 great-grandchildren, Case Roan, Jaxson Roan, Judson Roan, Elizabeth Roan, Mackenzie Roan, Lawson Ollive, Will Roan, Rowdy Roan, Magnolia Roan, Scarlett Pence, Stetson Pence, AJ Carranza, and Emilia Grace Carranza. He is also survived by numerous nieces and nephews. Finally, if you know Jeff, his life was full of love and laughter, but in the end, he finally gave us "something to cry about"! Dad, you will be missed!

A Celebration of Life will be held at 1:00pm on Saturday, November 25, 2023 in Reflections at Rest Haven Funeral Home; 2500 State Highway 66, Rockwall, Texas 75087.

CALENDAR

OFFICER

From Page A1

The former officer was initially arrested on Nov. 4, 2022 by Royse City police on a charge of indecency with a child by sexual contact, according to a statement by Caddo Mills Police Chief Kimbre Colliers.

Jimenez had been with Caddo Mills PD since Sept. 21, 2021 but resigned following his arrest. He was listed as one of two of the department's student resource officers.

Indecency with a child by sexual contact is a second-degree felony and Jimenez could have faced up to 20 years in prison.

ON THE BALLOT

Proposition 9 seeks to increase retired teacher benefits

BY ALI LINAN
CNHI TEXAS STATEHOUSE REPORTER

AUSTIN — Lana Archer spent 32 years in a Texas classroom teaching elementary and high school students in Mesquite until she retired in 2001.

The youngest of eight, she said she went into teaching because she enjoyed being around kids from an early age when she grew up among her nieces and nephews.

"I still get kind of goosebumps when you think about some of the things about teaching, when you just see a light go off and a kid says, 'Oh, now I get it,'" Archer recalled. "I don't know it was, I just loved it."

Archer is one of about 425,000 retired Texas school employees who are set to receive their first retirement cost-of-living adjustment in a decade, should voters approve the measure on the November ballot.

Proposition 9 is one of 14 amendments Texas voters will see on the ballot this November. It will offer qualifying Teacher Retirement System of Texas retirees — including educators, bus drivers, aides and others — a one-time 2%, 4% or 6% COLA based on the year they retired. If approved by voters, it will take effect in January.

Texas teachers have not received a COLA since 2013, and even then only teachers who retired prior to Sept. 1, 2004, qualified to receive it. In that time, inflation has increased by 41.41%, according to the U.S. Bureau of Labor Statistics. This means that services that cost $20 in 2013 now cost about $28.28 in 2023 for an equivalent purchase. The teachers who retired just after the 2004 cutoff, have not received an adjustment in 20 years, as prices have risen by more than 60%.

Archer said for her, the 6% increase will allow her to pay off piling medical bills, as well as help her maintain the home she has lived in for more than 44 years.

"If this doesn't pass, I don't know where retired teachers are going to be," she added.

Texas lawmakers already dedicated $3.3 billion in its recent budget to fund the bill, which means it will not require any tax increases, said state Rep. Greg Bonnen, a Friendswood Republican and author of the bill. In addition, the bill passed with unanimous support in both chambers.

Texas lawmakers were able to dedicate the money to retirees, as well as a separate one-time check totaling $1.6 billion to teachers, often referred to as a 13th check, due to the $33 billion surplus the state had at the start of the start of the legislative session.

"We are paying for the cost of this entirely upfront, so it doesn't involve raising taxes in any way, and it doesn't involve creating any further or future liability for the taxpayer," Bonnen said, adding that the adjustment also does not compromise the actuarial soundness of the pension, because it is paid for in full.

Tim Lee, executive director of the Texas Retired Teachers Association, said the extra funding is especially welcome as TRS beneficiaries do not receive any or limited Social Security benefits. This is because there is a federal provision that disallows TRS employees, who have a second job or have paid into Social security to receive their full benefit payout, as TRS is deemed a Social Security replacement program.

Lee said as Texas becomes the leading state of teachers working second and third jobs, it is especially important to signal to educators that Texas wants good teachers to stay in this profession and ultimately retire, by providing improved benefits.

Without the Social Security supplement, TRS beneficiaries really rely on the Texas Legislature for their retirements, he added.

"I truly believe, having been all over the state of Texas now, that our Texas citizens do not think it is good public policy to have our retired school employees work in the schools for years and years to only retire and live in many cases on the poverty line," Lee said. "(Prop 9) is a big, big step in the right direction."

AT THE FUNFEST

Courtesy of Caddo Hot Shots

Caddo Hot Shots, a girls' volleyball club from Caddo Mills, had a booth at the Royse City FunFest where they worked at raising funds by selling crafts, face painting and raffling items.

IN THE COMMUNITY

Tribute set to soldiers who died in Korean war

HERALD-BANNER STAFF REPORT

Chronologically between World War II and the Vietnam War, Korea is sometimes referred to as the "Forgotten War."

On Nov. 6, American Legion Post 100 of Royse City plans to not only remember the Forgotten War, but also honor the 1,779 Texans who died in the war while serving in the U.S. military by reading out their names at a special program at Trinity Baptist Church in Royse City.

In addition to having more than 50 participants taking turns reading the names, the program will also feature the Royse City High School choir and United in Harmony singing the national anthem, as well as a presentation about prisoners of war and those missing in action, and a playing of Taps.

Those who would like to volunteer to read some of the names of the fallen will need to register online at https://tinyurl.com/4xh2ubum.

The program will be livestreamed on Facebook by NorthEast Texas Events.

The environmental review, consultation and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated Dec. 9, 2019, and executed by FHWA and TxDOT.

WORTHY

From Page A1

brings opportunities to positively impact those around you. I want to thank you for firmly grasping that opportunity year after year to benefit your peers and our students."

Recent recognitions of Worthy's years of service include being named TEA Region 10's Superintendent of the Year for 2023 as well as Friends of Texas Public Schools' Ambassador of the Year in 2023. It was also announced this past summer that the district intends to name its future second high school Kevin Worthy Fate High School in his honor.

The district plans to hold a retirement reception for Worthy on Dec. 4 at the Royse City College & Career Academy from 5 p.m. to 7 p.m.

OFFICER

From Page A1

the Rockwall County jail last Thursday after learning his sentence. He will be transferred to the Texas Department of Criminal Justice.

The former officer was initially arrested on Nov. 4, 2022 by Royse City police on a charge of indecency with a child by sexual contact, according to a statement by Caddo Mills Police Chief Kimbre Colliers.

Jimenez had been with Caddo Mills PD since Sept. 21, 2021 but resigned following his arrest. He was listed as one of two of the department's student resource officers.

Indecency with a child by sexual contact is a second-degree felony and Jimenez could have faced up to 20 years in prison.

TRANSIT

area. Free rides will also be available across the entire service area on Election Day on Nov. 7.

All STAR Transit services are available, including demand response, fixed routes and STARNow.

To ride free on STARNow, use the code Vote2023. Rides must be in the STAR Transit service area or STARNow zone and are subject to availability. Voters must tell bus operators and reservationists they are riding to and from the polls.

To schedule a free ride to vote, call STAR Transit no less than 30 minutes in advance of the desired trip.

Scheduling agents are available during normal business hours from 8 a.m. to 4 p.m. Monday through Friday at (877) 631-5278. To book a STARNow ride, use the STARNow app, which can be downloaded free from the Apple App Store or Google Play Store. Se habla español.

Election Day polling locations in Rockwall County can be found at www.rockwallvotes.com.

Virtual public meeting with in-person option

Virtual: Thursday, Nov. 9, 2023, at 5:30 p.m. to Friday, Nov. 24, 2023, at 11:59 p.m., CT

In-person: Thursday, Nov. 9, 2023, 5:30 p.m. to 7:30 p.m., CT

Public comment deadline	All comments must be received before Friday, Nov. 24, 2023.
Virtual details	The virtual meeting can be viewed beginning Thursday, Nov. 9, 2023, starting at 5:30 p.m. through Friday, Nov. 24, 2023, at 11:59 p.m. To access the virtual meeting page, go to the virtual meeting page. The meeting will consist of a prerecorded video presentation that includes both audio and video components, along with other exhibits. The virtual public meeting is not a live event and the materials can be viewed at your convenience. If you do not have internet access, please call Matt Craig, P.E. at 214-346-6200 between the hours of 8 a.m. and 5 p.m., Monday through Friday to ask questions and access project materials.
In-person details	Thursday, Nov. 9, 2023 5:30 to 7:30 p.m. Liberty Hall, Rockwall County Courthouse 1111 E Yellow Jacket Lane #401 Rockwall, Texas 75087 The meeting will be an open house format where the public may come and go at their convenience.
Purpose	Rockwall County and TxDOT are conducting a feasibility study for a new location roadway from FM 2755 to SH 205 in Rockwall County, Texas.
Description	A feasibility study is being conducted for the approximately 14.4-mile, new location roadway from FM 2755 to SH 205 in Rockwall County, Texas. The study evaluated alternatives within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall through Rockwall County. The purpose of the meeting is to present the project alternative recommended for further study and receive public feedback. The ultimate proposed project configuration would consist of four lanes of frontage roads (two in each direction), four general purpose lanes (two in each direction), and two shared-use bicycle/pedestrian paths (one in each direction) within 500 feet of right-of-way. The project would be constructed in phases contingent on traffic volumes and available funding.
Accessibility	The in-person and virtual public meeting option will be conducted in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the in-person or virtual public meeting, please contact the consultant project manager at 214-346-6200 no later than 4 p.m. CT, Monday, Nov. 6, 2023. Please be aware that advance notice is required as some services and accommodations may require time to arrange.
Meeting materials	• Notice • Notice (Español) • Display advertisement • Display advertisement (Español)
How to make a comment	Comments from the public regarding the proposed project are requested and may be submitted by: • Online • Mail: Halff Attn: Matt Craig, P.E. 1201 North Bowser Road Richardson, TX 75081 • Email • Verbal comments: by calling 903-218-7909 All comments must be received before or postmarked by Friday, Nov. 24, 2023. Responses to comments received will be available online once they have been prepared. If you have any general questions or concerns regarding the proposed project, virtual meeting, or in-person option, please contact the consultant project manager at 214-346-6200 or by email..
Memorandum of Understanding	The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

Q1

COMMENTS:COMENTARIOS:

Traffic is already terrible and the county doesn't have the infrastructure or the capacity to deal with the problem as it stands today. This will likely lower property values and increase traffic leaving the county in worse shape than it is. I vote NO…

Q1

COMMENTS:COMENTARIOS:

There is no reason for this to split/divide 5 neighborhoods with home a million dollars and up. It should go all the way out to Greenville and be a much larger loop. This serves no benefit at all to the citizens of Rockwall County. It certainly doesn't help any of us get to Dallas or Fort Worth quicker. The fact it is simply a toll road by pass from I35 north to I30 east. It will lead to more high density development of homes and commercial in an already overcrowded county. Where the 6 lane HWY 205?we were told would be done by 2019/20. Rockwall County had a huge bond approved a few years ago that promised to redo/widen all our FM roads. They haven't even started that. This is a bait and switch. Finish or start what you promised before you even think of building this. Learn from the miscues of Forney, Garland, Mesquite. All over populated and now run down with crime and poor infrastructure and high taxes. This road solves nothing. When are you gonna be honest and tell folks it's a "toll road".

Subject: Voice Mail (1 minute and 32 seconds)

Matt, my name is Linda Ainsworth. I live at 413 E Linda Lane in Royse City. I wanna talk to you about this highway that's coming through that I've just found out about. It looks like it's going to come right through several acres of my property and I sure would like to talk to someone to see what's going on. Could you please give me a call back at 469-323-6071? Thank you very much. Celebrating 3rd Celebrating for you.

You received a voice mail from AINSWORTH LINDA.

Thank you for using Transcription! If you don't see a transcript above, it's because the audio quality was not clear enough to transcribe.

Q1

COMMENTS:COMENTARIOS:

My home and business is located on Roll 3 of 5, of the new path options. The previous options showed the roadway well behind us, now it looks to take almost half of our ag pasture and comes unacceptably close to our pond and the our neighbor's (Gary Edge) home! This section seems to run very straight. Can this be angled maybe one or two degrees more toward the west starting from the Munson road interchange running north, to push it closer to the antenna tower and create as much distance as possible on the eastern edge? This may help save our pond and provide as much distance as possible for the Edge residence as well. There's a triangle piece of land that we will be separated from if the road development proceeds in this configuration on the west side. Reducing that triangle on west side of roadway in favor of more area on east side of roadway is 100% our preference.

This of course assumes the cell tower isn't/can't be moved or relocated. If that is an option, we would be willing to trade or negotiate in an effort to retain as much property east of the road's final pathway.

Q1

COMMENTS:COMENTARIOS:

Please do not build the outer loop close to our neighborhoods. We enjoy the small streets filled with our kids laughter. Our neighborhood does not benefit from this nor does Rockwall County. We moved here for the quietness and the low crime rate being outside the city.

Q1

COMMENTS:COMENTARIOS:

I am strongly against the outer loop. It will destroy what little country Rockwall County still has left. Also, I fear for road related accidents with speed intersecting smaller roads in places and overall traffic volume increases.

Q1

COMMENTS:COMENTARIOS:

This is not wanted in this area, where so many landowners moved outside of city limits to escape highways and noise. This would be better suited to route through Hunt and Kaufman counties which are growing and need more connection. This will only funnel more traffic onto I-30.

Q1

COMMENTS:COMENTARIOS:

Inducing demand isn't solving the problem that's being made up. If you need more capacity, just expand 548 to two lanes.

Q1

COMMENTS:COMENTARIOS:

Myself and many neighbors in High Point Lake Estates are extremely worried about the noise, light (from headlights at night), and exhaust pollution that will be created by the amount of traffic of the nearby outerloop. I specifically bought this property because I have witnessed the severity of the noise of nearby traffic when originally looking for property. Large semi-trucks and freight hauling produce significant amounts of noise, not to mention the impact to the clean air that will now be compromised. This will not only create an impact to quality of life, but also health, and reduce the value of the property. Whatever the solution is for routing the outer loop, there must at a minimum, be a substantial physical barrier put in place to block light, sound, and if possible, exhaust pollution. Large long berms of at least 15 feet in height with trees to help block road noise and headlights at night must be in place if the loop must be anywhere near the neighborhood. is Additionally, something needs to be put in place to ensure that the neighborhood must not have an obstructed access to the city of rockwall. The majority of the community commutes multiple times per day via 205, and having to either dodget traffic, or enter the outerloop and perform U-Turns is unacceptable. Everyone that I know communtes primarily to Rockwall, so the outer loop will further create even more heavy traffic for people exiting the loop and take 205 to enter Rockwall. The Outerloop being ran to Royse City does not benefit Rockwall citizens at all, but primarily creates significant problems for those who live and commute within Rockwall County. Since the outerloop provides no benefit to the county of Rockwall, it should extend outside of the county instead of going through the county. Rockwall county roads are already severely congested, frustrating, and unusable due to Rockwall County's unwillingness to widen roads and increase intersection flow capacity near I-30, so this will only create more burdens for those living south of Rockwall. Therefore, before any outer-loop solutions are considered, Rockwall roadway infrastructure needs to be addressed first.

To: Rockwall County Outer Loop
Subject: RCOL Matt Craig

Matt Craig, my name is Michael Bauman. I live at 4070 Wincrest in High Point Lake Estates. The proposed route for the new outer look running adjacent to our community is not something I want to see. We have lived her for 13 years and understand growth is coming to our rural community. However, the alternative route moving the alignment away High Point Lakes Estate would be a much better choice effecting far fewer residents. Please take this as our vote to move the alignment as far possible from our quiet community.

Thanks for taking time to read this message.

Michael and Sally Bauman

Q1

COMMENTS:COMENTARIOS:

The placement of this loop could greatly affect communities that have chosen to live out in the country. We live in high point lake estates and would vote that it does not affect the peace and quiet of our neighborhood that we so enjoy, country living is the best!! . Please please take that into consideration as we do not wish to live near the noise that a large highway could create.

Q1

COMMENTS:COMENTARIOS:

This project will significantly impact my immediate community and neighborhood in a profound and negative way. The propose Corridor will bat up immediately next to multiple neighborhoods that never anticipated such a freeway system would be built when we bought our homes. Our Our neighborhood was established on the basis of being away from large city developments with 1-3 acre lots. This freeway towering over it as it butts up to properties will have a much greater economic impact than if we were a high density neighborhood.

There are plenty of options for routing this through areas which do not have the development established.

Subject: Rockwalll Outer Loop

Good afternoon,

I wish to express my concern about the Rockwall Outer Loop near High Point Ranch. This will cause:
1. Extreme noise congestion
2. Crime
3. Pollution
4. Ruining the integrity of where we live.

Please reconsider an alternative plan instead of being placed near 548.

Sincerely,

Amy Blumharrdt

Opposed to the noise that being only ½ mile away will bring. Need to provide barriers to housing developments that close.

Q1

COMMENTS:COMENTARIOS:

The Outer Loop will have adverse effects on neighboring homes in the form of noise and air pollution, increase in crime as a result of easy access with highway, increase in traffic as a result of on ramps and exits right at entry to High Point Lake Estates and ruining the aesthetic of the countryside.

The location of this project in connection to Waterscape in Royse City does not settle well for our community. Our community is built in a rural area with minimal traffic/noise. Placing this highway system within 1500ft of our entrance will create a lot of extra noise and an exit point from the highway directly into our neighborhood.
Additionally having 548 change from 4 lanes into 2 lanes immediately in front of waterscape will further increase the traffic issues. That decrease in lanes should take place after making that final sharp turn while traveling south on 548 → 32.93159°N, 96.33957°W

Q1

COMMENTS:COMENTARIOS:

I am not in support of this outer loop. It will ruin the aesthetic beauty of the lake and the timeline for construction will cause way too much issues. It will adversely affect the county economy and cause economic hardships for the local businesses.

Q1

COMMENTS:COMENTARIOS:

We do not need the outer loop in Rockwall. We need to complete 205 first to help elevate any traffic congestion now before any other projects are even considered. When the loop was first thought of there were less homes in the area. Now we have several subdivisions that would be impacted by this project. The whole reason we moved out to Rockwall was for the country feel. Stop putting businesses first and think of those who live here. Especially those who vote.

Yeah, Matt, this John Burnett. I live at 256 Howell Rd. In Royal City and I see that you I have your number as a contact for that outer loop. And I'm just trying to question is there more clear amount because I'm when I look at it, I can't tell if it's going to be on my street. I mean where it's going to come at, it's not real clear. So I don't know if it's gonna miss me or hit me. So just wondering if there's any way I could, you know, get more clarity on that, if you could give me a call at 214-808-9930 and I sure appreciate it. Thank you. Bye.

You received a voice mail from BURNETT JOHN.

Thank you for using Transcription! If you don't see a transcript above, it's because the audio quality was not clear enough to transcribe.

Q1

COMMENTS:COMENTARIOS:

I strongly oppose the construction of an outer loop highway near our established neighborhood, HPLE. Such a development would have numerous negative repercussions on the quality of life for the residents in the area. Firstly, the noise pollution generated by constant traffic would disrupt the peace and tranquility that the neighborhood currently enjoys. This would not only affect the residents' ability to relax and enjoy their homes, but it could also have a detrimental impact on their health and well-being. Additionally, the increased traffic flow would inevitably lead to heightened levels of air pollution, posing risks to the respiratory health of the residents and contributing to environmental degradation. Moreover, the construction of a highway in close proximity to an established neighborhood could potentially devalue the properties in the area, causing financial losses for homeowners. Overall, the negative consequences of building an outer loop highway near an established neighborhood far outweigh any potential benefits it may bring.

Q1

COMMENTS:COMENTARIOS:

I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 expansion project which has significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, causes numerous internet interruptions (some lasting multiple days).

The addition of an 8 lane freeway would be catastrophic to our community and reasons we all decided to build our homes and families here. I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well.

We are proponents of the pink route, or the route that starts further down 205 in Kaufman county, as we believe these would cause as little disruption as possible and also accomplish the goals of this project. There is no reason to impact the homes and property values of so many people with clear land to build the road elsewhere.

Thanks for your time and consideration.

Q1

COMMENTS:COMENTARIOS:

I think this is a waste of taxpayers money. This option is not needed and will not affect the current traffic flow that is already on the roadway. Spending millions of dollars on this project will not impact commute, but will have a negative impact on the community, landscape, and environment around. This is a waste of taxpayer funds.

Q1

COMMENTS:COMENTARIOS:

It would be best if this was rerouted to an area less populated now. I'm sure when originally planned the neighborhoods here now were not developed yet. Therefore it needs to be moved.

Q1

COMMENTS:COMENTARIOS:

We do want the outer loop. We moved to Rockwall County in 2008, since then FM 552 expansion took half of my front and side yard plus over 10 mature trees. The city side had almost no land taken. Please do not pick on the underdogs. Look at all options be transparent as if it was your land being impacted. How do we get more information? Currently I have only heard from Collin County.

I prefer the Aqua option 1st or the Pink option on Phase 2. The noise from the traffic that would divide the subdivisions on Hwy 548 or Hwy 205 would be unbearable. I would like the county for peace!

From: Gwen Christensen <[redacted]>
Sent: Friday, November 24, 2023 10:29 AM
To: Rockwall County Outer Loop
Subject: Rockwall county outer loop project

As a home owner and property tax payer for the county of Rockwall, I would hope our opinions are heard. Personally, I feel this outer loop would directly impact less homeowners and working ranch owners if the loop was pushed out to Hunt county and not take 14 miles of the smallest county in the state and replace it with concrete. Of the options of paths, I would pick the pink option first which would push it farther out. More land and less concrete is a better option for the environment. My personal choice is and will be to put it in the next county Hunt county. Please consider this an option.

Q1

COMMENTS:COMENTARIOS:

Locating the outer loop so close to a neighborhood is financially irresponsible for people that have invested in their homes in this area. There are other options that won't impact peoples home investments.

Q1

COMMENTS:COMENTARIOS:

This new expansion will take out the only outdoor sand volleyball that Rockwall has. The owners put their own blood sweat and tears into building this place and all the spectators and players would hate to see this be replaced by more concrete. Let the land stay. Rockwall/Royse City/Fate does not need more expansion. Fix the roads we have already.

Q1

COMMENTS:COMENTARIOS:

This is a horrible idea. Concrete walls, increases in traffic from people who are not from the area. This will definitely raise crime rates. This is a no go for almost all Rockwall residents.

Q1

COMMENTS:COMENTARIOS:

This route not be ideal for our community. We are primarily a community filled with many young children that would be negatively impacted by this project including loss of sense of safety, exposure to pollutants and many people selling their homes. There are several other alternatives including those that would go through Kauffman county that would be of better choice.

Matt, excuse me, this is Beverly Dale. My number is 972-743-5870 I'm calling. Concerning the Rockwell Outer Loop. I'm trying to get a more detailed map of where that proposed. The loop is supposed to come between 5:50 and 5:48. I own property and 5:50 and I'm trying to see if it's going to impact me again. This is Beverly Dale, 972-743-5870. Thank you.

You received a voice mail from DALE BEVERLY

Q1

COMMENTS:COMENTARIOS:

I'm opposed to the outer loop being built near highway 548.
This would be to close to many residential areas and businesses. This could cause many home owners to be forced out of their home.
It would make more sense to build the outer loop further east.

Q1

COMMENTS:COMENTARIOS:

I understand that we need additional roads in Rockwall county, but the proposed roadways cut off a large chunk of Rockwall county from the rest while also cutting off a working ranch.

How will this impact schools and bus routes? We already drive 15-20 minutes to schools.

What is the plan for the increase in crime that will
come with the easy access to multiple higher income neighborhoods and multiple highways that this will tie together?

The current proposed roadways should be going around the existing subdivisions, not cutting through them.

What is the anticipated impact to the existing home owners that are going to be financially impacted by not only
the depreciation in their home values, but also the value of their time while TXDOT is working on not one but three major roads in the 548/205 area. This project should have been completed 20 years ago prior to the subdivisions going in in the area.

Q1

COMMENTS:COMENTARIOS:

This project is a waste of time and money. A better investment would be in the surface streets already in place that are grossly overused.
This project will sever multiple neighborhoods and natural areas from the remaining countryside.

Feel strongly alternate options need to be researched and considered.

Q1

COMMENTS:COMENTARIOS:

The bypass is just going to clip the edge of our beautiful subdivision here in waterscape. It’s going to bring traffic, and I’m sure crime to our area, outsiders and easy access in and out. We enjoy the quiet of our neighborhood, and while I understand that traffic needs better access, I think it could be better to keep it away from neighborhoods. Perhaps taking it a little farther west where there are more industrial areas would be better served.

Subject: Question re Outer Loop
Attachments: ATT00001.txt

Attn: Matt Craig, PE

Mr Craig,

I am a resident of Chisholm Ranch Estates, in the far southeast corner of Rockwall County. I have a question regarding the attached exhibit which is posted on the Rockwall County website related to the Rockwall County Outer Loop project.

Specifically, does this "Step 5: Present Alternative Recommended…" accurately (as much as is possible at this stage) depict the proposed road as the green/turquoise/aqua line?

Thank you for your time and consideration.

Respectfully,

Frank Douglas
214-621-4102

https://www.rockwallcountytexas.com/DocumentCenter/View/9835/rcol-ex-15-Step5Map

From: Frank Douglas <[redacted]>
Sent: Friday, November 24, 2023 5:27 PM
To: Rockwall County Outer Loop
Subject: The Outer Loop must be east

To Whom It May Concern,

I am a resident of Chisholm Ranch Estates in Rockwall County. As may be expected, I would like to see the Outer Loop project moved as far east of 205/548 as possible.

I believe that this is necessary to minimize impact to the residential areas in the 205/548 areas.

Moving the Loop as far east as possible minimizes the impact to hundreds of residences and is economically and environmentally sound.

Respectfully,

Frank Douglas
214-621-4102

To: Rockwall County Outer Loop
Subject: Rockwall Outer Loop

The best proposed option for the Rockwall Outer Loop is the option using CR 250 East of the Airpark East Airport. This option avoids destruction of the most homes and businesses.

Thank you,
Lori Douglas

Q1

COMMENTS:COMENTARIOS:

This project will directly and negatively effect the community of WaterScape. We will have a major Highway just a few hundred feet away which will have impact on our home value and bring large amounts of noise and disturbance to our daily lives. Not to mention the other communities that will be worse off. This project needs to be reworked at the very least. Easy transportation at the cost of the livelihood of many households is not the way to go. Please have an open dialogue with the communities involved and consider our major concerns before doing whatever you please like a bunch of heartless bureaucrats.

To: Rockwall County Outer Loop
Subject: Rockwall county outer loop resident 111 Livestock Dr Rockwall comment

As a home owner and property tax payer for the county of Rockwall, I would hope our opinions are heard. Personally, I feel this outer loop would directly impact less homeowners and working ranch owners if the loop was pushed out to Hunt county and not take 14 miles of the smallest county in the state and replace it with concrete. Of the options of paths, I would pick the pink option first which would push it farther ways from our neighborhood Chisholm Ranch which as already been directly impacted by the 205 and 548 expansions by TxDOT. We bought outside the city limits to have more of a county feel and less concrete so this outer loop would be an eye sore to us. It will create more noise and trash. My personal choice is and will be to put it in the next county Hunt county. Please consider this an option.
Thanks,
Kristina Drupp
111 Livestock Dr Rockwall, Tx homeowner.

Q1

COMMENTS:COMENTARIOS:

Moved to Rockwall county since it was one of the smallest counties in the state that had the fewest major thoroughfares running through it. It still has major farms and ranches and the proposed loop would completely change the demographics of this charming rural community/county. Thank you for your consideration.

Q1

COMMENTS:COMENTARIOS:

We believe the path of the loop should be placed where there is more land available that will not impact existing homes and farm land. The interstate will negatively impact High Pointe Lake Estates, High Pointe Ranch, Tate Farms and many other rural communities that have sought living where there is open spaces and not looking at a bunch of concrete in our back yards.

Q1

COMMENTS:COMENTARIOS:

This is terrible for all of us who specifically moved out here to get away from things just like this this. Your are turning rockwall into the same mess as the Dallas suburbs. The outer loop will ruin the country side for miles on either side. I don't look forward to hearing the noise it will being instead of the quiet we moved here for. Not to mention the probable light pollution from headlights and streetlights. This only sounds like a good idea to people who won't have to live by it or lose their property to it.

COMENTARIOS/CUMPLIDOS/ PREOCUPACIONES (Por Favor Letra de Molde):

A majority of the homeowners along FM 548 North of SH276 as well as those within ½ mile of the right of way have expressed their preference for the Green Route. Keeping the roadway as near to the route of an already busy farm road and buying out the 5 or 6 homes it would displace minimizes the negative impact on all residents in the affected zone.

Hi,

My name is Jill Gartin. My husband and family live at 208 Livestock Dr.

I will keep my comment short.

Out of all the route options I choose the pink one. It is far from my home and through many empty lands with less homes. We already have the expansion of 205 coming near our neighborhood and to add the purple, blue, green and aqua color choice routes for outer loop, those routes creates more traffic and traffic noise. The design of the road is wide and huge and almost intrusive.

We, our neighborhood will not qualify for noise barrier due to not meeting the population density for a noise barrier. Also, pink loop option has less homes except for up close by 548/255, which is still less than High Point homes and Chisholm Ranch. The pink loop will keep traffic noise at bay. Going down on 548 to 243 to I-80, seems less intrusive and less homes.

Please understand, Rockwall is ranch and countryside feel, this outer loop will interfere with that approach.

I hope my comments will be in your consideration to seriously look and choose the pink for outer loop.

Thank you,

Jill Gartin

Q1

COMMENTS:COMENTARIOS:

This is a horrible idea for Rockwall County. Everything that brought citizens to this county is quickly diminishing as the people in charge do not care one ounce about the quaint town we have loved. It appears decisions affect many yet they are made by few and it never seems to affect those few. We do not want this as it will congest our area more yet is being sold as it will help with traffic. It will bring more crime to an area that has been growing in crime over the past several years. Please do not do this to our town. The decisions being made over the past several years have all been awful including an apartment complex across the street from the police station in downtown Dallas. So much to mention over the past several years has been horrible decisions.

Q1

COMMENTS:COMENTARIOS:

This is a terrible idea. Its primary purpose is to divert thru truck traffic around the metropolitan area at the expense of residents of Rockwall County. Don't build it or, if it is inevitable, push it east of Royce City into Hunt and Kaufman Counties. Do not sacrifice the residents and land owners of Rockwall County to this blatant land grab. According to the Collin County website this road will have a 500 foot right-of-way. That will devastate homes, neighborhoods, and farms. It will disrupt local traffic flows. It will be bad for Rockwall County. All for the benefit of Dallas.

Q1

COMMENTS:COMENTARIOS:

I say NO to the Outer Loop in Rockwall County because I do NOT want a high speed road that studies show will cause more vehicle related deaths and injuries. We have abundant wildlife here and I do not want more vehicle wildlife strikes. I will vote against any elected official who supports this road.

Q1

COMMENTS:COMENTARIOS:

This ABSOLUTELY NEGATIVELY impacts my family and my home!! This is in my backyard. This completely diminishes the integrity of my home and the safety of my children and family. Not to mention, this increase of noise, pollution and crime. We built this home last year to be our forever home. We would have NEVER done that if this would have been the case. We poured our hearts and souls into building our home with pastures and farms around us. This would be DEVASTATING!

Q1

COMMENTS:COMENTARIOS:

There has to be a different route that does not run through the backyards of family homes. These families moved out to this area to get away from highway traffic and traffic noise. There are other options that do not go through or near neighborhoods and these should be the first options. We ask that empathy be practiced in this situation, and the feelings and thoughts of the existing residents and constituents be taken into consideration. Our home values and our country way of life will be in jeopardy. With a highway comes noise pollution, interrupted views, and crime. We would love to discuss in further detail if needed.

Q1

COMMENTS:COMENTARIOS:

I do not want a highway near my neighborhood. I moved further out to avoid the growth and traffic from Other major cities. I understand that we are growing and there is nothing we can do about that. But there is so much more crime that comes with major highways. Also I don’t want to look at it. We don’t we focus on widen the roads in are town instead of building a highway through it.

Q1

COMMENTS:COMENTARIOS:

We recently bought our home in High Point Lake Estates. We love that we feel like we're out in the country. This Outer Loop would take that away. We feel it will be very noisy with the traffic and possibly bring MORE traffic to the area including crime and pollution. This road would take away from the beauty and peaceful environment we have and moved here for. Please rethink adding this road. Perhaps widen the existing roads. Please keep this little part of Rockwall our country sanctuary and do not build this Loop.

Q1

COMMENTS:COMENTARIOS:

I am all for progress however we specifically moved and uprooted my whole family from California to this part of Rockwall for peace and quiet and we're willing to endure venturing into Dallas and downtown for daily needs. We love nature and the farms and fresh air. Please don't disrupt this serene environment and for the wildlife as well. Hearing road noise and pollution and being close to a major high way brings other issues. We feel safe here and love our community. Happy cows are not from CA they are in our town in Texas.

Q1

COMMENTS:COMENTARIOS:

I am sickened to think that life as we know it in Rural Rockwall, will be shattered by this outer loop. No one moved out here to have some monstrosity like this to invade our quiet country space. I am completely against this. The sound will be deafening. The lights from all the businesses and homes built after this road destroys our area would keep us from seeing the stars at night. Not to mention displace many wild animals from their natural habitat. I pray everyday that this gets stopped in its tracks. None of us want this out here. We want to continue to live in peace and quiet in our natural space. We want to raise our kids on land without the threat of heavy traffic, noise, and artificial lights. Please reconsider this project. We are even short on water, RCH cannot provide for so many more customers. This will all significantly reduce our land values. We've worked so hard all our lives to provide this space for our family. Please don't take it from us. We enjoy our horses, chickens, dogs, and cats. We love our time outside in the yard and tending to our honey bees in the back pasture. We love it here. This growth and project will destroy our way of life.

Q1

COMMENTS:COMENTARIOS:

We don't seem to be immediately affected by the alternative route presented at todays meeting. We are concerned about the road noise, it was fairly quiet when we moved to the area in 2006. When 548 was widened a couple of years ago road noise increased, this would be closer to us than 548 is now, and it looks like it may be elevated. How would noise levels be addressed if this ends up being the selected route?

Q1

COMMENTS:COMENTARIOS:

Hello,

This is designed to run right behind my home. It takes away all privacy I have and would leave my children unsafe. We have already had a car drive into our home and had to relocate here in hopes to never have that happen again and now you're putting an overpass behind my fence overlooking my pool and back yard.

COMMENTS/COMPLIMENTS/CONCERNS (Please Print):
COMENTARIOS/CUMPLIDOS/ PREOCUPACIONES (Por Favor Letra de Molde):

My Concern with this is Rockwall County is the Smallest County in Texas and we have two major highways one goes thru us and the other is close. So the need for this is Crazy. Our County started as a farming County and now TxDot want to turn it into a highway County for trucks, just like Illinois has. Its a Big decision in my point of view. You let all the housing development come in and then let the Highways take over. Don't Know whats going to happen when concrete takes over all the farm land.

Sus comentarios son siempre bienvenidos y serán considerados seriamente durante el desarrollo del proyecto. ***Los comentarios por escrito deben ser enviados a Halff, Attn: Matt Craig, P.E. utilizando este formulario antes del 24 de noviembre de 2023.***

COMMENTS/COMPLIMENTS/CONCERNS (Please Print)**:**
COMENTARIOS/CUMPLIDOS/ PREOCUPACIONES (Por Favor Letra de Molde)**:**

I object to the construction of the outer Loop Through Rockwall County. I live close to FM 548, which is, and likely to remain, a two-lane country road. The link to the outer loop at Tate Farms/Kuban Road will substantially increase the traffic on FM 548 and substantially add to the noise in my neighborhood. FM 548 is not built to handle the amount of traffic the outer loop will add to it.

Q1

COMMENTS:COMENTARIOS:

Please consider the “pink” alternative route for this project as it appears to push the project furthest east and away from many of the established homes and neighborhoods in the study area. The 205 and FM548 expansion projects are already having a significant impact on our neighborhood and this project would only add to that; especially if the white, grey, orange, green, or purple routes are chosen.

Q1

COMMENTS:COMENTARIOS:

Hello, I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 and 548 expansion projects, which have significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, and caused numerous internet interruptions (some lasting multiple days).

The addition of an 8 lane freeway in our backyards would be catastrophic to our community as well as obliterate the reasons we decided to build our homes and grow our families here. I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well. When viewing the proposed routes, I believe the pink route would be the least impactful to the already established neighborhoods such as ours, Highpoint Ranch, and Kingsbridge. Please consider this route as it would disrupt the least amount of individual land and homeowners.

Thank you,

Kendra Henderson

Q1

COMMENTS:COMENTARIOS:

Highways should not be built through neighborhood areas without disclosure. That means, tell home/property buyers in full disclosure (not hidden/ legal language BS), about planned (or to be planned) before they buy. If no notice, consequences sufficient to end development.
If adequate disclosure not given on this loop…plan a different loop.

Q1

COMMENTS:COMENTARIOS:

This would ruin our neighborhood. This would literally run right behind my backyard where we watch sunsets and enjoy wildlife. We bought this house for this reason. This would bring pollution, run off wildlife and allow an enormous amount of people access to our quiet, secluded neighborhood. Not to mention would run off all of the wildlife and damage the environment.

We moved to Rockwall in 1990, when it was a small quiet town. We then moved around the country for work. When I retired we decided to move back to Rockwall and bought a home in High Point Lake Estates to get back to the quiet small town feel. The proposed new outer loop would not only create noise and congestion for HPLE it was cut us off from the rest of Rockwall County and decrease our property values considerably.

The optional "pink" route makes a lot more sense in that it would be less congestion and noise for both HPLE and Harris neighborhoods and seems to take a more rural "NE" route.

Please Reconsider cutting off HPLE from the rest of Rockwall Co.

COMMENTS:COMENTARIOS:

I approve and support TxDOT's Rockwall County Outer Loop Project. The aspect that I love about TxDOT's Rockwall County Outer Loop Project is that the Rockwall County Outer Loop will improve safety, reduce congestion, and improve freight mobility.

COMMENTS:COMENTARIOS:

We are totally against the outer loop placement by 548. There are better places to put it that won't affect so many people and properties. Please reconsider before ruining our reason for living out in the countryside.

Q1

COMMENTS:COMENTARIOS:

Voting against this road. It will completely disrupt the current homes all along the road. It’s not necessary and unfortunately it will decrease property values along with the dangers that come with the size of this highway. It feels that no matter what us homeowners say we are not even considered or heard. I loved oit in east Rockwall for peace and a bit less people and now they’ll be hauling through my backyard.

Q1

COMMENTS:COMENTARIOS:

This is a project to where someone will lose no matter what. The road will go through a populated area no matter where you put it. Please consider this: there is farmland all around i know it's not ideal for the farmers either, but it won't put people out of their homes. This is a lose-Lose for all of us. The pink and teal tracks are best for us. but not for everyone else. no matter where you put this think in this "projected" area you are destroying peoples homes. Everyone moved out this way to avoid this. Please consider moving this further out as there are still large areas of undeveloped areas in rockwall/hunt counties.

Rockwall County and the Texas Department of Transportation (TxDOT) are conducting a public meeting with both in-person and virtual options for the Rockwall County Outer Loop Project. A feasibility study is being conducted for the approximately 14.4-mile, new location roadway from FM 2755 to SH 205 in Rockwall County, Texas. The in-person public meeting will be held on Thursday, November 9, 2023, from 5:30 p.m. to 7:30 p.m. at the Rockwall County Courthouse Liberty Hall, 1111 E Yellow Jacket Lane #401, Rockwall, Texas 75087. The virtual public meeting will begin on Thursday, November 9, 2023, at 5:30 p.m. and remain online through Friday, November 24, 2023, at 11:59 p.m. at: https://www.rockwallcountytexas.com/1234/RCOL-Public-Meeting-2. The virtual public meeting is not a live event. The same information will be available at both the in-person and virtual public meetings.

Good morning,

We are currently compiling comments from the 11/9 Public Meeting and will begin developing responses, and initiating any modifications, this week. Our overall timeline has not changed; we are aiming for a 60% schematic next summer, followed by Public Meeting #3. At that point the right-of-way footprint should be set, but we do not anticipate an approved schematic until Summer 2025.

Thanks,
Aimee

Q1

COMMENTS:COMENTARIOS:

No way do we want this loop near 548 and Kuban road. There are many family farming businesses who will be tremendously affected. The traffic needs to be focused on I30. Also this is rural and people live on acres of land, with septic. This is not the area for a loop. Most people moved to this area to get away from the sound of a freeway and to stay away from tons of traffic
Please consider another route.

Q1

COMMENTS:COMENTARIOS:

We bought out here to get out of the city! It has grown way too fast. It needs to stop! We don't need anymore houses out here let alone a highway! Continue with 190 where it ends at interstate 30! You have already ruined that part of town so go ahead and finish it out to Terrell ! Would probably cost you less to continue where you stopped! Don't do this to another neighborhood!

Q1

COMMENTS:COMENTARIOS:

Absolutely not. There are enough N/S connections from Wylie/Lavon to 205. We do not need to steal people's land for another road that is going to bring congestion. I 100% believe no one has done a traffic study to understand the impacts this will have. Traffic on 552 will absolutely increase, and it is dangerous enough as it is. You cannot even safely turn from 1141 to 552 anymore. We know, our car was just totaled trying to make such a turn. The Outer Loop will bring more traffic to this already dangerous area.

Hello,

Please do not build a highway over Bumpy Pickle Beach. A lot of people in the community support this business and they have the only quality sand volleyball courts for miles. An alternative should be implemented to avoid ruining a small business. I love this business and the family that owns it. They are great people running a great business and deserve to continue to thrive.

Thank you,
Brianna Kearns

RCOL Public Meeting #2

ROCKWALL COUNTY OUTER LOOP

Bumpy Pickle Beach has been a family place for my family, we live in Rockwall, my daughters and I have been playing sand volleyball since they open back in 2018, I can't believe it's been 5 years. We have so many friends there, we call it our pickle family. It's a safe environment where we all enjoy a game of volleyball and the friendship that comes with it. The owners are wonderful people too, also friends. They also include younger players, lessons and tournaments are available for our children, so close to home. I don't miss crossing the bridge and supporting other facilities, we love Bumpy Pickle, we are there 8-9 months out the year.
Please consider a route that allows Rockwall and all the near by cities to continue to enjoy this wonderful place, this is by far one of the best! best sand, best people in the best county.
Please don't make us cross the bridge again.
Luzdary Kearns

Q1

COMMENTS:COMENTARIOS:

Please consider one of the routes that do not go right next to High Point Lake Estates off of 548 and 205. Our way of life has already changed so drastically in the last few years with traffic and construction. Running the new road right next to our neighborhood would take away current homes for people and habitat for animals. We enjoy life with owls, deer, coyotes, bobcats, and more. We don't want them to leave. We anticipate that there would be incredible noise from the construction and traffic on this roadway. We worry about our home values!! Please understand that continued development here is not optimal especially because WE DO NOT HAVE ADEQUATE WATER! Better roads equal more people and we are already seriously underserved with our water supply.

Q1

COMMENTS:COMENTARIOS:

I am against the outer loop location on 548 going through land to connect to 205. I feel this plan is built for commercial traffic not residential and it will invade residential space.
The outer loop State Highway 190 has not been completed which would address these concerns. I think this project should be completed prior to investing in a new project. The John King project was built to relieve traffic and is still underused. By enlarging SH 205 this will alleviate the congestion on that roadway. This project will effect numerous home by adding more traffic, more noise, more crime and less confidence in Texas Depart Of Transportation. FM 548 is still underused and the only congestions at the intersection of SH 205 and FM 548 is the configuration of the intersection. I would hope this will be solved when SH 205 is enlarged.
If which I feel you are already building the outerloop I believe that there are alternatives to the placement of the Outerloop using the existing roads away from existing neighborhoods.

Q1

COMMENTS:COMENTARIOS:

I am against the outer loop, because it is another txdot plan out here making traffic worse! The new bridges block the once beautiful view crossing ray hubbard and provide no relief if an accident occurs on the bridge. 276 project was a waste ruining a green belt, made Mims a mess and closed the old 276, making traffic on 205 worse!!! Every project in Rockwall over the past 10 years has made issues worse!

Q1

COMMENTS:COMENTARIOS:

I would like the Rockwall outer loop from FM1138 to SH 205 to be moved further East of this location into Hunt County. This is to close to George Bush Turnpike which has not been completed. The completion of George Bush would take the traffic which you say is needed for North South traffic.
The main concern for local residents of Rockwall County which I am one is the ability to get into Dallas and back for work. This will improve once the area in Rowlet is complete. I feel like the idea of reducing congestion in Rockwall is being addressed with the expansion projects of SH 205 and FM 548. I feel that an outer loop would be better served further East of Rockwall County. The area between Royse City and Greenville has ample room for this project. I believe this outer loop is really meant for commercial traffic not residential traffic.
The noise, increased traffic and Crime is a deterrent for most residences that will be effected. The are is still a rural area and people moved out of the city for the peace and quite. This will go away.
There are homes facing FM 548 that have disabled military personnel that the loud noises and increased traffic will effect.
This will be a extremely large and long lasting project. With the expansion of SH205 and FM 548 on the books already. The time frame of construction in the South Rockwall County area will be devastating, frustrating and not wanted or needed.
I feel like we are not being served as residents of Texas and Rockwall County.
I would vote to stop this Rockwall County Outer loop project and move it further East. I believe you should also complete the project you started in the 90's (George Bush Turnpike) first before you start and not finish this project.

Q1

COMMENTS:COMENTARIOS:

This is a good idea to help improve traffic flow in Rockwall.

But we really need a new connection from FM552/Dalton Rd to Liberty Grove/George Bush over the lake.

Q1

COMMENTS:COMENTARIOS:

I do not wish to have a highway outside out entrance. This will not only take way from the value of our homes, but the noise levels will be high. Statics show higher crime rates when easy access to major roads go in. Everyone out here moved to the outer county to get away from the noise and the traffic.

Q1

COMMENTS:COMENTARIOS:

We purchased our home on Twin Circle Ct in February of 2021. What brought us out to High Point Lake estates was the country feel. Our home backs up to cattle land, the views are breathtaking at times. This home is the one we planned to raise our children in and even envisioned our grandchildren visiting. The current proposed road would change all of that. Our property seems to be one that could be most effected. The road would become our view out the back. This road is exactly what we had hoped to move away from. I ask you to please consider the negative effects this will have on our community. The loss in property values, the noise, the traffic, the crime, the loss of the feeling that we all were seeking when we spent our hard earned savings to build out here and seek an alternative.

Q1

COMMENTS:COMENTARIOS:

The proposed highway will run along the fence of our backyard and will (1) obstruct our current view, which on clear days allows us to see downtown Dallas, (2) interfere with our privacy, (3) flood our property with road and traffic noise, (4) potentially increase crime in our area, and (5) eliminate the seclusion and tranquility of our property. In addition to the effects on our standard of living, there is wildlife that routinely passes through the area where the highway would run. This includes a herd of deer that regularly passes through a specific path of the subject property. Undoubtedly the proposed highway will cut off this route. We purchased our home with the views and seclusion in mind. Our home will not be the same with a highway running along side it.

Q2

COMMENTS:COMENTARIOS:

I’m opposed to the Outter loop outside the property at High Point Lake Estates 548 between Kuban Road and 205. It impacts the neighborhood on two sides, the project is too close to homes and the noise level would destroy the neighborhood. Creating on and off ramps right outside the entrance to the neighborhood would destroy the property values of all nearby properties. The project includes elevated bridges and ramps. The extensive concrete construction , noise, complicated ramps and bridges all in close proximity to homes will completely destroy the quality of life in the homes in our neighborhood.

COMMENTS:COMENTARIOS:

Rockwall County & TX DOT:

The purpose of my family's statement is to provide consideration to seek an alternative route for the future Rockwall Outer Loop highway and its planned expansion. The reasons to seek an alternative route are pollution, crime, and reduced property values.

In 2020, my family left urban Houston for rural Rockwall County for an opportunity to start over while still living in Texas. The proximity to DFW, the outstanding public school system, and low crime rate per capita were the reasons we chose to move to Rockwall County. Furthermore, we decided to live in High Point Lake Estates neighborhood because of the outstanding neighbors, low traffic within our community, zero noise and light pollution, and sustainably high property values.

As currently planned, the Rockwall Outer Loop project particularly threatens three of those reasons: (1) noise and light pollution; (2) increased potential criminal activity per capita; and (3) reduced property values. As the feasibility study gets underway for alternative routes, decision makers must account for the dramatic increase in noise impacts per TX DOT Noise Policy. Inside of a quarter mile from the proposed future highway and its planned expansion, the charted noise impact exponentially increases from a 65 dBA baseline —an unacceptable impact considering 25 dbA is our current state. Additionally, for the young astronomers in my household, the impact of light pollution from this project is undeniable.

Second, creating a future up to 8-lane highway in our backyard will undoubtedly increase criminal activity. In the Houston-area, our quiet neighborhood was subject to criminal mischief because of its proximity and access to major highways—it was simply a catalyst for poor intentioned people to transit our community. We do not want to revisit those criminal problems and will be forced to relocate if the highway, as currently planned, breaks ground.

Last, High Point Lake Estates is home to hundreds of families on multi-acre lots with high value homes. These homes range in values between $700,000 to more than $1.5 million. These properties account for a substantial segment of these families' personal wealth and double as supporting Rockwall Counties' burgeoning tax base. As a desirable location for so many families to live, why sacrifice so many families' happiness and prosperity while also throttling the future value and the county's accompanying tax bills? It just doesn't make sense.

From two Air Force veterans and our four children that are proud to call Rockwall County our home, we want to thank you for considering our position regarding the Outer Loop project. Please consider another alternative that reduces the impact to its neighbors.

Dear Mr. Craig,

Please see the attached in response to last evening's meeting.

Best,

Lisa Mee-Stephenson
Homeowner, Chisholm Ranch Estates

Chisholm Ranch Estates
HOMEOWNERS ASSOCIATION

November 10, 2023

Mr. Matt Craig, P.E.
Halff
1201 N. Bowser Road
Richardson, TX 75801

Dear Mr. Craig:

I'm writing to you as a very concerned homeowner in the Chisholm Ranch Estates Homeowner Association and in reference to the Rockwall County Outer Loop Meeting held last evening, November 9, 2023. Thank you for the presentation of alternative routes for the Outer Loop.

As far as Chisholm Ranch Estates and our forever retirement home is concerned, **we would definitely favor the Pink Route** that skirts the far side of the airport over all other routes. The Pink Route impacts far less people than the disastrous White Route (and to slightly lesser degrees the Green, Red, Orange or Gray Routes.) The Teal Route through the ranch may be another possibility. However, that would leave our community and property square in the middle of the Outer Loop, SH205 and FM458 – the latter of which, as you know, are also undergoing big expansions.

While we understand that infrastructure needs to expand to handle growth and demand, we didn't move out here to the fringes of the county almost a decade ago to experience more city life. The noise factor alone would absolutely destroy what we moved out here for. Moreover, the property values in our community are, for the most part, in the high $700k to high $900k. Anything but the Pink Route would severely affect those values as well, with little to no recompense to the homeowners.

Please don't take away what we've worked so hard to enjoy in our retirement. If an Outer Loop has to go in, please let it be the Pink Route!

Thank you for your consideration.

Best,

Lisa Mee-Stephenson

Q1

COMMENTS:COMENTARIOS:

There is no benefit for Rockwall on the south side of this loop. Why would Kaufman county not provide the land? Rockwall has provided land for the north portion of this loop. The distribution of the land used should be shared by all the counties that will use this roadway. Rockwall should not take on the lions share of this project as it passes through the 3 surrounding counties.

Q1

COMMENTS:COMENTARIOS:

Rockwall is giving up
Substantial land on the north side of this loop. The south side seems to benefit Kaufman and Hunt counties. Rockwalls commissioners should ensure that Rockwall is carrying too much of the land for this as it benefits other counties. Move this road away from South Rockwall!!

Q1

COMMENTS:COMENTARIOS:

This is not needed in Rockwall and our county does not benefit from it.That being said our county should support their citizens and not TxDot. Those of us that bought out in the country were intentionally seeking a peaceful place away from the city. We are now threatened with something worse than city living, we won't even be able to walk outside our home and have a simple conversation with all the noise from the freeway. You admittedly did a height study to make sure you were good to avoid the flood plain but didn't do a noise study. Clearly the noise is of no concern to TxDOT. I was told that no one could build behind me when I bought this house due to the flood plain so now you'll just go above it and I was apparently lied to. Have they did a study on the crime these freeways bring and the pollution? You are giving criminals direct access through this area, we are already experiencing that with I30. Very often drivers just throw their trash out their windows and trucks constantly have trash blowing out of the bed of their trucks. All of the stated reasons would destroy the beauty and peacefulness of the country life we all sought. There are several other alternatives that are viable options through Kaufman or Hunt County.

Q1

COMMENTS:COMENTARIOS:

Dear TxDOT,

My husband and I relocated from Washington 2 years ago to High Point Lake Estates primarily for the quiet peacefulness and lush beauty of the area. Tate Farm is also directly situated behind our property. The local wildlife and beautiful views our family currently enjoys would be eliminated and replaced by concrete, noise, light and air pollution and discarded highway trash. The impact of the construction of an 8 lane freeway with service roads would dramatically affect our lifestyle and result in a striking decrease of property values and major health issues.

We are adamantly against the completion of this project as well as the majority of our neighbors.

Alternative routes must be considered!

Sincerely,
Jamie and Tomoshi Miyamoto

Q1

COMMENTS:COMENTARIOS:

The Outer Loop will negatively impact our neighborhood. Our home will be extremely close to the projected road and ruin what we love about our neighborhood. When we moved here five years ago we decided on this house because of the rural quiet setting. We had moved many times due to the military and we were finally buying our forever home. Everyone who visits us comments on how amazing our neighborhood is and how quiet it is. Having a large road so close we will hear all the construction for years and then the traffic. I am also concerned that even though I have been told my house “should be fine” that I will be relocated. We don’t want to move. We love our home.

We ask you to please push the road farther east to where there are less neighborhoods that will be impacted.

Q1

COMMENTS:COMENTARIOS:

This is way to close to our property. I moved here for the peace and quiet. This will bring tons of noise pollutioin, air quality issues, wrecks which are already an issue, and basically ruin the way of life for those of us that chose to live "in the country". If Rockwall wants this - then do it at CR551 or CR549 where you are already over building and putting in too many warehouses etc.

Subject: Outer loop

Hello,

Do I understand correctly that 548 is now not the only path being considered. Last we were told out here in High Point Lake Estates is that path is already decided and there is no other options but to come past our neighborhood. Is that still the case or have new options come up?

Thank you
Ghost Star Morgan

To whom it may concern:

I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 expansion project which has significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, and causes numerous internet interruptions (some lasting multiple days). The addition of an 8 lane freeway would be catastrophic to our community and the reasons we all decided to build our homes and families here.

I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well.

Thank you for your time,

Lauren Mowery

Q1

COMMENTS:COMENTARIOS:

Please do not allow this to pass. Ever since adding 190/George bush to i30 in garland it’s been a nightmare daily, this will be just as bad or worse not to mention crime rates, pollution, and added connection to our already congested small town. Please do not approve this loop!!

Q1

COMMENTS:COMENTARIOS:

I vehemently oppose this project. I moved to the country and pat astronomical amounts of property taxes on my 8 acres to be AWAY from this! The proposal goes right through my neighborhood. I would have to move and with the current real estate market theres no where to go. Find another way to divert traffic. This is not it.

Q1

COMMENTS:COMENTARIOS:

It seems to be the easiest route would be to follow, maybe straighten and widen 548 which is already there and would disrupt the minimum amount of property and homes. This would not affect my home but I really hate to see farmers and ranchers be disrupted and destroyed unnecessarily. Please consider them.

Q1

COMMENTS:COMENTARIOS:

I have been looking over these proposed plans, right of ways, lanes, etc for months now and I fail to understand the routes taken by this completely unnecessary and unwelcome Outer Loop. We could spend 1/3 of the money, lose next to zero property values or, shudder to think, lose existing homes by simply building out 205, 548 and 276. This Outer Loop could very simply incorporate most of the existing roadways into th system with far less impact to existing homes and businesses. I realize that this plan saves all of the existing and empty farmland owned by developers so that you and they can tap into a larger tax base and make it all look better for shareholders and investors after it all builds out into the cookie cutter tracts and mini mansion developments planned by DR Horton and similar developers. The saddest part for my own personal situation is that you will be bringing this right through the front corner of my home and my workshops for my business and my employees. Will that be considered? Likely not as I believe this 'study' is merely a formality you have to observe to dot your I's and cross your T's. Be honest with us here, it's already a done deal and its full speed ahead once this bump in the road is leveled out. Just like my home. Just like my business. Just like the jobs that I provide. Just a bump in your road. Stop this Loop. Not. In. My. Yard.

COMMENTS:COMENTARIOS:

No to outer loop! This will destroy our country life to those who have called it home for 27+ years! We have a lot of time and money tied into a home and acreage we never plan on selling.
If inevitable, I propose the further east path (the one NOT over Tate farms) or more western route, towards 205 & fm 550.

Q1

COMMENTS:COMENTARIOS:

Completely against this proposed outer loop route.
Construction will be a pain for years and when complete the noise will drown out everything we love about living in the country. This will also negatively impact our property values as well as bring in possible new crime.

Subject: Outer loop

Hi Matt:
I am one of the property owners that is impacted with the Rockwall County outer loop. We own the 120 acres at the intersection of Elm Grove and Parker Roads. I have seen the Nov. 9 meeting materials that were made public. My question is whether the alignment proposed is the final alignment or do you expect to make any major changes to it. Thank you for your help.
Best,
Hasan

Subject: RE: Outer loop

Mr. Pirkul,
Thank you for your email. We are still collecting comments from the public as part of the formal public meeting on Nov. 9. The alternative recommended for further study was presented at the November 2023 public meeting. We will be reviewing comments we received, and will be coordinating with the County and TxDOT on any refinements to the recommended alternative based on those comments received. If you have any specific comments on the recommended alignment as presented, please let us know.
Comments received within the comment period will be included in the formal public meeting documentation. The comment period began on Thursday, November 9, 2023, at 5:30 p.m. and ends on Friday, November 24, 2023, at 11:59 p.m. Responses to comments received will be available online at www.rockwallcountytexas.com/loop once they have been prepared.
We can also do another follow-up meeting with you if desired, just let me know.
Matt

Dear RCOL & TxDOT,

The invite to submit comments is greatly appreciated, though given the busy lives most families endure, I'm certain most citizens are unaware or don't have time to participate in this process. I also fear, comments submitted, will fall on deaf ears and this is nothing more than placing a checkmark in a box to complete a token step in the process of moving this project from paper to shovels in the ground. Regardless, I appreciate the opportunity.

A few thoughts based on the declared project "Purpose and Need" statement which in part states "A new location roadway is needed within the study area due to the lack of suitable, continuous north-south major arterials". My question is whether this is a defined need or just an observation? In my opinion you could use the above statement throughout the entire state to justify a road infrastructure project. There are clearly thousands are areas that lack major north-south arteries as well as east-west arteries. Throw a dart at the map of Texas. Where is the data that supports this need?

As a resident who engages in the day-to-day commute through the impacted area of this project, the following thought comes to mind. Why is there such focus on the north/south movement of traffic. The current and future demand for traffic flow is east/west. As more people move into the eastern region of Rockwall county, western Hunt county, northern Kaufman county and southern Collin county, the primary traffic flow still points to/from the Dallas job hub. Anyone living in this area will tell you how this population growth has impacted the east/west traffic over the past several years. Traffic patterns & congestion rival those in Dallas.

Regarding the north/south traffic, the current roads easily manage this traffic. I live on a primary north/south road (550) and the traffic on this highway is never busy. This is easily explained because there is no high north/south traffic demand.

In addition, the proposed highway plan is too large. Four lanes of highway in each direction, is interstate size. The roadway size of this project would be comparable to I-30. Even though the project is planned in

proposed stages, starting out small with the opportunity to expand, the land would still be acquired, and fence & barriers erected to isolate the build area. People would be forced to sell property and/or move on the chance that the full highway system would ever be completed.

I'm curious, given the age of this plan with origins back to 2002, how they could have anticipated the current growth in this area. I would like to know who this highway concept originated with and why a loop so far from Dallas was ever conceived. No one could have anticipated the growth that has occurred in this area, 20 years ago. I am no civil engineer and I realize projects of this size take years of review, but that's bureaucracy. There was no foundational need for a loop of this size in 2002, let alone today. Case in point. I'm not exact on the dates when the George Bush Toll (GBT) opened, but its capacity is far from being utilized. Furthermore, the GBT is not even finished as a loop. To accommodate the larger carrier/transport vehicles with north/south need, I would suggest they finish the GBT loop before building out a further loop and destroy more of rural Texas.

There are, of course, the obvious negative impact factors that any new highway system would impose on current rural residents in the planned development zone. Beyond the displacement of residents that live in the build zone, this would also be a catalyst for additional housing development and population expansion. Close behind, there would be a push for more re-zoning around the project area to support businesses that typically spring up along highway arteries. Our infrastructure is already stretched. Encouraging more development is careless planning. With this too, comes all the different forms of pollution and crime that follow these projects and would spoil the serenity, current residents in this area enjoy.

Maintenance and repair. I don't know where Texas lies on miles of existing roads and highways, but with each mile laid, comes the added expense of maintenance and repair. Our current roads and bridges must require a huge budget to maintain. If we allow unchecked expansion without real need, we're also approving the dollars to maintain these roads and highways. Texas can't print money, so who do you think shoulders that cost? This is made worse when approving highway infrastructure projects that have no proven functional purpose.

I conclude with an observation brought forth due to the lack of a clearly defined need as to why this monster artery is needed at all. Highway loops that circle cities do have obvious advantages especially for large transport/carriers of goods, keeping them from navigating and further clogging interstate systems that intersect cities. Loops that expand 40 plus miles from city centers begin to take on a different function and begin to look more like fences. The ability to manage what's inside the loop improves as the small unmapped backroads going through these build zones are blocked or removed.

I'm sure the state can find better ways to spend our money and better support the overall well-being of its citizens versus a pet project that will have minimal short-term financial benefit, but long-term financial obligations.

Q1

COMMENTS:COMENTARIOS:

I am very concerned about the proposed freeway next to our neighborhood at High Point Lake Estates. The negative impacts on our community include increased noise pollution, reduced air quality for the elderly and children with asthma (which includes one of my own), and disruptions to the local ecosystem. Additionally, property values will be affected, and the overall quality of life for residents will be compromised. I urge you to explore alternative options that prioritize the well-being of our community.

Q1

COMMENTS:COMENTARIOS:

Please do not put the Outer Loop right next to the
High Point Lake Estates neighborhood.The maps I see show it disturbingly close to our homes.
It would diminish our home values and our quality of life to see and hear the traffic so close by.
We built our home 5 years ago for about $600,000. Comparables in our neighborhood indicate that if we sold it today, we could easily sell it for $800,000. There is no question that a highway abutting the neighborhood would drive the value of our home down and that it would hurt our neighbors' prospects even more, based on where they live within the neighborhood.
Our neighborhood is not made up of track homes or rentals. Not all of the homes are fancy, but none of them are starter homes. Many homeowners here built or purchased with the expectation that they will finish raising their children here and stay through their retirement, or until their retirement, at which time their home equity will provide needed added security for their retirement.
To put a highway, or similar, right next to our neighborhood would be disastrous to those expectations and future security.
Like you, we've been doing our best to provide for our families and their futures. Please locate the Outer Loop where it won't have these very negative impacts on our neighborhood, or similar neighborhoods with similar price points. Thank you so much for your care and empathy in this matter as you decide how to meet the needs of a growing region. I really do think there is a solution that won't negatively impact our neighborhood so much, and I'm praying for us and for you that you'll be able to figure one out.

Q1

COMMENTS:COMENTARIOS:

As a resident of Chisholm Ranch Estates, my preference would be the pink route, as it has the least impact on the local neighborhoods. With the expansion of hwy 205 and 548 we are already going to be dealing with much more noise(the reason we moved out here) and any additional noise will have a detrimental noise impact and degrade the values of our homes. The pick route transits much more rural areas that won't be affected as much.
Thank you.

Subject: Route comments

The green route seems to be in open land. The purple and turquoise routes goes next to large existing neighborhoods with high home values that would be greatly effected by this project. That would in turn affect the county's tax income. There is also a new neighborhood in the plans that it would effect too.

COMMENTS:COMENTARIOS:

We do not support this outer loop going through High Point Lake Estates. We moved to this area to be away from traffic, noise and highways and this outer loop will bring all of that, literally, to our backyard. We are concerned this will also affect the value of our home and compromise the safe, quiet country living we currently enjoy.

COMMENTS:COMENTARIOS:

Do not want this running anywhere near high point ranch estate. The increased traffic,noise , pollution and crime will cause great financial damage to my property taxes. We all moved here to be in the country. Away from noise and traffic and you want to bring this to our door steps now. NO.

Q1

COMMENTS:COMENTARIOS:

PLEASE do not build a four-lane highway down N. Sorrells Rd. I am confident TXDoT can plan a better route that will not include excessive noise and danger to a neighborhood full of young families. This highway will also clear away farming land for crops and livestock. We live on N. Sorrells Rd. because it is a quiet and safe place to raise our children. This highway would also displace two families completely. There is OPEN land to the West of N. Sorrells. PLEASE do not connect a highway to our driveways!! Would you want this for your property?? PLEASE RECONSIDER!!

RE: Rockwall County Outer Loop Project
CSJ: 0918-25-027

Dear Mr. Craig,
I trust this letter finds you well. My name is Gene Sanderson, a resident of Chisholm Ranch in Rockwall, Texas, residing at 416 Chisholm Ranch Dr., and I am writing to express my strong opposition to the proposed Rockwall County Outer Loop Project from FM2755 to SH 205.
Existing Noise and Ongoing Expansion:
Currently, the noise from Highway 205 is already a daily disturbance. As you may be aware, the ongoing expansion of 205 to four lanes has significantly impacted our neighborhood. The construction has not only disrupted our community's entrances but has also heightened the noise levels, making it increasingly difficult to enjoy the peaceful atmosphere we once had.
Negative Impact on Quality of Life:
The prospect of an additional highway running through our community is distressing. With the current state of Highway 205 and the planned expansion, our quality of life has already been negatively affected. The introduction of a new highway would only compound these issues, further diminishing the desirability of our neighborhood as a peaceful and comfortable place to live.
Concerns About Home Values:
Moreover, the ongoing construction and the proposed new highway are causing significant concerns about the impact on our property values. The property devaluation resulting from these changes would not only affect our current financial investments but could also have long-term implications for the economic stability of our community.
Entrance Disruptions:
The recent modifications to our entrances due to the 205 expansion have already created inconveniences for residents. Adding another highway would likely compound these issues, further restricting access to our community and making it increasingly challenging for residents to navigate in and out of our neighborhood. This not only affects our daily routines but also raises concerns about emergency services' timely access in case of need.

Opposition:
I want to emphasize that I vehemently oppose the construction of the proposed project next to our community. It not only exacerbates the existing issues related to noise and infrastructure but also introduces new challenges that could irreparably harm the character and well-being of our neighborhood.
Request:
I urge you to reconsider the impact of this project on our community, taking into account the existing noise levels from Highway 205, the ongoing expansion, and the disruptions to our neighborhood entrances. I implore you to explore alternative solutions that do not compromise the peace and serenity that we, as residents, deserve.
Thank you for considering my strong opposition to this development. I hope you will prioritize the well-being and concerns of the residents in your decision-making process.

Sincerely,
Gene Sanderson

I do not approve of an 8 lane Road through Rural Rockwall County. People who visit always comment on the Countryside and clean air. There already exist the Roads necessary to move the Cars i.e. 30, 20, 80, 276, 205 and the smaller Roads such as 549, 550, 548. This new monster Road could attract Traffic such as what happened on 30 last week with a Car carrying drugs that the police had to chase. The noise on the new monster Road will not help the Rural life.

Subject: Outer Loop: Principal Arteries

As a resident of Old Millwood Road, these maps are terrifying. Old Millwood is 100% fema flood plain, and yet , lines keep popping up on maps showing the government trying to turn an old country road into a highway, or worse, ripping up the Hittson Cattle Ranch right through the middle …. Half of old millwood isn't even paved ! This wetland and wildlife area is known for having bald eagles, wild deer, various coyotes and even a possible wolf hybrid pack. We ask that Old Millwood and the Hittson ranch be left out of this mess. Use established roads such as North Smith Road … using a flood plain and wildlife wetland and cattle ranch , and partially unpaved road to relieve your traffic needs is ludicrous. How about control the development and stop clear cutting every pasture to throw 4 homes per acre on? Leave Old Millwood and the Hittson ranch out of this mess. We are not annexed into your cluster of a city , more so, never want to be. Leave us out of this.
April Smith
844 Old Millwood Rd

Q1

COMMENTS:COMENTARIOS:

We are new builders and home owners of our community in High Point LaKe Estates. We have been informed of the potential outter loop near our home. We have young children who enjoy the safety and freedom of our home to play outside. We specifically moved here to enjoy the space and quiet for our family. This outter loop would take this away and from the homes of our community. Please consider not impending into a community full of young families and children who love where they live. This would make our home unsafe for our children.

Q1

COMMENTS:COMENTARIOS:

As a resident of High Point Lake Estates I am asking for the route to be moved away from our community to an alternate route in Kaufman county. We moved to this neighborhood to get away from the noise, crime and lights and major highways. The proposed route that would run adjacent to our neighborhood would cause irreparable damage to our home values and way of life. I strongly encourage our community leaders to oppose this plan.

Q1

COMMENTS:COMENTARIOS:

I feel building this where currently planned is a huge detriment to the future of Rockwall-it doesn't elevate local traffic congestion at all. All it will do is bring more 1000's of more homes along its path further congesting local roads. It's only potential gain will be to help locals head south to Austin -This will not help anyone in Rockwall get to Dallas or Forth Worth. Please consider areas with more available land/space rather than cutting into the little remaining charm and uniqueness of Rockwall/heath

Q1

COMMENTS:COMENTARIOS:

I bought this land in 1979. I built my house, stables, apartments above the stables, commercial kitchen with plans to run a Bed and Breakfast as my next income. This was a major investment towards my future and my kids future. I built a workshop, carport, created several ponds, many fences, planted all the trees surrounding the house. Recently hired a company to install solar panels with supporting batteries. The house has 4 bedrooms, 4 and 1/2 bathrooms, 2 kitchens, dining room, living room, library, game room, indoor pool, jacuzzi and sauna. I raised my children and created many memories with this land and the house. My wife passed away in the home in December 3 years ago and my memories with her are still in this house. There are several options for the highway and I was hoping that you would select the one on the west side of the creek that would not in-impact me and my neighbors on the corner of highway 66. Please reconsider, Thanks.

I can't tell one bit what or how the new roads are running from the maps online. We live off 548 down from 205 close to Los Establos development. Our road is Highpoint Road in Royse City. How in the heck can I see all potential route plans that could affect me better than what you have posted? The maps thru 548 over to 205 on the south side are terrible to read or see where the roads and paths are.

Please help or advise.

Thanks,

Ricky Suber

Subject: RE: outer loop maps

Good morning,

Highpoint Road is outside the limits of the more detailed roll plots of the alternative recommended for further study. I've highlighted Highpoint Road in yellow on the image below snipped from Board #15 (https://rockwallcountytexas.com/DocumentCenter/View/9835/rcol-ex-15-Step5Map). The orange shapes along the yellow highlight are conservation easements within Los Establos.

I hope this helps you navigate the materials. I am working to get an interactive map posted on the website, but it will take some time.

Q1

COMMENTS:COMENTARIOS:

We currently built our dream home in High Point Ranch where this outer loop is supposed to go right by. This road will threaten our home value and cause us to move out of the area. There is no reason to jeopardize our way of life for people who are passing through. This road will not benefit us or our neighbors and is a huge intrusion on the quality of living for the area. Expand 548 and 205. That will help the residents in this area not bringing in truckers trying to get to Houston/ Greenville. We oppose outer loop!

Q1

COMMENTS:COMENTARIOS:

Terrible idea. As a Rockwall , Co resident I absolutely object to this project. This will decrease our property values as well as increase traffic congestion.

Hello! Thank you for asking for comments. We have been involved ever since we found out about the plans to build a roadway in 2022. Please remember our family and our plans to build our dream home at 4732 S. FM 548! We would really appreciate being able to continue with our building plans.

Thank you,
Angela Wade

I own the property at 4732 S. FM 548 Fate, TX 75189
We have previously discussed our plans for a home to be built on our property. The current projections allow for us to do that. Please keep us in mind moving forward because any change may necessitate loss of our new home.

Thank you,
Justin and Angela Wade

Q1

COMMENTS:COMENTARIOS:

As a realtor, which has been in the business for over 21 years, knowing this will devalue our whole neighborhood, and all the homes and residents that are affected throughout this direction of the loop. Adjusting the route south of 548. Along country road 243. Due to the fact, Rockwall is constantly expanding the outer loop needs to be further out and the Terrell Quinlan area.
By this proposed Outerloop would notice devalue all the homes in Rockwall in Rockwall County, but well also devalue Rockwall as a whole. New home buyer will steer way from wanting purchase any where around this loop. This will make Rockwall, Rockwall county less desirable place to live.

Q1

COMMENTS:COMENTARIOS:

I strongly oppose this project. Adding the outer loop to this area will devalue the homes in my addition, provide easy access for criminals, ruin this peaceful rural neighborhood and create noise. There are many other routes that this project could take. The current proposal is not ideal for this area. We just moved here and adding something like this would make us move away.

Q1

COMMENTS:COMENTARIOS:

I am a home owner whose property will back up to the Loop and I am very concerned about how having a freeway behind and a major roadway in front of my house will decrease my quality of life by:
1. An increase in the noise from construction and traffic
2. Decrease the quality of my air and land due to pollution(both during construction and the additional traffic after the road is operational).
3. Expect that our property value will decrease
4. Our pets and chickens could be adversly impacted by the noise, pollution and general construction chaos.
5. We are concerned about how this will affect the zoning of our land and the properties around us.
6. The additonal noise from construction and traffic will impact the ability to work from home.

Q1

COMMENTS:COMENTARIOS:

Please consider the route from slide #14. The pink colored one that is on the far side of HPLE. This route makes the most sense to me. Instead of affecting two neighborhoods by going right down the middle, it will only affect one. We live on Wincrest Drive so this outer loop is really going to impact our lives. I've never been in this type of situation so I'm not sure how much the citizens really have a say. I wish it wouldn't be built at all, but I know it's needed. Please consider the pink route and please add sound barriers. The noise from 205 is already very apparent. I can't imagine the noise from this project. It's amazing how sound travels in this flat, windy area. Thank you for your consideration.
Jeff and Cathy Watson

I live on the corner of Sorrels Rd, and State Hwy 66.We are in
the path of the green option. This is mine and my husband's dream to live here.We have done so much to this place to make it our home. I hope whoever is reading this can empathize what it would be like to be in our position;you would not want to be in our shoes.We have a neighbor who we have talked to , he has lived here for over 40 years ,just like us has cultivated the land keeping it serene where nature is thriving.
We are wondering why you can not entertain the part of this project moving to the west ot Parker Creek.There doesn't seem to be homes in the way. We think this would be ammenable for all parties involved.

Thank you,
Pamela Watson

Q1

COMMENTS:COMENTARIOS:

I live in Chisholm Ranch estates at the corner of 548 and 205. We are currently being impacted by the 205 expansion project which has significantly increased the amount of road noise we hear, decreased our property values (homes are taking longer to sell here), increased trash at entrances, causes numerous internet interruptions (some lasting multiple days).

The addition of an 8 lane freeway would be catastrophic to our community and reasons we all decided to build our homes and families here. I understand the need for added infrastructure but urge you to select a route that not only does not impact our neighborhood but the neighborhoods around us as well.

Good to see the outer loop has been moved to a further east location, where there are fewer residents that will be impacted.

Q1

COMMENTS:COMENTARIOS:

The ill-conceived logic of extending the loop into Forney at US 80 will only compound the traffic issues for commuters from Kaufman county. The outer loop should be pushed further east due to the projected growth in both Hunt and Kaufman counties. The projected RCOL will only make traffic worse in this part of the NCTCOG region, especially when intersecting I-30, US 80 and I-20 as currently planned.

COMENTARIOS/CUMPLIDOS/ PREOCUPACIONES (Por Favor Letra de Molde):

I am the city manager in Farmersville. I appreciate the work Rockwall County is doing to provide this much needed regional connection ~~betwe~~ to enable a connection between US 380 and I-30. Development is closing in and it is imperative that ROW be secured immediately. Farmersville is planning for increased industrial activity ~~as~~ so this route will be used for both residential and "industrial" ~~pur~~ purposes meaning increased truck traffic with a need for increased safety concerning the large trucks. Please consider building overpasses as part of phase I so a nonstop path could be created using the two-way feeder lane ~~s~~ deployment.

Q1

COMMENTS:COMENTARIOS:

My family and I would love the further east route to be considered. Many families in the south east rockwall county built homes that were meant to feel country and quiet. It would be heartbreaking to have to eventually move from our forever homes due to this build being so close to our little neighborhood.

Q1

COMMENTS:COMENTARIOS:

PLEASE choose an alternative route that does NOT put the Outer Loop in my back yard of High Point Ranch. We homeowners sunk our life's savings to build our forever retirement home to live in the county with peace & quiet! There are alternative routes that avoid neighborhoods. Please consider the future growth and move this outer loop further out to provide the most benefits in the future, not to be behind the times already as soon as the Loop is built!

Thank you.

To whom it may concern

RE: Rockwall County Outer Loop Project.

I am a resident of Chisholm Ranch Estates neighborhood at the intersection of Highway 205 and FM548. As such, I am writing this letter to protest any routing of the Rockwall County Outer Loop Project -namely the green, gold, brown, gray, teal, and purple proposed routes that would adversely impact my neighborhood with its proximity.

Obviously, infrastructure expansion must take place to handle the increase in growth and traffic, however, the above proposed routes will severely and adversely impact our neighborhood – a neighborhood that is already being negatively impacted by the Highway 205 and FM 548 expansion projects. These projects have already resulted in the loss of homeowner and community land, and are creating noise issues that many who bought and moved here sought to escape!

Another major highway in the same vicinity will only make this worse. Furthermore, it not only raises the question of environmental impacts, but the safety and wellbeing of the affected neighborhoods. In particular:

- It creates an unneeded expense dealing with sound and sight mitigation when it could easily be routed by one of the other less impactful route options such as the pink/magenta route which is further east of us.

- It decreases the home values of those living in Chisholm Ranch Estates when the other routes have a less personal impact.

- It creates extreme unnecessary street traffic confusion with on and off ramps, which are not yet considered or shown on any plans available to the public.

- It creates extreme unnecessary street traffic confusion by taking out the street traffic that could be absorbed by leaving 548 intact.

- The only route that would be acceptable to me is the pink/magenta route on the phase 2 map as it swings out further east and appears to impact fewer homes and businesses, particularly mine.

In conclusion, it is obvious there is much more open land east and south of my neighborhood that would make a far less impactful proposition to the rapidly growing area. Seems as if it would make MUCH more sense to consider and implement a route that causes the least disruption to as few established homes and neighborhoods as possible – namely the pink/magenta route.

Kindly reconsider your decision concerning the location of the new outer loop routing and make the necessary changes. I would appreciate a response from you regarding this issue. I can be reached at 972-571-0255 or at [redacted].

Thank you for your time.

Sincerely,

Frank B. Wilkins

Q1

COMMENTS:COMENTARIOS:

I strongly oppose the outer loop as drawn through Rockwall County. It is too close to existing neighborhoods and cuts one of the last remaining family farms in half. It needs to be pushed farther east, into Hunt County.

Q1

COMMENTS:COMENTARIOS:

I oppose the loop project altogether, however if it moves forward as projected, I vehemently oppose it going through on the east side of Tate Farms. It appears the west side makes the most sense with access to infrastructure support and mitigates the negative impact on residential areas.

Q1

COMMENTS:COMENTARIOS:

This 8-lane super highway will go right by my beautiful, quiet, serene neighborhood - High Point Lake Estates - turning it into a disgusting, polluted, noisy, crime-ridden California-like suburb. Add a highway and you pave the way for nefarious people to get quick access to these pristine neighborhoods so they can vandalize, loot, and much worse. This will inevitably hurt existing homeowners by decreasing home values.

I moved to this neighborhood to escape the loud, busy, polluted, and dangerous suburbs that plague this country and am shocked that Rockwall County Officials are supporting this abomination in the name of progress. Clearly those county officials don't live in any of the impacted neighborhoods so why would they care? They should care because every neighbor I've spoken to is against this project.

The county officials are spitting in the faces of all the good, hard-working Texans who want to keep their neighborhoods safe, clean, and peaceful. We just want to keep what we have. Don't take that away from us.

Q1

COMMENTS:COMENTARIOS:

I do NOT want the Outer Loop to come through my backyard and ruin the integrity of the life I have set-up for my family. This Outer Loop will bring extreme noise congestion, crime, trash, and more...all the reasons we moved away from our previous location. We moved to give our kids better...this loop isn't it.

Q1

COMMENTS:COMENTARIOS:

This loop would honestly make me money. However, I did not move to Royse City and buy land so they can make yet another dirty Garland / Rowlett infested with homeless and subdivisions. I also know this is a losing battle. So in the end I will take the profit and move elsewhere.

Ideally it would be great if it could run further away from our home. The proposed plan would ~~take~~ give us no choice but to move from our dreamhome.

COMENTARIOS/CUMPLIDOS/ PREOCUPACIONES (Por Favor Letra de Molde)**:**

As a mother of 8, my husband and I searched for the most ideal location to raise our family. We designed our home, so that it would also suit my husband and I, once all our kids have moved out. We wanted to raise our kids in a family home where they and their families would be able to come home to. A home full of memories that they shared with siblings and cousins. My heart is broken to see that this project will run beside my back yard. The once peaceful, quiet surroundings will be full of pollution and noise. I would hope that any other alternative be Considered that didn't mean my family would walk out in our yard and could walk onto a frontage road.

Q1

COMMENTS:COMENTARIOS:

I’m for expanding the roads, everything is moving out east and it would be SILLY not to do so. However, if there isn’t structured guidelines (height restrictions, boating access, STC codes) put in place BEFORE the roads get expanded it will get chaotic fast.

Document	Pages
Presentation and Script	20
Fact Sheet	1
Public Meeting Comment Form	2
Right of Way (ROW) Resources	1
Public Meeting Exhibits	21
Public Meeting Photographs	6

SLIDE 1 – Cover Slide

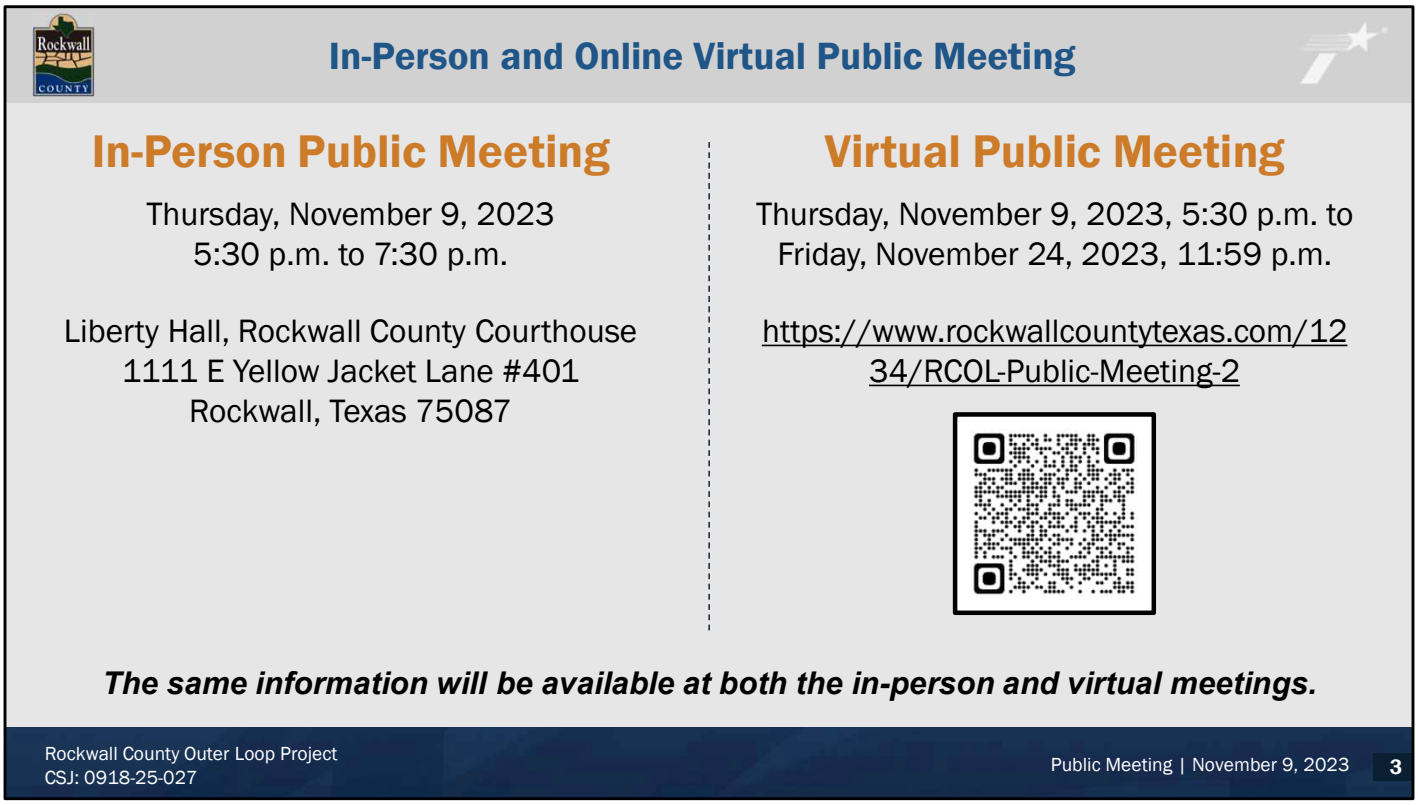

Rockwall County and the Texas Department of Transportation, or TxDOT, welcome you to the Rockwall County Outer Loop public meeting. We appreciate your interest in the project and thank each of you for your participation.

Please note, for those viewing the virtual public meeting, you may pause this presentation at any point to allow more time to view the slides or get a more detailed view of the project design or other exhibits available online. You may also pause the presentation and navigate forward or backward as needed.

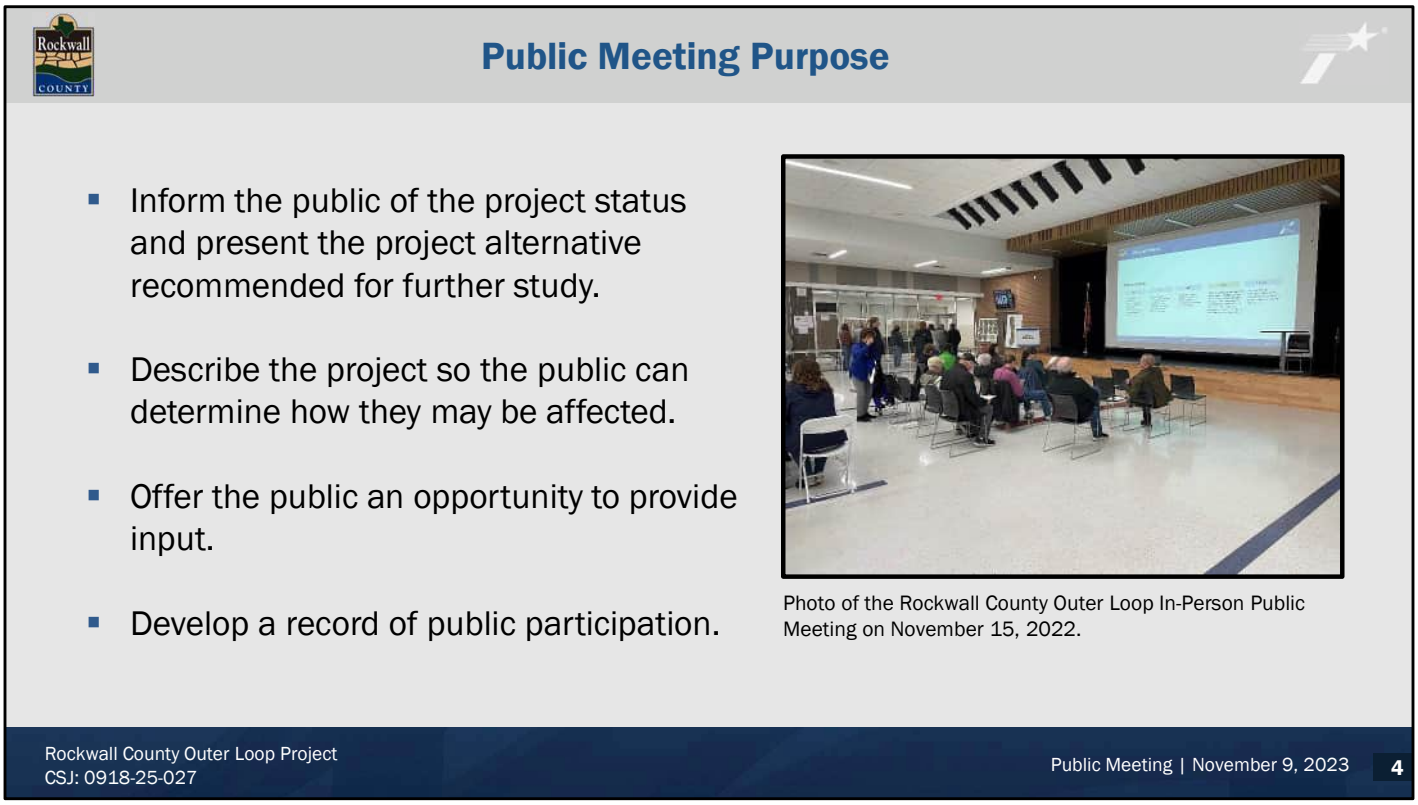

SLIDE 2 – Help End the Streak

November 7, 2000 was the last deathless day on roadways in Texas. That means for over two decades, at least one person has died every single day. We all have a part to play to change that. This message is a reminder – to End the Streak of deaths on Texas highways. We need drivers and passengers to act more responsibly and help us reach our goal of zero deaths by 2050. Texans can play a major role in ending fatal crashes with a few simple driving habits: wear seatbelts, drive the speed limit, put away the phone and other distractions, and never drive under the influence of alcohol or drugs. So, please do your part and share this message with your friends and family.

SLIDE 3 – In-Person and Online Virtual Public Meeting

An in-person public meeting and a virtual public meeting are being held on the Rockwall County Outer Loop Project to share project information and to obtain feedback from the public regarding the project alternative recommended for further study. The same information is available at the in-person and virtual meetings. This presentation and additional project materials are available online and can be viewed or downloaded by visiting the virtual public meeting. To access the virtual public meeting, go to Rockwall County's website at www.rockwallcountytexas.com/loop and navigate to the "RCOL Public Meeting #2" page on the lefthand side, or use the direct link or QR code provided on this slide.

SLIDE 4 – Public Meeting Purpose

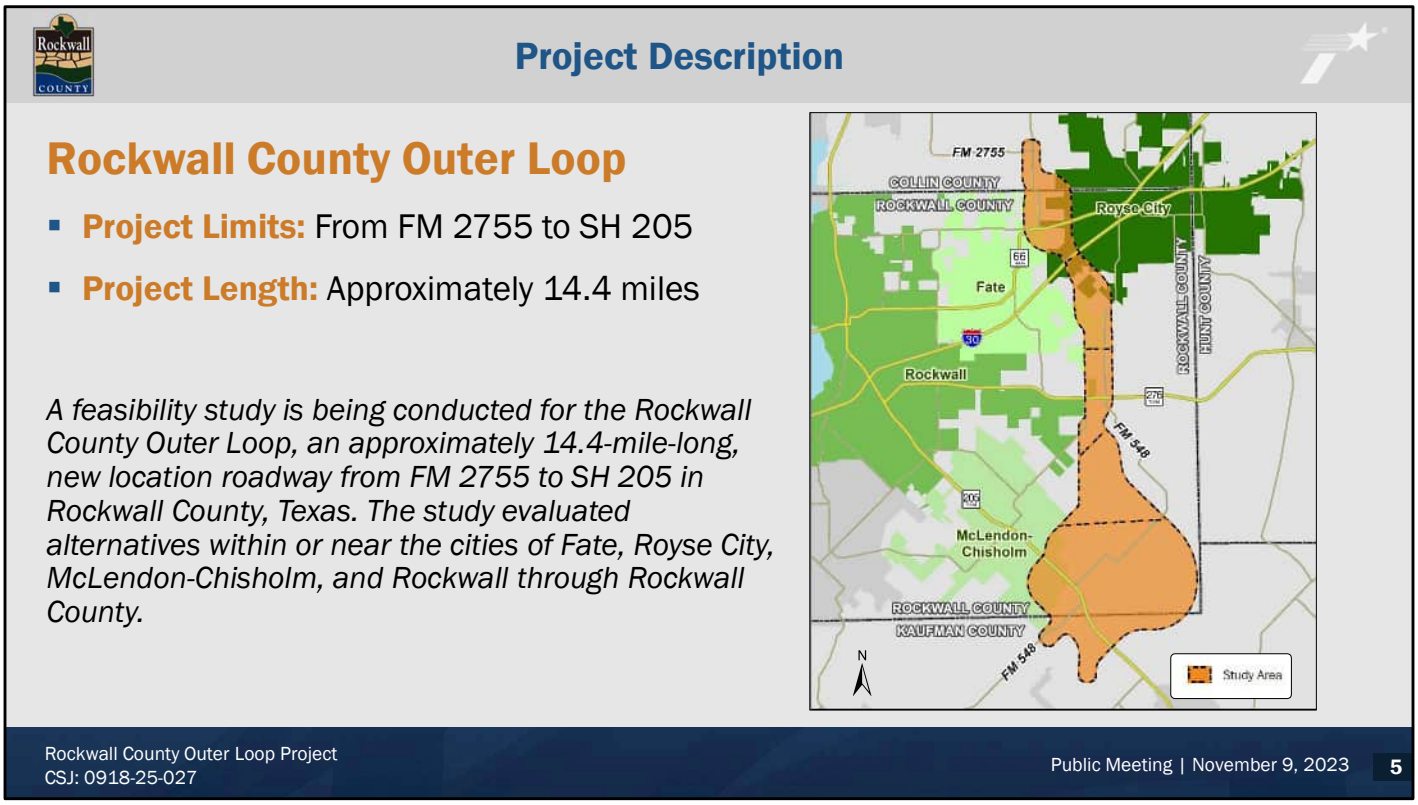

This public meeting has been convened by Rockwall County and TxDOT to receive and consider comments from the public regarding the Rockwall County Outer Loop Project.

You may have attended previous public meetings conducted by TxDOT. However, for the benefit of those who have never attended one, I will explain why and how the Department conducts a public meeting.

This public meeting has four essential purposes:

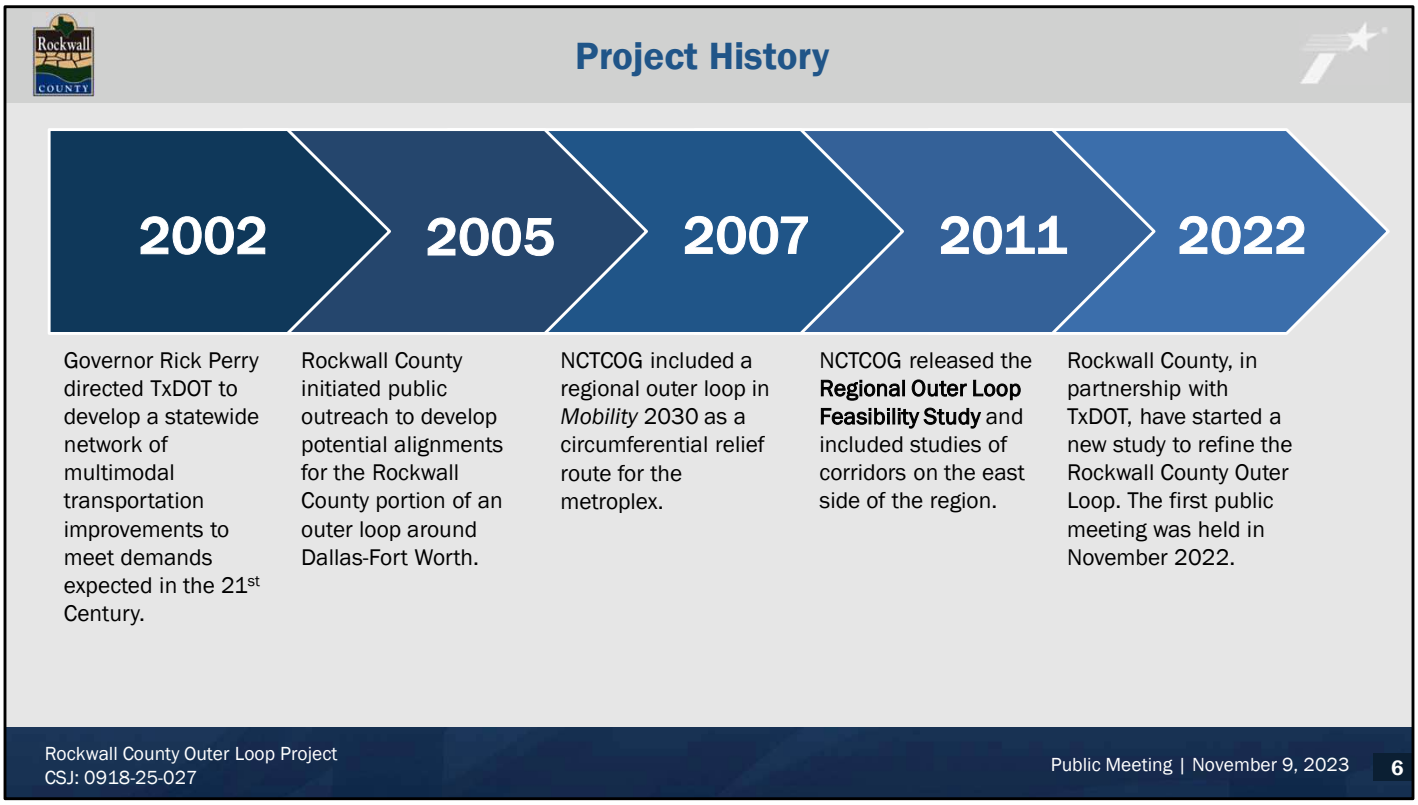

1. To inform the public of the project status and present the project alternative recommended for further study.
2. To describe the project to the public so the public can determine how they may be affected.
3. To provide the public an opportunity to view information and express their ideas and concerns at this stage in the planning process while the ability to respond to comments is still flexible and before location and design decisions are finalized.
4. And finally, to develop a record of public participation to accompany recommendations for subsequent decisions.

This public meeting is being held in compliance with both federal and state laws. Documentation of this meeting will be made available for the official record.

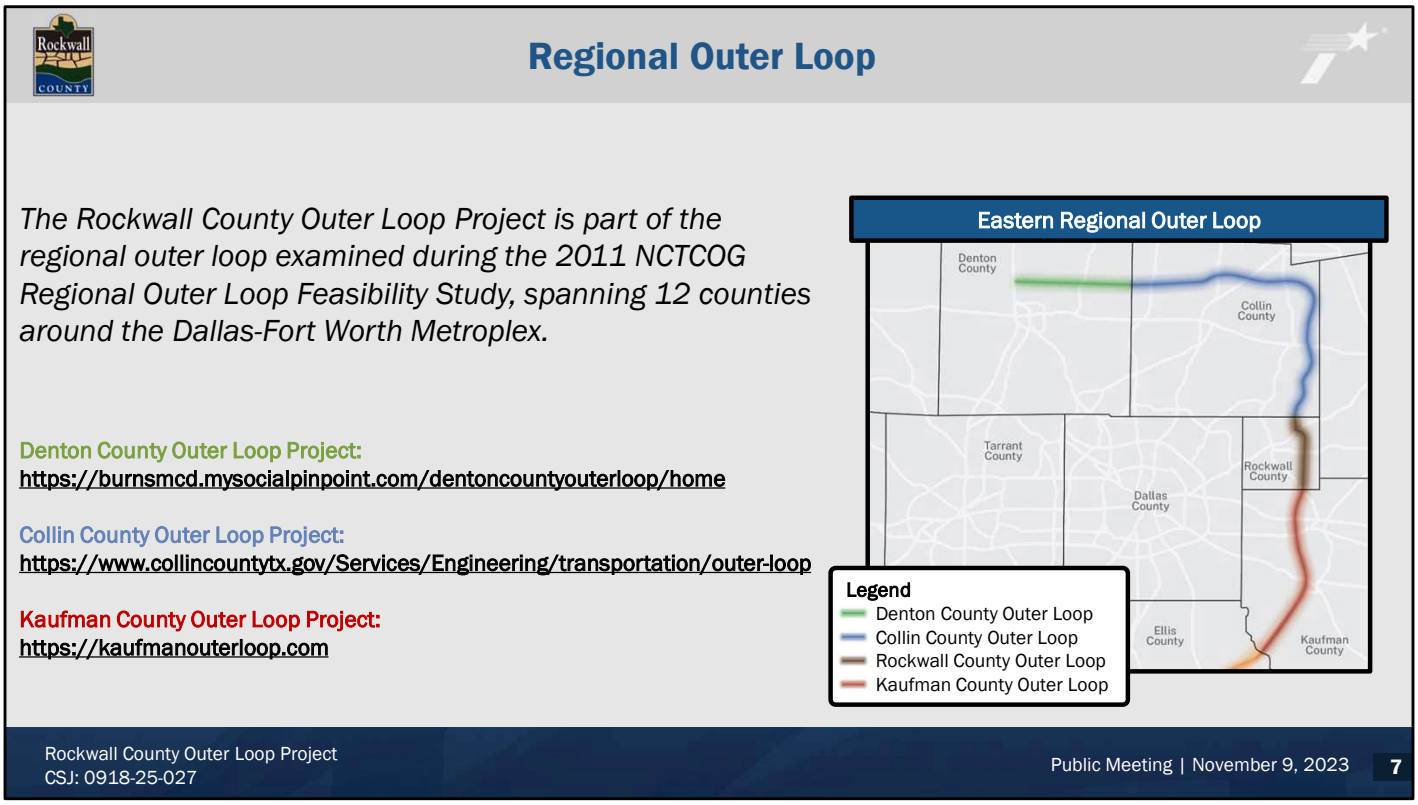

SLIDE 5 – Project Description

A feasibility study is being conducted for the Rockwall County Outer Loop, an approximately 14.4-mile-long, new location roadway from FM 2755 to SH 205 in Rockwall County, Texas. The study evaluated alternatives through Rockwall County within or near the cities of Fate, Royse City, McLendon-Chisholm, and Rockwall.

SLIDE 6 – Project History

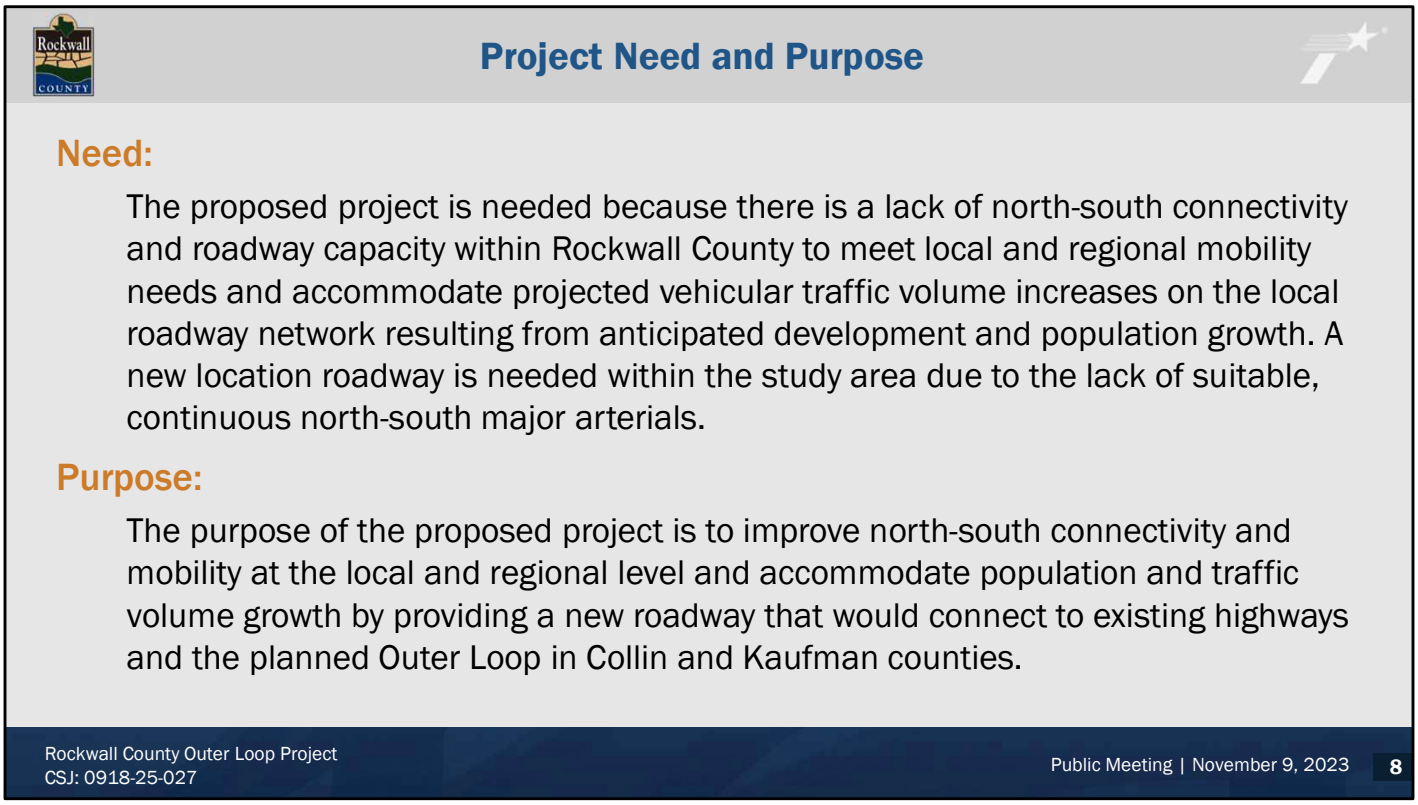

The concept for the Rockwall County Outer Loop began in 2002 under an initiative from the governor of Texas. Rockwall County developed a routing study in 2005 which resulted in a preliminary roadway corridor that was integrated in the North Central Texas Council of Government's long-range mobility plan in 2007. Four years later, the North Central Texas Council of Governments conducted a feasibility study over 12 counties to identify a regional outer loop around the Dallas-Fort Worth Metroplex. In that feasibility study, the Rockwall County Outer Loop was identified as a segment of independent utility for continued development and further evaluation. This project is an extension of the previous work done by Rockwall County and the North Central Texas Council of Governments to identify, refine, and study potential alignments to advance to a design and environmental study phase.

SLIDE 7 – Regional Outer Loop

The Rockwall County Outer Loop Project is part of the regional outer loop examined during the 2011 NCTCOG Regional Outer Loop Feasibility Study. Continuity with other segments of the regional outer loop is part of the Rockwall County Outer Loop Project's purpose and need, described on the next slide.

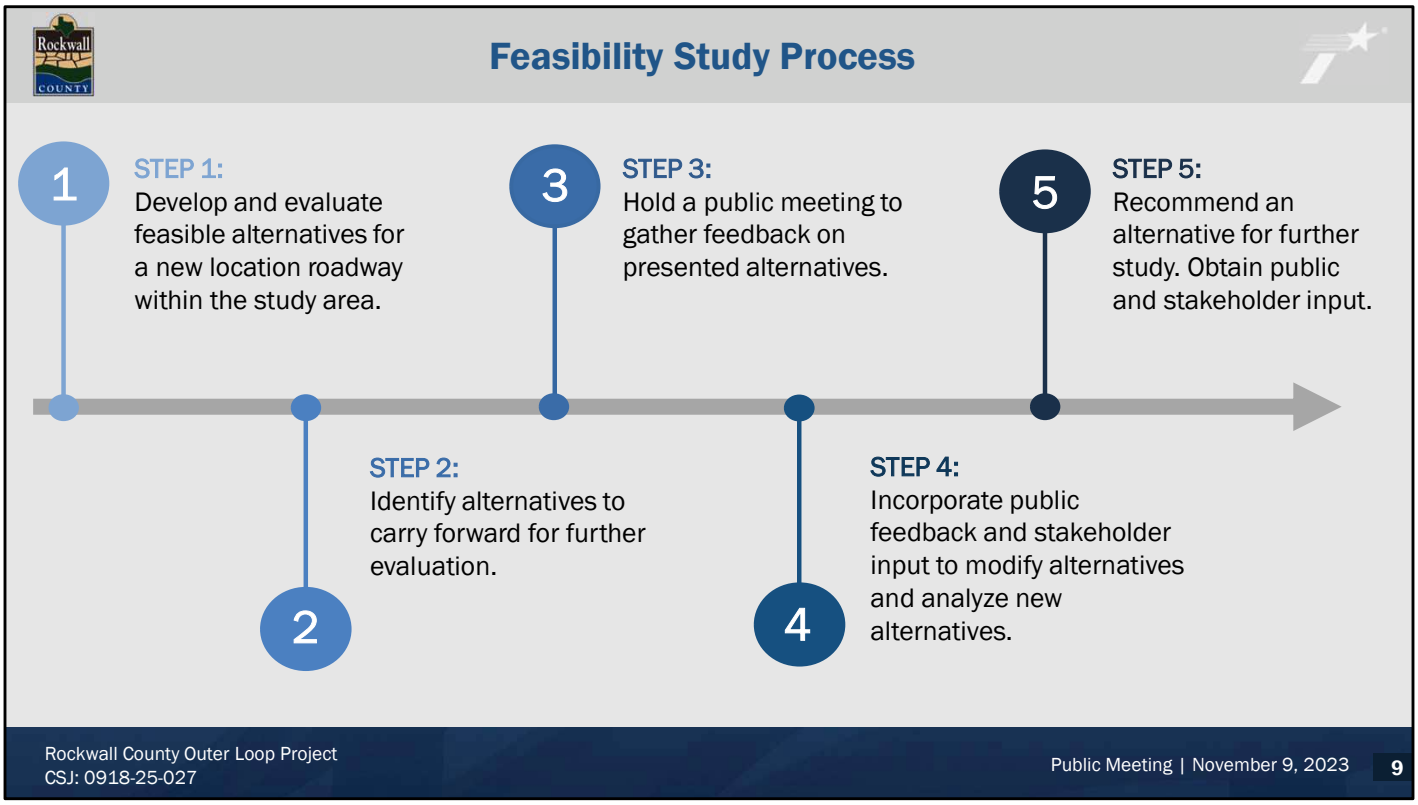

Each county's' respective portion of the regional outer loop is in different stages of study, planning, or development. For more information on other portions of the eastern regional outer loop, please see the project websites referenced on this slide.

SLIDE 8 – Project Purpose and Need

The proposed project is needed because there is a lack of north-south connectivity and roadway capacity within Rockwall County to meet local and regional mobility needs and accommodate projected vehicular traffic volume increases on the local roadway network resulting from anticipated development and population growth. A new location roadway is needed within the study area due to the lack of suitable, continuous north-south major arterials.

The purpose of the proposed project is to improve north-south connectivity and mobility at the local and regional level and accommodate population and traffic volume growth by providing a new roadway that would connect to existing highways and the planned Outer Loop in Collin and Kaufman counties.

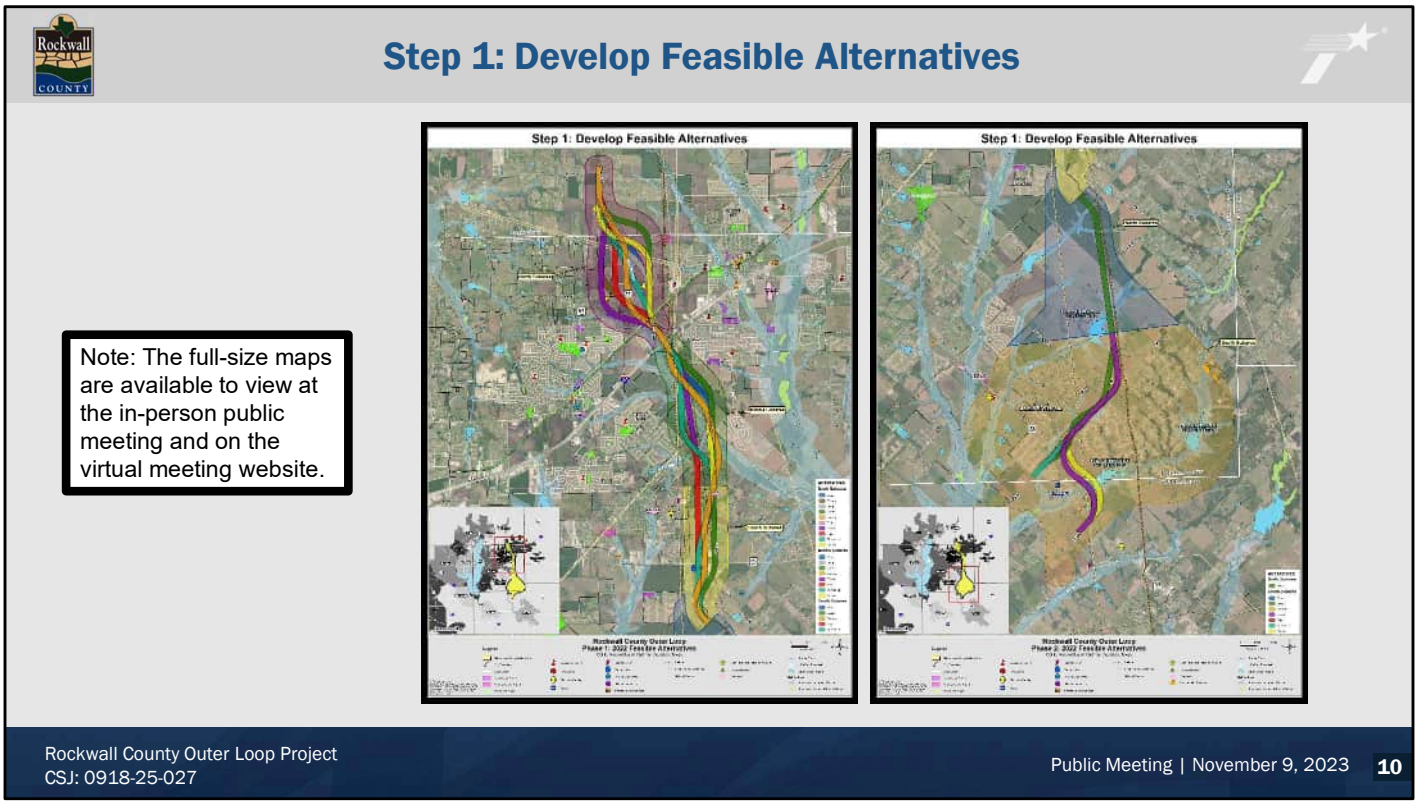

SLIDE 9 – Feasibility Study Process

A feasibility study is being conducted for the Rockwall County Outer Loop Project and consists of the following five steps to-date:

- Step one: Develop and evaluate feasible alternatives for a new location roadway within the study area.
- Step two: Identify alternatives to carry forward for further evaluation.
- Step three: Hold a public meeting to gather feedback on presented alternatives.
- Step four: Incorporate public feedback and stakeholder input to modify alternatives and analyze new alternatives.
- Step five: Recommend an alternative for further study. Obtain public and stakeholder input.

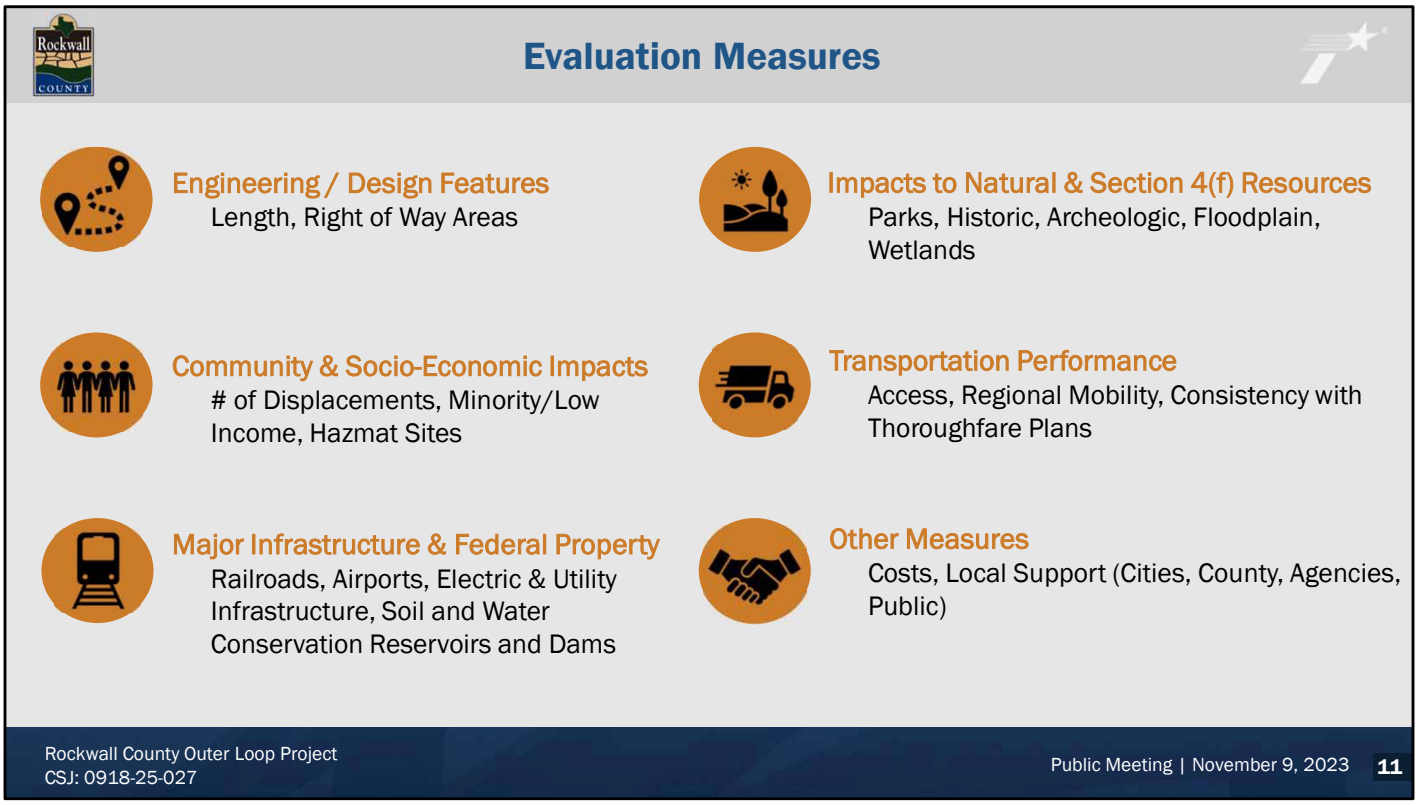

The following slides will further explain each step in the feasibility study process.

SLIDE 10 – Step 1: Develop Feasible Alternatives

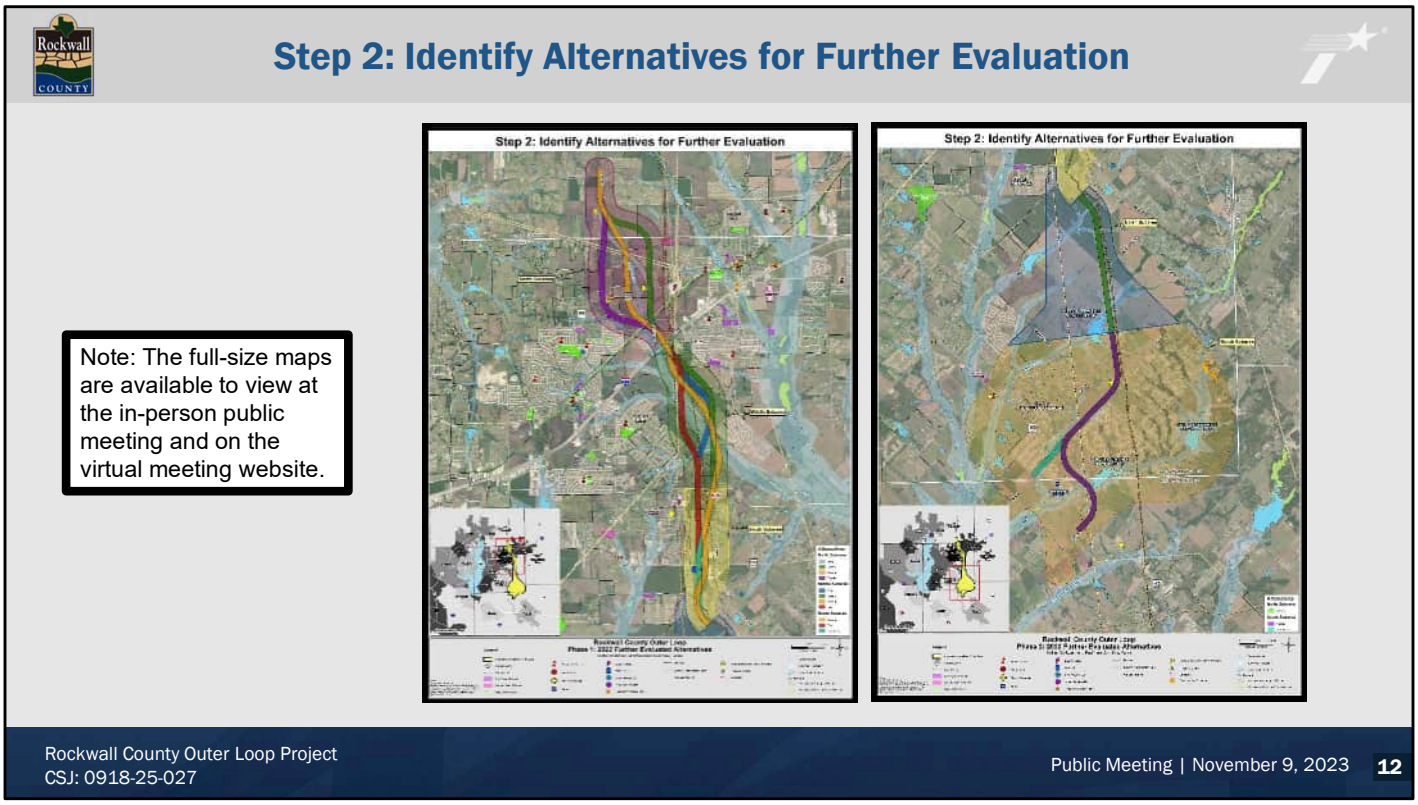

The first step of the feasibility study was to develop feasible alternatives. The study area was divided into two phases, Phase 1 and Phase 2, and five subareas. Phase 1 consisted of three subareas and Phase 2 consisted of two subareas. Alignment alternatives were developed for each subarea.

Please note. All full-size maps throughout the feasibility study are available to view at the in-person public meeting and on the virtual meeting website.

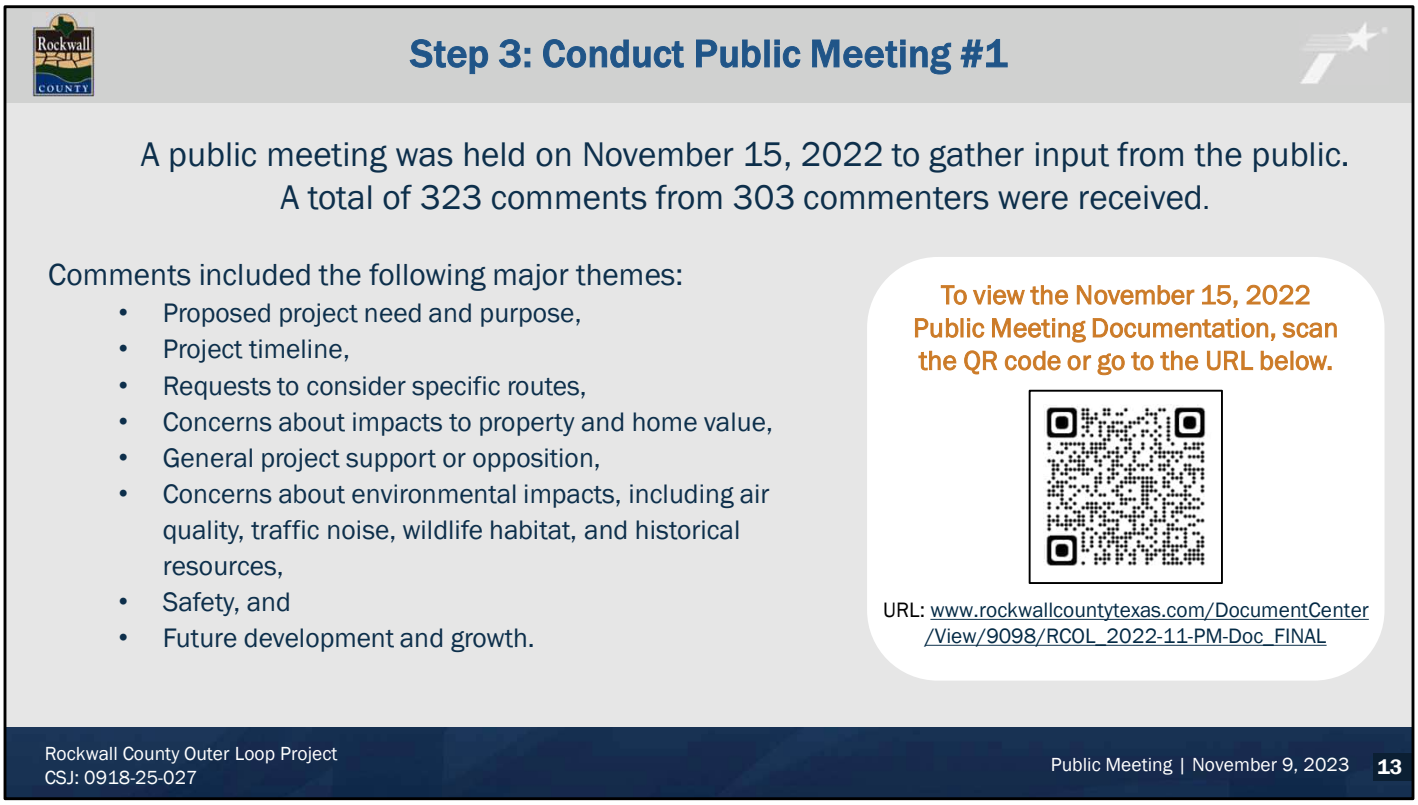

SLIDE 11 – Evaluation Measures

Each feasible alternative was evaluated using 41 different quantitative measures. Criteria categories included engineering and design features, community and socio-economic impacts, major infrastructure and federal property, natural and Section 4(f) resources, transportation performance, and other general measures. The results of the evaluation were used to determine which alternatives to carry forward for further evaluation.

SLIDE 12 – Step 2: Identify Alternatives for Further Evaluation

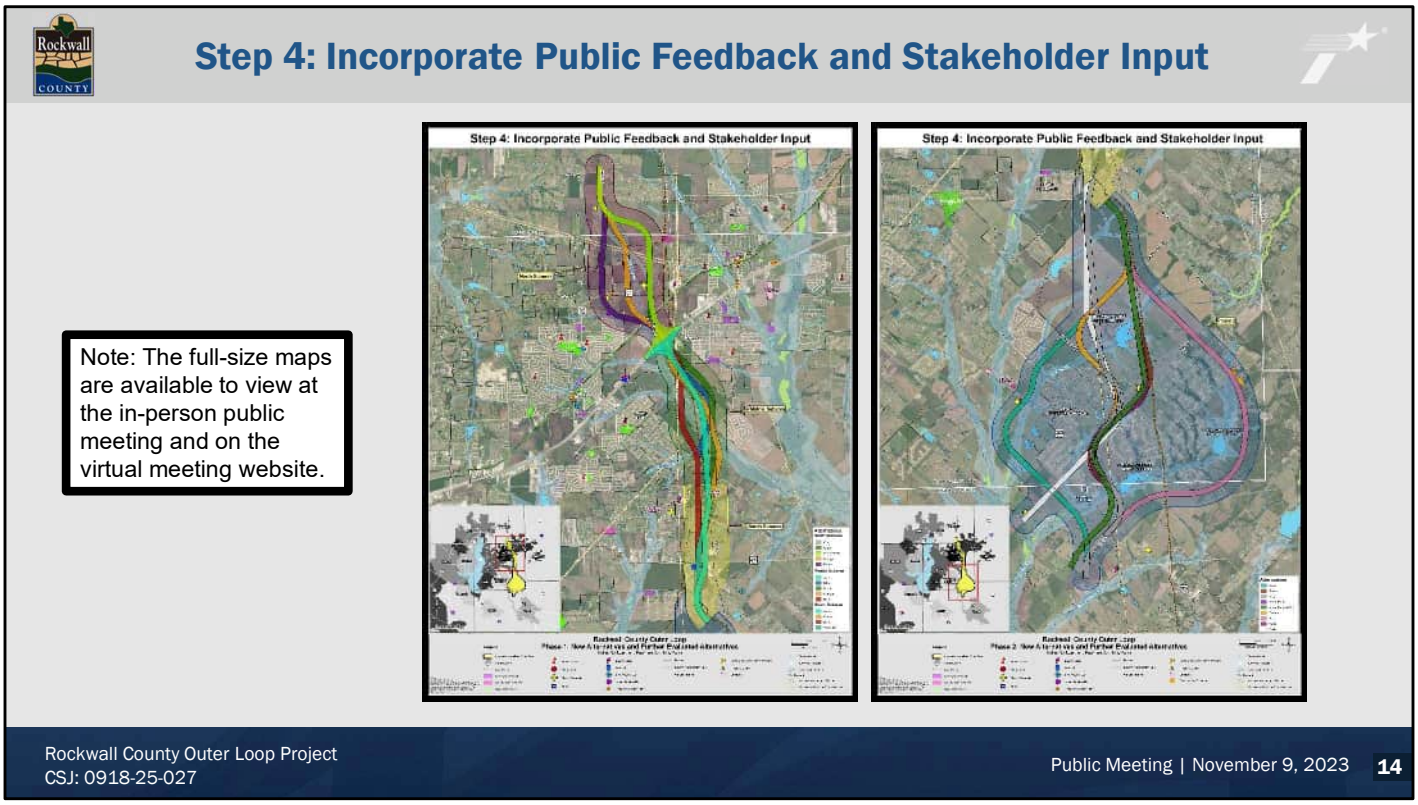

The project team identified the displayed alternatives for further evaluation. These alternatives were determined to minimize impacts, while still meeting the project's need and purpose.

SLIDE 13 – Step 3: Conduct Public Meeting #1

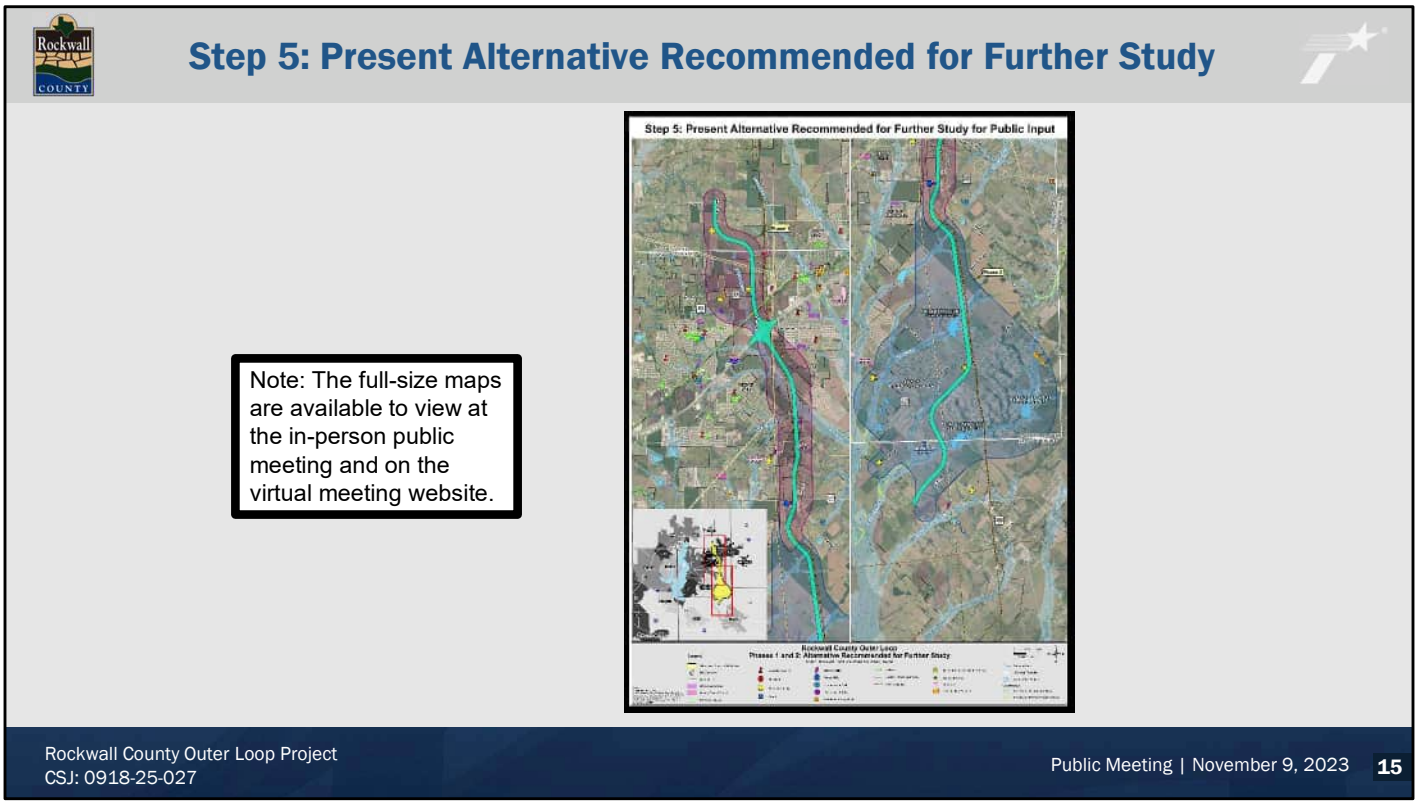

A public meeting was held on November 15, 2022 to gather input from the public on the alignments identified for further evaluation. The public meeting resulted in 323 comments from 303 commenters. Major themes from the comments are listed on the slide.

Responses to each comment received are available online in the comment/response matrix within the public meeting documentation. To access the previous public meeting documentation, please go to the link provided or scan the QR code on the slide.

SLIDE 14 – Step 4: Incorporate Public Feedback and Stakeholder Input

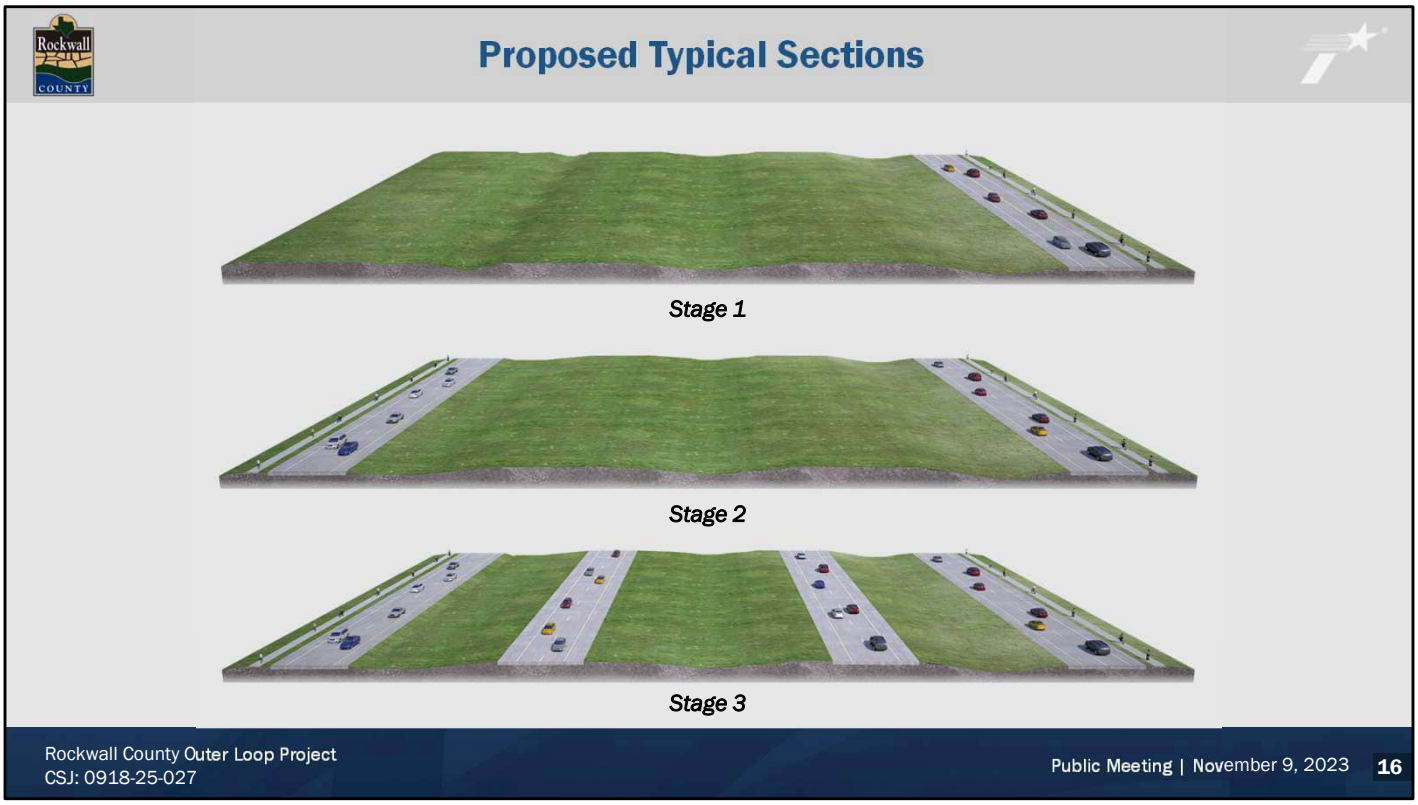

Alternatives presented at the 2022 public meeting were further evaluated based on public feedback and stakeholder input. To address public requests to consider alternate routes, and through continued stakeholder coordination, some previously presented alternatives were modified and a variety of new alternatives were developed. The same evaluation criteria were then applied to the new and/or modified alternatives with the addition of number of homes within 500 feet and refinement of types of open space. Phase 2 north and south subareas were combined for this round of analysis.

SLIDE 15 – Step 5: Present Alternative Recommended for Further Study

Based on evaluation criteria considered, the Phase 1 Hybrid and Phase 2 Modified Green/Purple alternatives are recommended for further study. The project team is seeking your feedback to further refine the alignment. Instructions on how to submit comments will be provided at the end of this presentation.

Following this public meeting, stakeholder and public input will be incorporated into schematic development and the environmental studies. Next steps and the tentative project timeline are covered on Slide 18.

SLIDE 16 – Proposed Typical Section

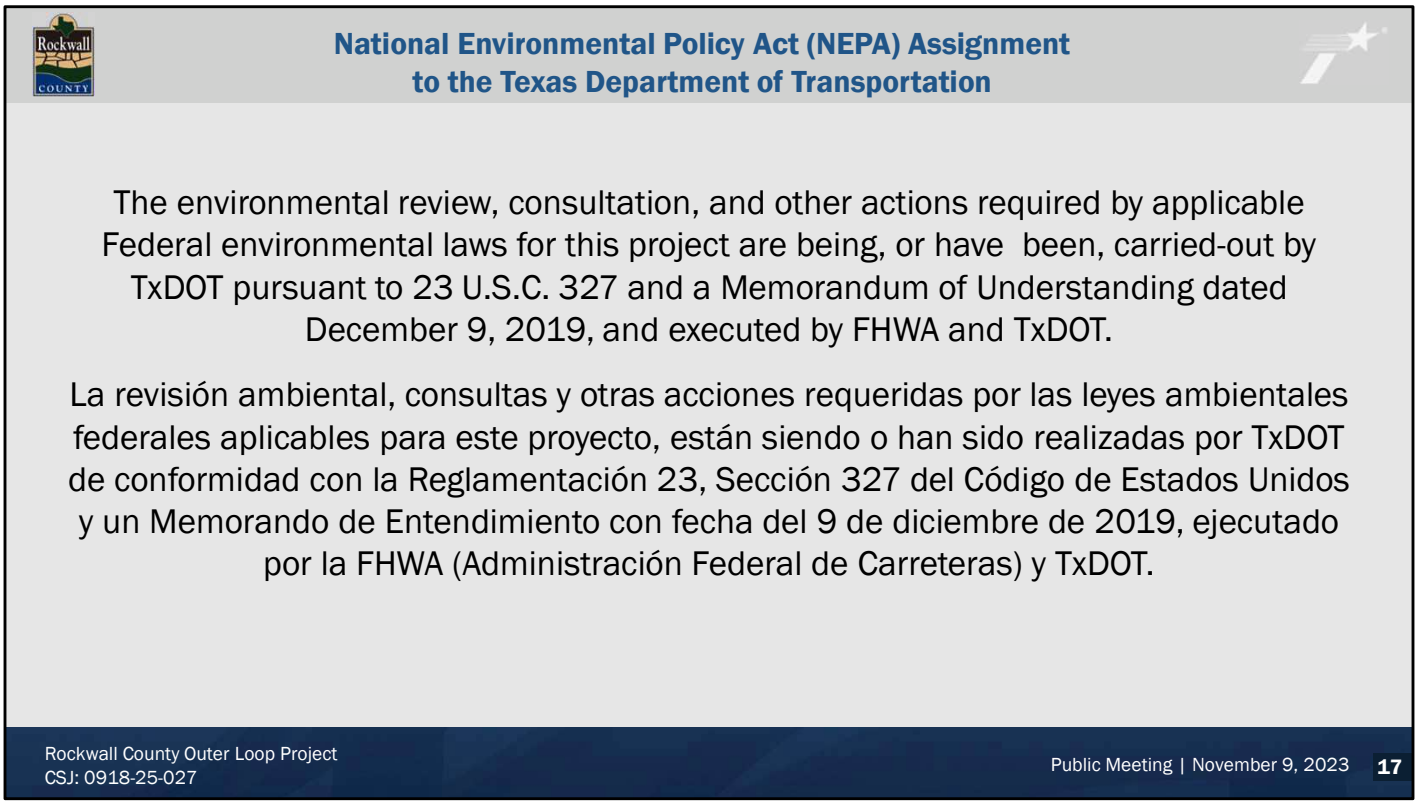

The project would be constructed in stages that are contingent on traffic volumes and available funding.

The proposed typical 500-foot-wide right-of-way for all stages would be acquired according to applicable policies and procedures prior to Stage 1.

Stage 1 would construct one frontage road with two lanes, one in each direction.

Stage 2 would add the other side of the paired frontage road for a total of four frontage road lanes, two lanes in each direction. Each frontage road would be converted to one-way operation. The median would be left open for future stages.

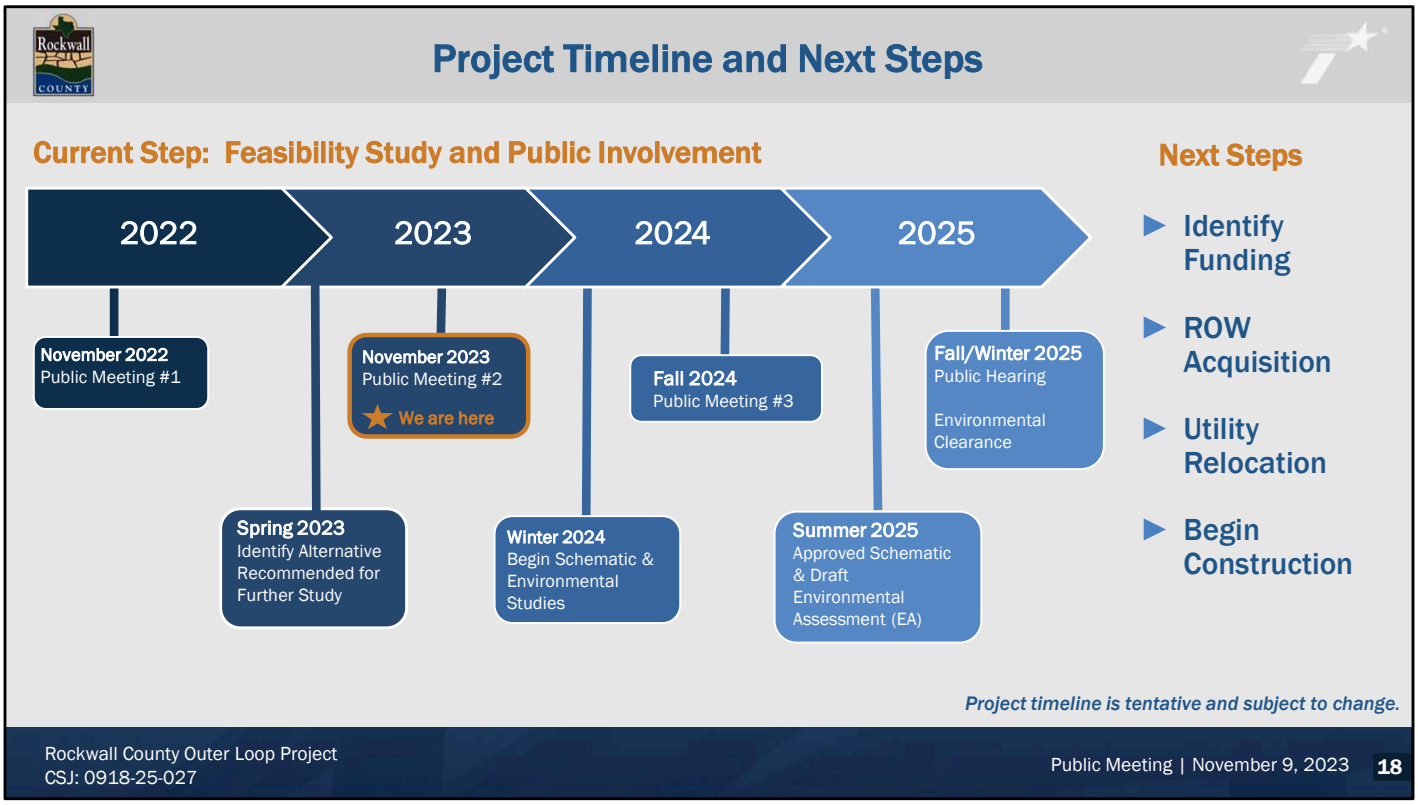

Stage 3, the ultimate proposed project configuration, would include the addition of a four-lane access-controlled highway, two main lanes in each direction between the frontage roads. The remaining median would be left open to allow space for future transportation-related developments to be studied separately. The proposed project would also include two shared-use bicycle and pedestrian paths with one on the outside of each frontage road.

<u>SLIDE 17 – National Environmental Policy Act (NEPA) Assignment to the Texas Department of Transportation</u>

Prior to December 16, 2014, the Federal Highway Administration, or FHWA, received and approved documents prepared under the National Environmental Policy Act, known as NEPA; however, on December 14, 2014 the Texas Department of Transportation assumed responsibility from FHWA through a Memorandum of Understanding to review and approve certain assigned NEPA environmental documents. This Memorandum of Understanding between TxDOT and FHWA was updated on December 9, 2019. The review and approval process apply to this project. Environmental studies will be conducted for the Rockwall County Outer Loop Project to support an environmental clearance in accordance with NEPA. These environmental analyses are necessary to identify, avoid, and minimize effects to the Human and Natural Environments.

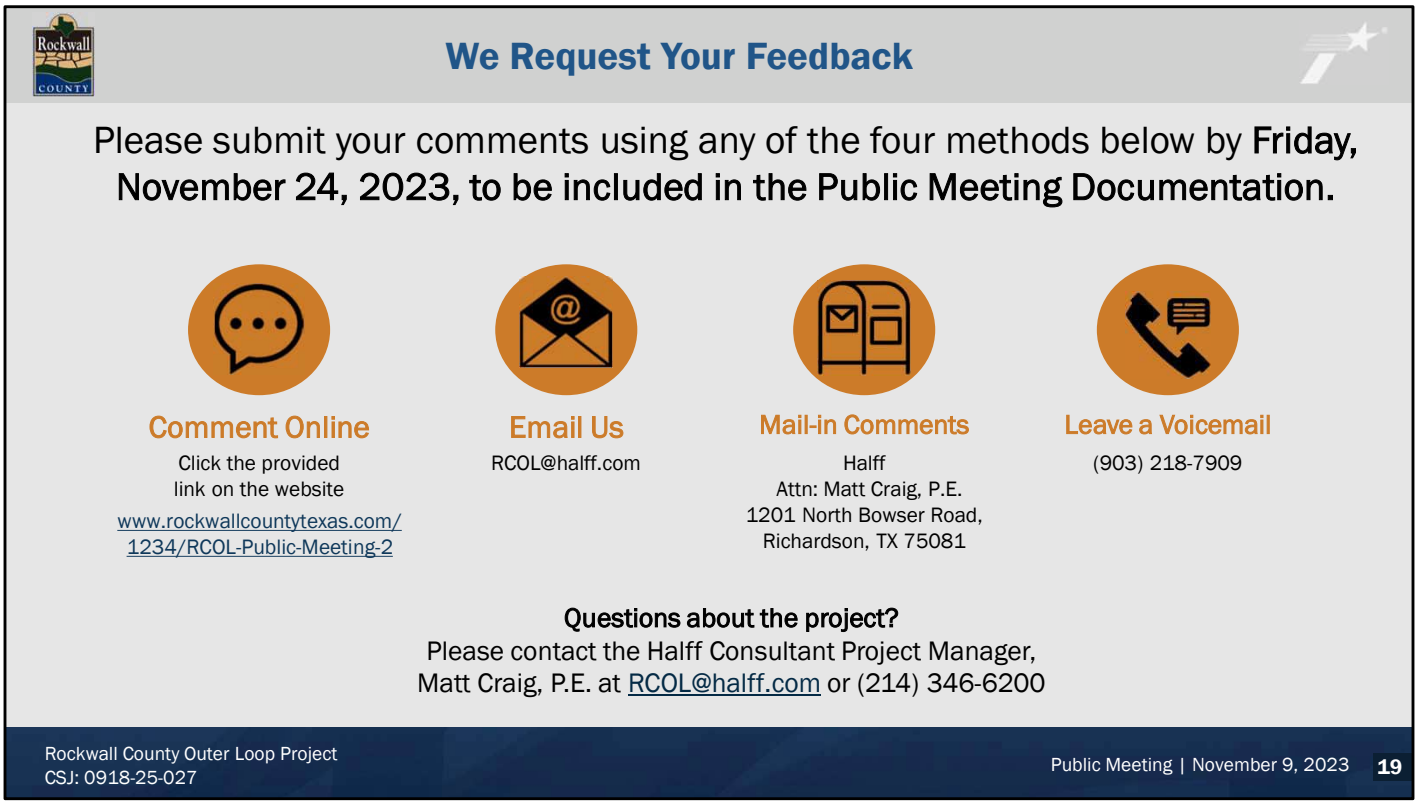

Notices for this public meeting were advertised in Spanish in *Al Día*, and in English in the *McKinney Courier-Gazette, Rockwall County Herald-Banner, Royse City Herald-Banner, Dallas Morning News*, and on the TxDOT.gov website under “Hearings and Meetings.” Notice of the public meeting was mailed to study area property owners, elected and public officials, project stakeholders, and previous public meeting participants.

SLIDE 18 – Project Timeline and Next Steps

Schematic design and environmental studies are anticipated to begin in winter of 2024. A third public meeting is expected to be held in fall of 2024. A final approved schematic and draft environmental assessment, or EA, are expected to be completed in summer of 2025, followed by a public hearing and then environmental clearance in mid-to-late 2025.

After the public hearing and environmental clearance, TxDOT and Rockwall County will identify funding, begin the right-of-way acquisition and utility relocation processes, and then begin construction.

SLIDE 19 – We Request Your Feedback

Your feedback is requested on the Rockwall County Outer Loop Project. Comments will be accepted in four ways, which are outlined here on the slide. All comments will be fully considered and responded to in the project record and made part of the environmental documentation for Rockwall County Outer Loop. The public meeting documentation, including responses to comments, will be made available at www.rockwallcountytexas.com/loop once it is completed. All comments must be received or postmarked by Friday, November 24, 2023, to be included in the official public meeting documentation.

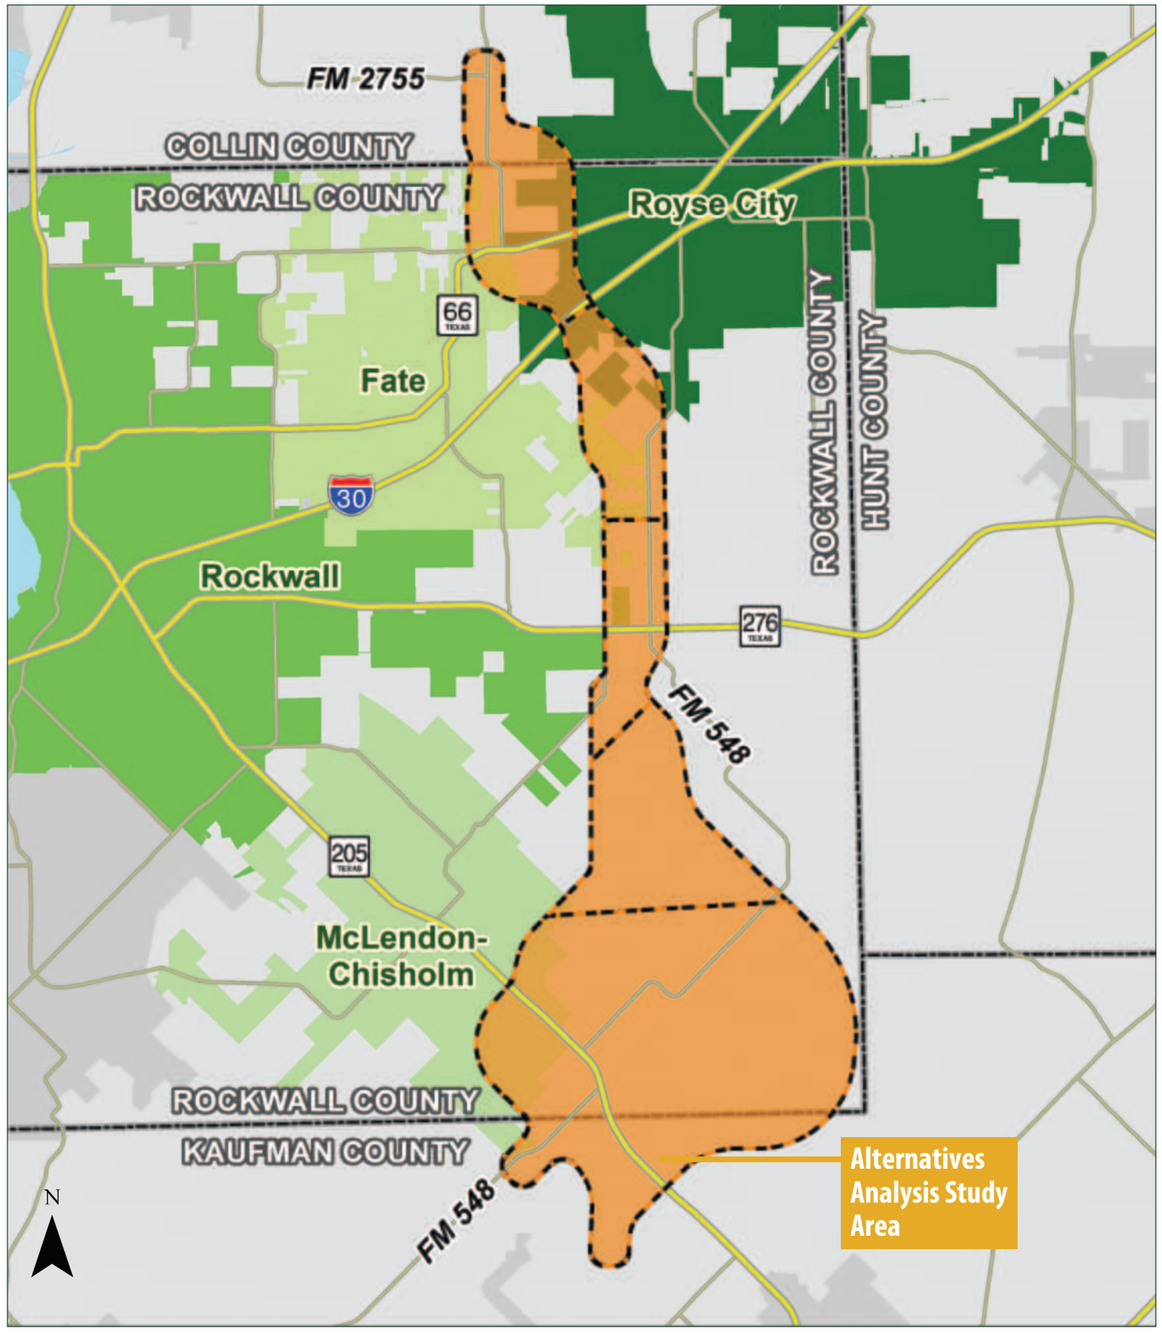

Project questions are welcomed throughout the entire project development process. If you have questions or comments throughout project development, please contact the Consultant Project Manager, Matt Craig, P.E., during regular office hours at (214) 346-6200 or by email at RCOL@halff.com.

SLIDE 20 – Thank You

Thank you. We sincerely appreciate your participation and interest concerning the Rockwall County Outer Loop Project. Your questions, comments, and concerns will receive careful consideration. This concludes the public meeting presentation.

ROCKWALL COUNTY OUTER LOOP

The Rockwall County Outer Loop Project includes a feasibility study for a new location roadway from Farm-to-Market (FM) 2755 to State Highway (SH) 205 in Rockwall County, Texas. The study evaluated alternatives through Rockwall County within or near the cities of Fate, Royse City, McLendon-Chisholm and Rockwall. A project alternative recommended for further study has been identified and is being presented to the public for review and comment.

PURPOSE AND NEED

Project Need

The proposed project is needed because there is a lack of north-south connectivity and roadway capacity within Rockwall County to meet local and regional mobility needs and accommodate projected vehicular traffic volume increases on the local roadway network resulting from anticipated development and population growth. A new location roadway is needed within the study area due to the lack of suitable, continuous north-south major arterials.

Project Purpose

The purpose of the proposed project is to improve north-south connectivity and mobility at the local and regional level and accommodate population and traffic volume growth by providing a new roadway that would connect to existing highways and the planned Outer Loop in Collin and Kaufman counties.

PROJECT DETAIL

Project Limits:

- From FM 2755
- To SH 205

TxDOT CSJ: 0918-25-027

Project Length: 14.4 miles

Construction Start: TBD

Description:

Construction of the proposed project would occur in stages, both in length and width. Staging in length would be dependent on funding and travel demand along the alignment. The staging in width is anticipated to occur as follows:

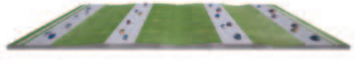

- **Stage 1** would construct one frontage road with two lanes, one in each direction. The proposed right-of-way (ROW) for all stages would be acquired according to applicable policies and procedures prior to Stage 1.

- **Stage 2** would add the other side of the paired frontage road for a total of four frontage road lanes, two lanes in each direction. Each frontage road would be converted to one-way operation. The median would be left open for future stages.

- **Stage 3** would include the addition of a four-lane access-controlled highway, two main lanes in each direction between the frontage roads, within a typical 500-foot-wide right-of-way. The remaining median would be left open to allow space for future transportation-related developments to be studied separately.

PROJECT STATUS

A recommended alternative for further study has been identified to address the purpose and need of the project following TxDOT design guidelines, environmental policy, and public involvement process. The recommended alternative for further study is being presented to the public at the November 9, 2023.

PROGRAMMING AND FUNDING STATUS

MTP (Mobility 2045 Update) **MTP ID:** 111.10.3 and 111.20.1	YES
UTP (2024 Unified Transportation Program)	NO
STIP (Statewide Transportation Improvement Program, 2023-2026)	NO
Funded	$0

Rockwall County is coordinating with TxDOT and NCTCOG to add the proposed project in future UTP and STIP updates.

Current Step: Feasibility Study and Public Involvement

*Environmental Assessment

Project timeline is tentative and subject to change.

National Environmental Policy Act (NEPA) Assignment

The environmental review, consultation, and other actions required by appliable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto, están siendo o han sido realizadas por TxDOT de conformidad con la Reglamentación 23, Sección 327 del Código de Estados Unidos y un Memorando de Entendimiento con fecha del 9 de diciembre de 2019, ejecutado por la FHWA (Administración Federal de Carreteras) y TxDOT.

Project History

2002

Governor Rick Perry directed TxDOT to develop a statewide network of multimodal transportation improvements to meet demands expected in the 21st Century.

2005

Rockwall County initiated public outreach to develop potential alignments for the Rockwall County portion of an outer loop around Dallas-Fort Worth.

2007

NCTCOG included a regional outer loop in *Mobility* 2030 as a circumferential relief route for the metroplex.

2011

NCTCOG released the **Regional Outer Loop Feasibility Study** and included studies of corridors on the east side of the region.

2022

Rockwall County, in partnership with TxDOT, have started a new study to refine the Rockwall County Outer Loop. The first public meeting was held in November 2022.

Overall Alternatives Analysis and Route Study Methodology

1

STEP 1:
Develop and evaluate feasible alternatives for a new location roadway within the study area.

2

STEP 2:
Identify alternatives to carry forward for further evaluation.

3

STEP 3:
Hold a public meeting to gather feedback on presented alternatives.

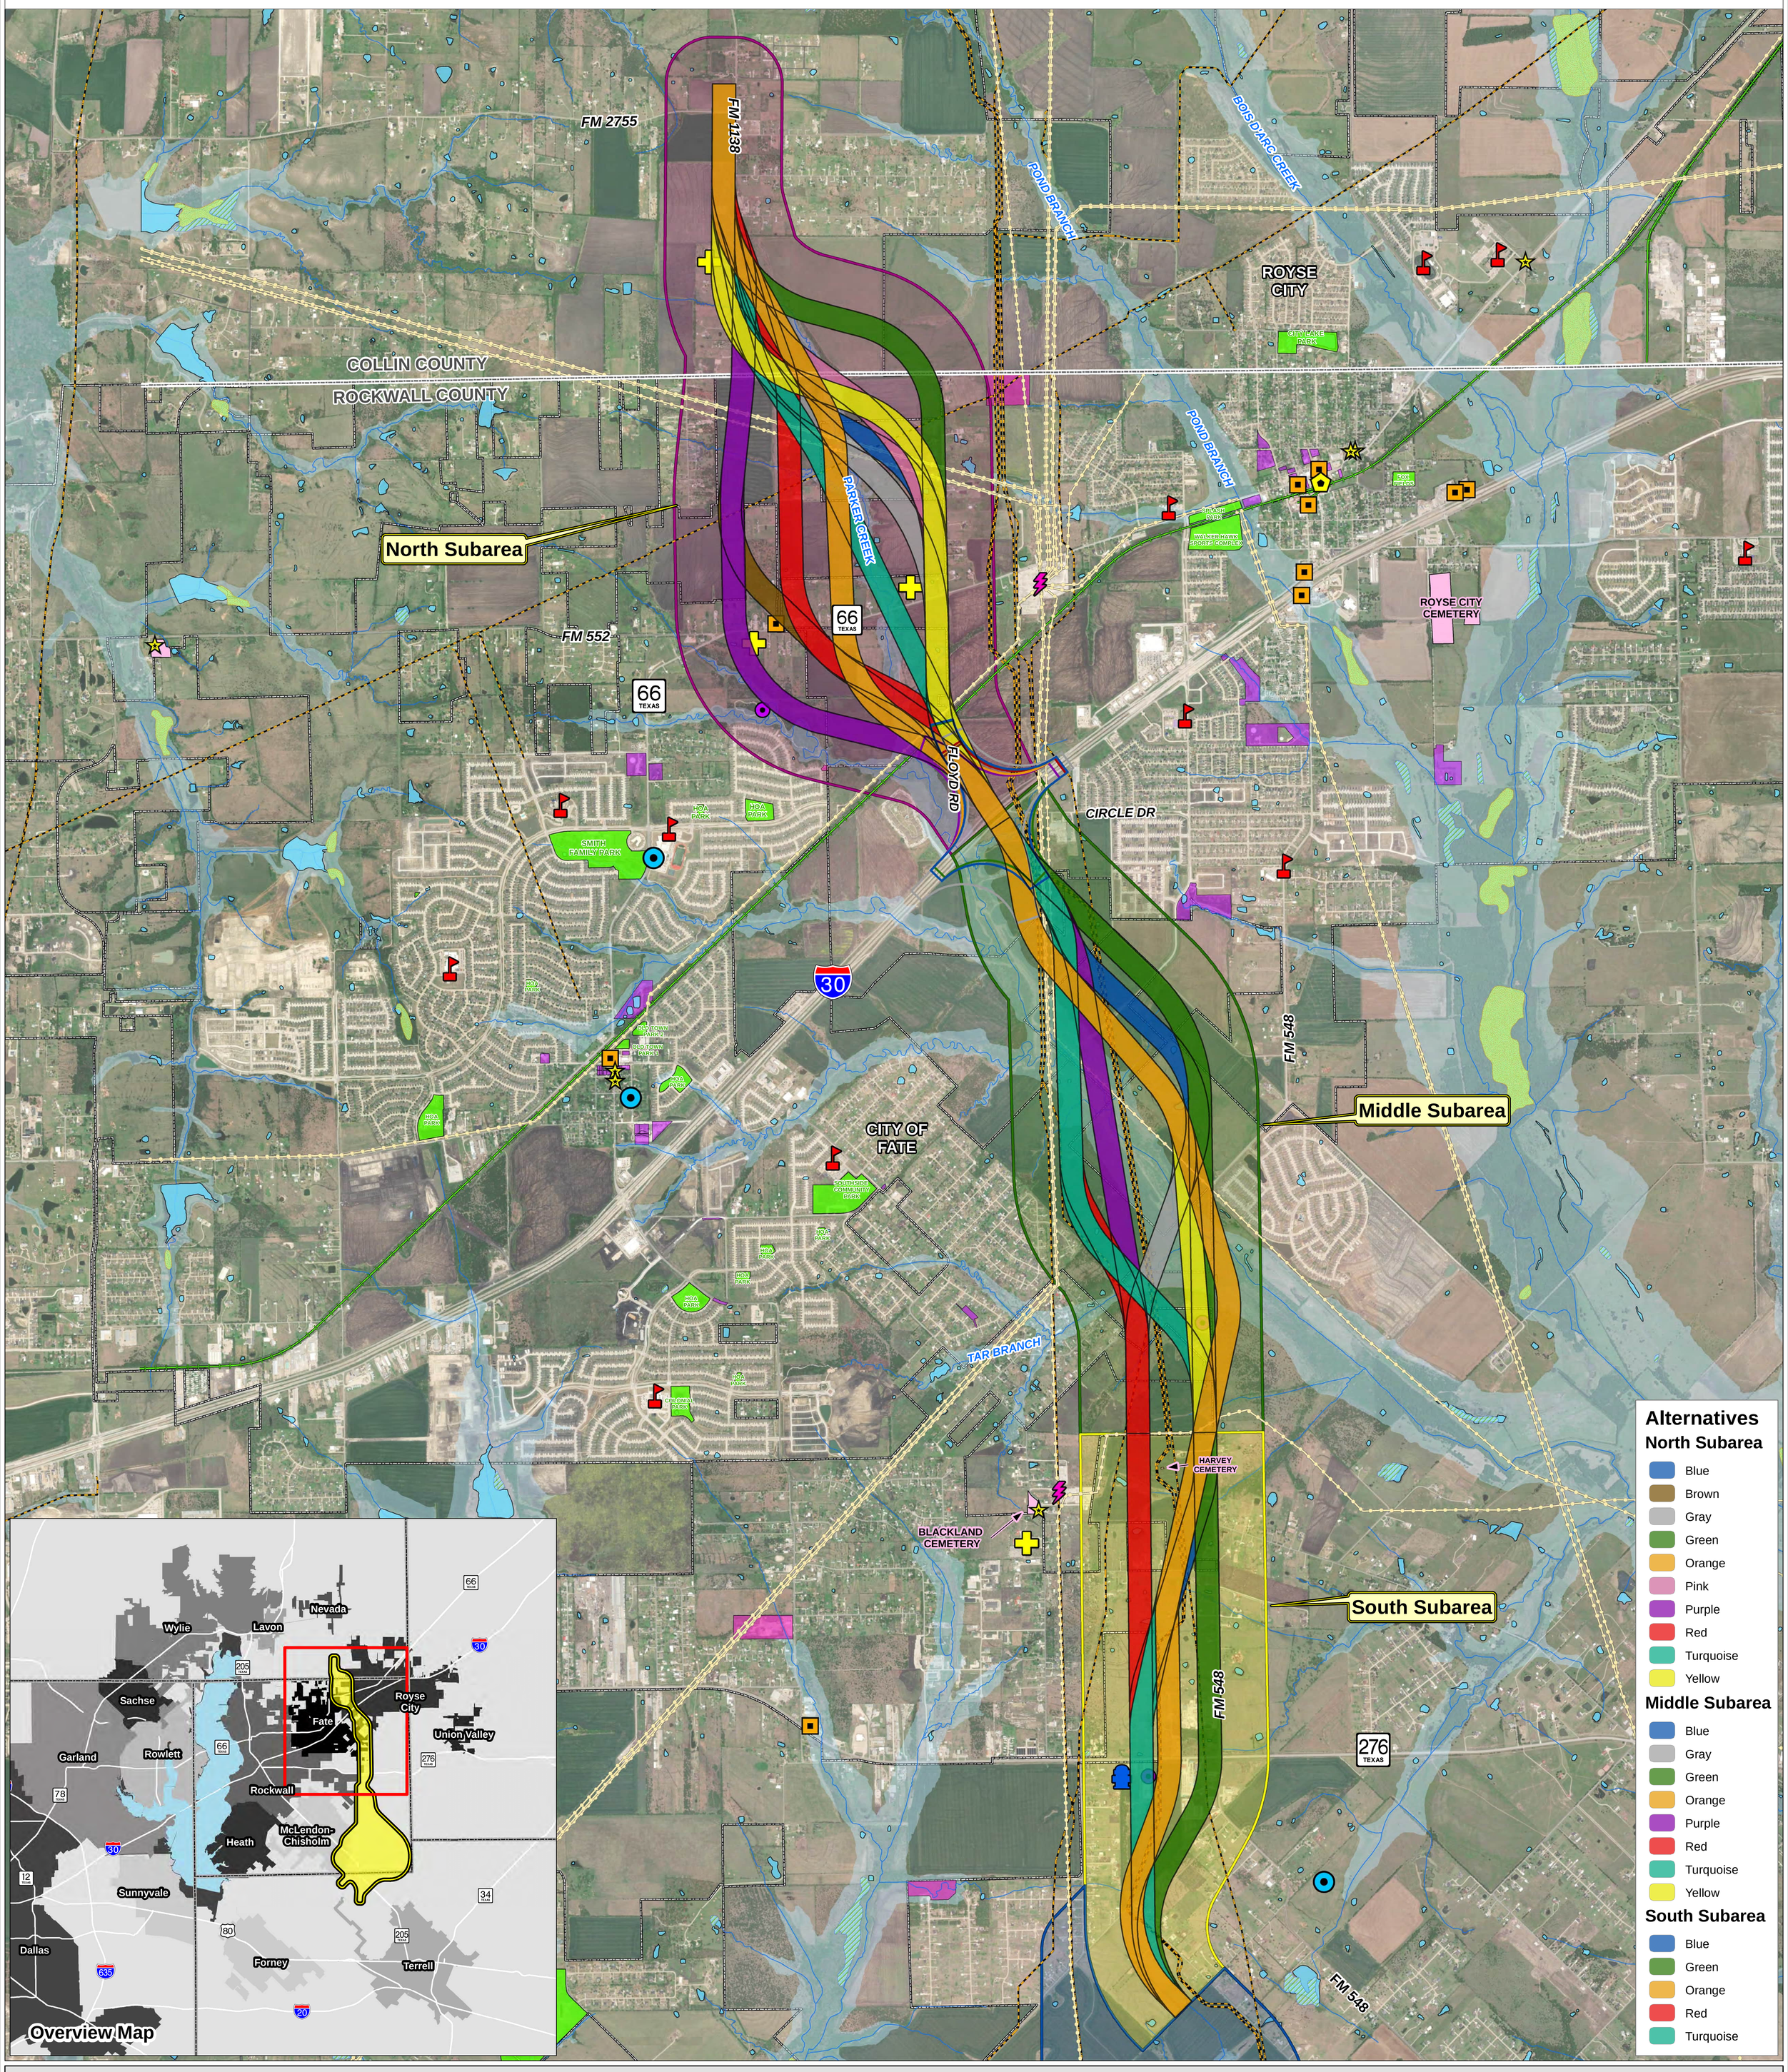

4

STEP 4:
Incorporate public feedback and stakeholder input to modify alternatives and analyze new alternatives.

5

STEP 5:
Recommend an alternative for further study. Obtain public and stakeholder input.

Step 1: Develop Feasible Alternatives

Feasible alternatives were evaluated against 41 quantifiable criteria. Criteria categories include:

- **Engineering & Design Features**:
  route length, ROW areas
- **Community & Socio-Economic Impacts**:
  # of displacements, minority/low income, hazmat sites
- **Major Infrastructure & Federal Property**:
  railroads, airports, electric & utility infrastructure, soil & water conservation reservoirs & dams
- **Impacts to Natural & Section 4(f) Resources**:
  parks, historic, archeologic, floodplain, wetlands
- **Transportation Performance**:
  access, regional mobility, consistency with Thoroughfare Plans
- **Other Measures**:
  costs, local support (cities, county, agencies, public)

Step 3: Conduct Public Meeting #1

A public meeting was held on November 15, 2022 to gather input from the public. A total of 323 comments from 303 commenters were received.

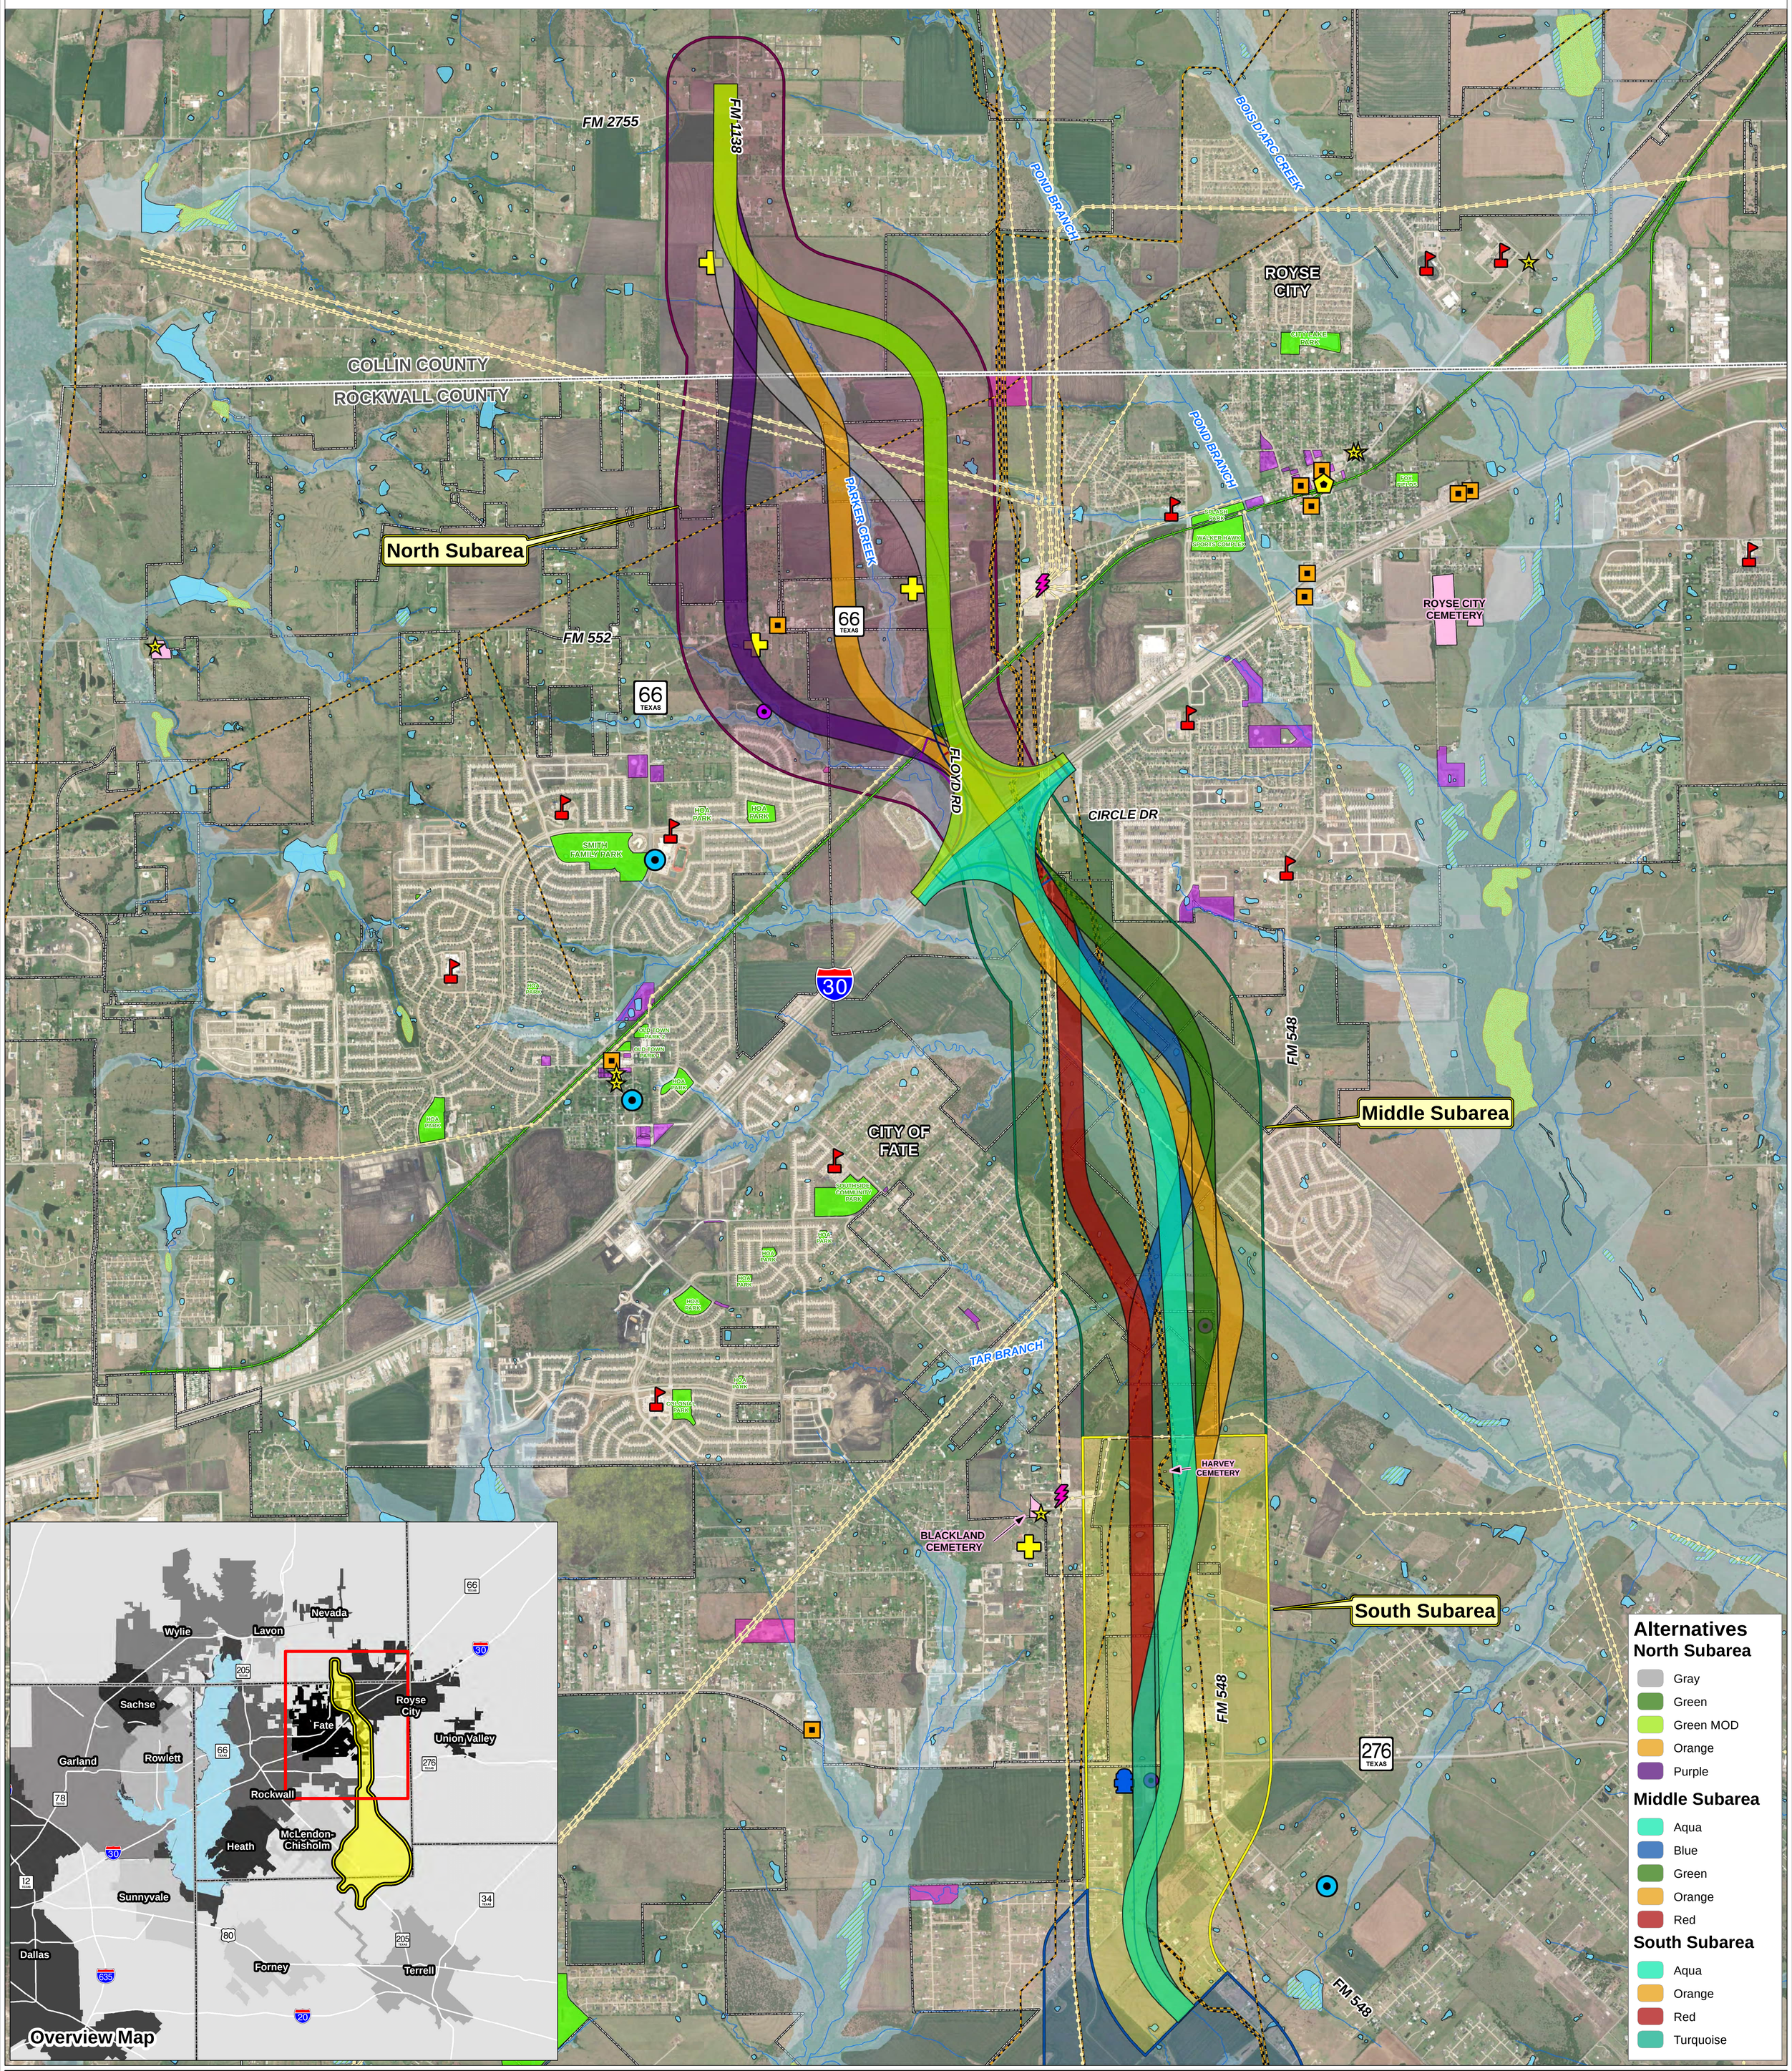

Comments included the following major themes:

- Proposed project need and purpose,
- Project timeline,
- Requests to consider specific routes,
- Concerns about impacts to property and home value,
- General project support or opposition,
- Concerns about environmental impacts, including air quality, traffic noise, wildlife habitat, and historical resources,
- Safety, and
- Future development and growth.

Step 4: Incorporate Public Feedback and Stakeholder Input

Alternatives presented at the November 2022 public meeting were refined and evaluated along with new alternatives developed based on public and stakeholder feedback.

Phase 1

North Subarea:

- Added **Modified Green** to improve geometry at the crossing with I-30

Middle & South Subareas:

- Added **Aqua** to address public requests and minimize impacts to major utilities and floodplains as well as uneconomic land remainders by combining previous alternatives with minor modifications

Phase 2 (Merged North & South Subareas for further evaluation)

- Added **White** to represent the 2007 approved alternative; Added **Gray** & **Orange** as variations with lesser impact considering recent developments
- Added **Aqua** & **Pink** in response to public feedback regarding proximity to neighborhoods
- Added **Modified Purple** in coordination with Kaufman County Outer Loop study and stakeholders
- Added **Brown** & **Violet** as variations of previous alternatives to lessen impacts to commercial operations, residences, & major oil/gas pipelines

Evaluation criteria was updated for the following:

- the # of residences within 500 feet of alternatives
- conservation easements acreage located within new alternatives

Overview Map

Project Need and Purpose

Need:

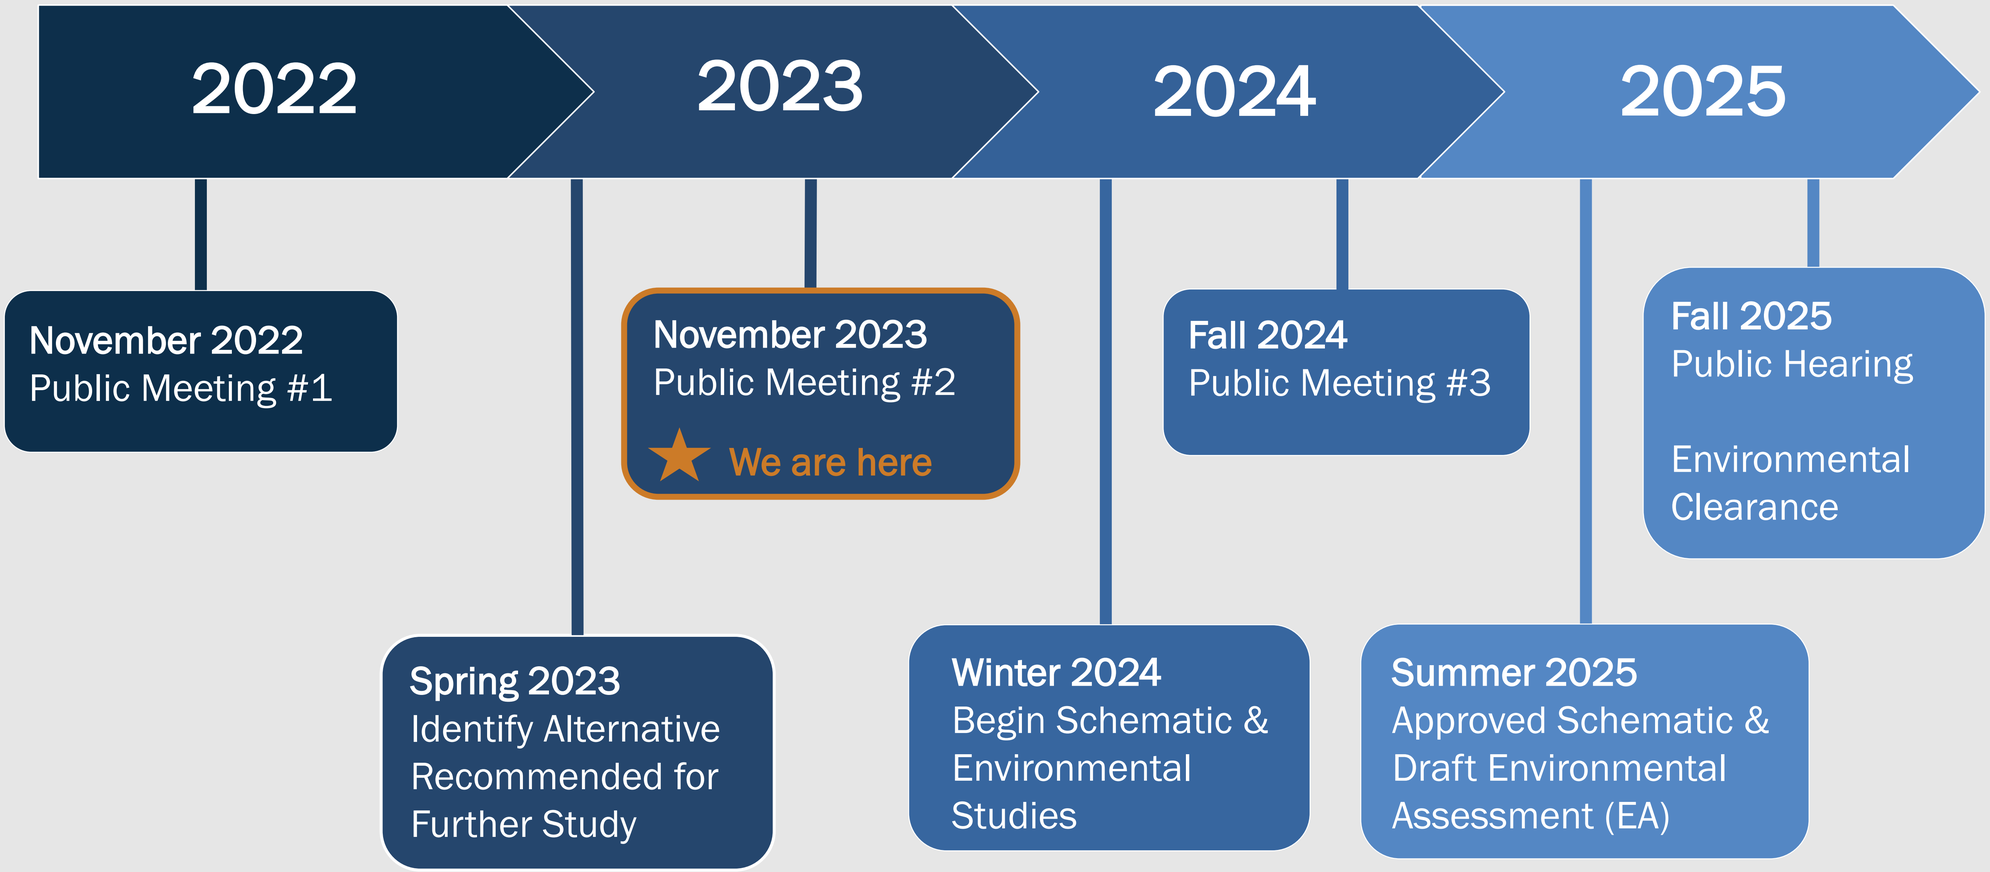

The proposed project is needed because there is a lack of north-south connectivity and roadway capacity within Rockwall County to meet local and regional mobility needs and accommodate projected vehicular traffic volume increases on the local roadway network resulting from anticipated development and population growth. A new location roadway is needed within the study area due to the lack of suitable, continuous north-south major arterials.

Purpose:

The purpose of the proposed project is to improve north-south connectivity and mobility at the local and regional level and accommodate population and traffic volume growth by providing a new roadway that would connect to existing highways and the planned Outer Loop in Collin and Kaufman counties.

Project Timeline and Next Steps

Current Step: Feasibility Study and Public Involvement

Next Steps

- Identify Funding
- ROW Acquisition
- Utility Relocation
- Begin Construction

Project timeline is tentative and subject to change.
