2 If you need medical care.

How to get the most out of your benefits.

Pick a network PCP.

A PCP is a primary care provider, sometimes called a primary care physician or doctor. It can be a family practitioner, internist, pediatrician or general medicine physician. Although your plan may not require you to choose a PCP,* it's a good idea to have one. Your PCP generally:

- Knows your history.
- Builds an in-depth knowledge of your health over time.
- Helps guide you on the best path of care.
- Can advise you when to see a specialist and provide electronic referrals.

Find a network provider.

Sign in to **myuhc.com > Find Care & Costs** to find a network PCP, clinic, hospital or lab based on location, specialty, reputation, estimated cost of services, availability, hours of operation and more. You can even see patient ratings and compare quality and costs before you choose a provider. If you would like more information about a provider's qualifications, call the toll-free member phone number on your ID card.

Make more informed choices.

The **UnitedHealth Premium® Program** uses national, evidence-based, standardized measures to evaluate physicians in various specialties to help you locate quality and cost-efficient providers. Find UnitedHealth Premium Care Physicians by going to **myuhc.com > Find Care & Costs. Look for blue hearts.**

Keep up on preventive care.

Preventive care—such as routine wellness exams, certain recommended screenings and immunizations—is covered by most UnitedHealthcare plans at no additional cost when you see network providers. Learn more at **uhc.com/preventivecare.**

^{*}Depending on your health plan, selection of a primary care physician may be required.

If you need medical care.

Know what to do if you need:

Referrals.

If your ID card states "Referrals Required," you'll need an electronic referral from your PCP before seeking services from another network provider. To learn what services require referrals, sign in at **myuhc.com > Coverage & Benefits** to view your coverage details.

Hospital care.

Talk to your PCP first to determine which hospital in your network can meet your medical or surgical needs. You or the admitting physician may be required to notify UnitedHealthcare before you're admitted.

Prior authorization.

Your plan may also require prior authorization before you receive certain services. This means that you or your network provider may need to get approval from your plan before the services are covered. Call the toll-free member phone number on your ID card or sign in at **myuhc.com > Coverage & Benefits** to check if prior authorization is needed.

Here's an example of how a health plan works.

Let's take a look at an example of how a typical plan works when you receive care from a network provider. Your plan may be different. Find your specific plan details at myuhc.com > Coverage & Benefits.

And here's the breakout.

At the start of your plan year You're responsible for paying 100 percent of your covered health services until you reach your deductible, which is the amount you pay before your health plan pays a portion.	YOU PAY 100%
Along the way	
You may also be required to pay a fixed amount—or copay —each time you see a provider.	YOU PAY 100% of the copay
Once you reach your deductible	YOU PAY 20%
Your health plan starts to share a percentage of the costs for covered health care services with you—this is your coinsurance .*	YOUR PLAN PAYS 80%
When you reach your out-of-pocket limit	
Your plan covers your costs (the allowed amount) at 100 percent. Your out-of-pocket limit is the most you'll pay for covered health services in a plan year—copays and coinsurance count toward this.	YOUR PLAN PAYS 100%

^{*}Your coinsurance may vary by service. This example is for illustrative purposes only. Please visit myuhc.com > Coverage & Benefits for your coverage details.

If you need medical care.

Get to know your care options and costs.

How much you pay for care can depend on where you go. You'll want to make your PCP your first stop whenever possible. For life-threatening conditions, call 911 or go to an emergency room.

Did you know?

Emergency rooms are the most expensive place to get care. When you need to be seen, consider the chart above to help you find care. If you're still unsure about what's best for your situation, sign in to myuhc.com > Find Care & Costs to locate a network provider or call the member phone number on your ID card for support. If you have a question about what's covered by your plan, visit myuhc.com > Coverage & Benefits for answers.

Virtual Visits are not an insurance product, health care provider or a health plan. Unless otherwise required, benefits are available only when services are delivered through a Designated Virtual Network Provider. Virtual Visits and Urgent Care visits are not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times or in all locations.
